Agricultural Statistics of India

1918-19

VOLUME I—BRITISH INDIA

Introductory Note

This annual volume is the thirty-fifth of the series started in 1886 with statistics for 1884-85. As in the previous issue, figures for twenty years are shown in Summary table No. 1, for ten years in the provincial tables, and for two years in the district tables. A map showing the departure from the normal of cropped area and that of rainfall in 1918-19 and other charts as detailed in the penultimate paragraph of this report, together with an index for easy reference, have been added to the volume.

The statistics are compiled from annual returns furnished by Local Governments and Administrations. Detailed information as to the sources from which the figures are collected in the different provinces is given in footnotes to the respective tables for each province. The statistics consist of six separate tables, namely, I—Area; II—Classification of area; III—Area under crops; IV—Live-stock, ploughs, and carts; V—Land Revenue Assessment; and VI—Transfers of property in land. The totals of the figures given in these tables are shown in a series of summary tables, to which a table on world crops is added. In addition to these, there are four appendices, namely, Appendix A dealing with the average yield per acre of principal crops; Appendix B showing the changes made in district and provincial boundaries; Appendix C giving the meaning of vernacular terms used in the volume; and Appendix D containing an alphabetical list of crops cultivated in India and their classification in Table III. This volume, it may be noted, deals with the agricultural statistics of British Provinces, while Volume II deals with those of Indian States* as far as they are reported.

The returns for each province relate to the following dates:—

Bengal, Bihar and Orissa, Assam, Coorg, and Manpur	Year ended 31st March
Central Provinces and Berar	„ 31st May
North-West Frontier Province	„ 15th June
United Provinces, Madras, Burma, and Ajmer-Merwara	„ 30th „
Bombay	„ 31st July
Punjab and Delhi	„ 30th September

It may be noted that the statistics relating to areas irrigated (Table II) and areas under crops and specification of crops (Table III) generally include both the *kharif* and the *rabi* crops, and relate to the year closing with the harvesting of the *rabi* or spring crops.

* In Appendix A (Volume I), however, figures relating to Mysore are shown separately.

The total area of India is 1,800,000 square miles, or 1,152,559,000 acres, with a population of 315 millions according to the census of 1911. This may be divided as follows :—

	Acres.	Population.
(1) British Provinces (including Indian States within the political jurisdiction of Local Governments and Administrations) . . .	754,961,000	267,623,000
(2) Indian States having direct political relations with the Government of India	316,400,000	44,767,000
(3) Certain specially administered territories in Burma (the greater part of the Shan States) and in the North-West Frontier Province (Tribal areas, etc.) not included under (1) . .	46,492,000	2,279,000
(4) British Baluchistan (including administered areas)	34,706,000	414,000
Total .	1,152,559,000	315,083,000

No returns of agricultural statistics are prepared either for item (3) certain specially administered territories in Burma and in the North-West Frontier Province, or for item (4) British Baluchistan.

Table I. Total area.

The total area of the British Provinces dealt with in this volume—754,961,000 acres or 1,180,000 square miles—includes 129,795,000 acres, with a population of some 26 millions, belonging to Indian States, which are within the political jurisdiction of Local Governments and Administrations. These include in Burma the Mông mit State, the Hkamte Long State, and the Upper Chindwin States; in Assam, Manipur and the Khasi and Jaintia Hill States; in Bengal, Cooch Bihar and Tripura; in Bihar and Orissa, the Tributary States of Orissa and Chota Nagpur; in the United Provinces, Rampur, Tehri, and Benares; in the Punjab, the Phulkian States, the States of the Bahawalpur Agency, the Jalandhar Division States, and the Simla Hill States; in the North-West Frontier Province, the Phulera and Upper Tanawal States; in Sind, the Khairpur State; in Bombay, the Gujarat States (excluding Baroda), the Konkan States, the Deccan States, the Satara Jagirs, and the Southern Mahratta States; in the Central Provinces, the Chhattisgarh States; and in Madras, the States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur. Of these States, agricultural statistics are prepared for most of the States in the Punjab and all the States in Madras; but they are dealt with in Volume II along with the States having direct political relations with the Government of India.

Thus, by deducting 129,795,000 acres belonging to Indian States from the total area of 754,961,000 acres included in British Provinces, a balance of 625,166,000 acres is left (as shown in Table I), which represents the area of British territory according to professional survey. The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The agricultural statistics are, however, prepared in a number of provinces or parts of provinces from "village papers," *i.e.*, papers prepared by the village accountants for the purpose of assessment and collection of land revenue. The area given in the village papers of the United Provinces, the Central Provinces and Berar, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The causes of this difference are: (*a*) while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas, and (*b*) the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and rail roads is not uniform in the two sets of returns. Substituting the area by village papers for the area by survey in respect of provinces and tracts where the two sets of returns differ, the actual area of British territory for which statistics are given in this volume is 622,392,000 acres, as against 625,166,000 acres according to the professional survey.

This area is, for the purpose of Agricultural Statistics, classified as shown in the margin. About 87,729,000 acres, or 14 per cent of the total, are occupied by forests; and the area not available for cultivation, *i.e.*, land absolutely barren or unculturable or covered by buildings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 146,799,000 acres or 24 per cent. The balance, 387,864,000 acres or 62 per cent, represents the area available for cultivation. Of this, 113,812,000 acres, or 18 per cent of the total area, represent culturable waste other than fallow, *i.e.*, land available for cultivation but not taken up, and 72,668,000 acres, or 12 per cent, were kept fallow in the year of report. The net area actually cropped in the year was therefore 201,384,000 acres, or 32 per cent of the total area, as against 227,848,000 acres in the preceding year, or a decrease of 12 per cent. The proportion of cropped to total area and the number of population per 100 acres of cropped area in each province are stated in the margin. The proportion of cropped to total area in the year of report was highest in Bengal and lowest in Sind. This net cropped area, however, excludes areas cropped more than once in the year. If areas cropped more than once are taken as separate areas for each crop, the gross area cropped in the year of report amounts to 228,342,000 acres, as against 264,817,000 acres in the preceding year.

Table II. Classification of area.

	Acres (1,000)	Per cent
Forests	87,729	14
Not available for cultivation	146,799	24

Forests.

The term "forests" in the returns of Agricultural Statistics means "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may, however, be excluded, and entered in the column "net area cropped." The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the Reports on the administration of the Forest Department for various reasons,* the chief amongst which are the following:—(1) the forest administration reports and the returns of agricultural statistics relate in many cases to different periods, (2) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics include, in addition, forest areas administered by district officers, and (3) certain village lands worked by the Forest Department and returned as forest lands by that Department are not treated as forests in the returns of agricultural statistics but are included under the proper heads of cultivated or uncultivated lands as the case may be. Of the total forest area (87,729,000 acres in 1918-19), 24 per cent lies in Burma, 19 per cent in the Central Provinces and Berar, 15 per cent in the Madras Presidency, 11 per cent in the United Provinces, 10 per cent in the Bombay Presidency, and the remaining 21 per cent in the other provinces.

Area not available for cultivation.

As can naturally be expected, most of the barren and unculturable lands lies in the hilly tracts of Burma and of southern India and in the dry and deserty regions of north-western India. Of the total area "not available for cultivation" (146,799,000 acres in 1918-19), about 34 per cent lies in Burma, 15 per cent in the Madras Presidency, 9 per cent each in Sind and the Punjab.

Culturable waste other than fallow.

The head "culturable waste other than fallow" shows lands available for cultivation but not taken up. It includes areas such as groves not classed in the cropped area and also areas under bamboos and thatching grass when not

* For detailed explanations in respect of provinces, *see* notes at foot of Table II, Nos. 25 to 40.

forming parts of forest areas.* Of the total culturable waste land (113,812,000 acres in 1918-19), 22 per cent is in Burma, 14 per cent in the Punjab, 12 per cent each in Assam and the Central Provinces and Berar, 11 per cent in the Madras Presidency, and the remaining 29 per cent in the other provinces.

Current fallows.

The maximum period for which land left uncultivated is reckoned as fallow varies in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in the Bombay Presidency, according to local laws and customs. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste." Owing to this diversity of practice, the classification as between "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in the Bombay Presidency, but as culturable waste in the Punjab. The total area returned as "current fallow" in 1918-19 was 72,668,000 acres, as against 48,466,000 acres in the preceding year, or an increase of 50 per cent.

Irrigation.

The total area irrigated in 1918-19 was 47,222,000† acres, as against 45,867,000 acres in the preceding year. Of this area 18,570,000 acres were irrigated from Government canals, 2,628,000 acres from private canals, 7,268,000 acres from tanks, 14,216,000 acres from wells, and 4,501,000 acres from other sources of irrigation. In India irrigation on an extensive scale is ordinarily resorted to in tracts where the rainfall is most precarious. In Lower Burma, Assam, Eastern Bengal, and the Malabar Coast (including the Konkan), where the rainfall is ordinarily heavy, the crops hardly need the help of irrigation, unless there is an unusual scarcity of rain. Of the total area irrigated in 1918-19, 25 per cent was in the Punjab, 24 per cent in the United Provinces, 19 per cent in the Madras Presidency, 12 per cent in Bihar and Orissa, 5 per cent in Sind, and the remaining 15 per cent in the other provinces. The proportion of irrigated to total cropped area in each province is stated in the margin. The proportion is highest in the driest province of Sind.

	Proportion of irrigated to total cropped area.
Sind	94 per cent.
Punjab	62 „
North-West Frontier Province	49 „
Delhi	45 „
United Provinces	36 „
Ajmer-Merwara	33 „
Madras	28 „
Bihar and Orissa	24 „
Bengal	9 „
Burma	8 „
Central Provinces and Berar	6 „
Bombay	5 „
Assam	3 „
Coorg	3 „
Manpur	2 „

The figures in the preceding paragraph do not take into account areas cropped more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas cropped more than once as separate areas for each crop, the gross area of irrigated crops was 51,025,000 acres in 1918-19. Of this area about 85 per cent was under food crops and the remainder under non-food crops. Of the irrigated food-crop area, 9,562,000 acres were cropped with wheat, 31,137,000 acres with other cereals and pulses, and 2,500,000 acres with other food crops. These statistics of irrigated crops are in some cases defective as explained in the notes at the foot of Table II (pages 38—45).

Table III. area under crops.

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops, and in these cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are made on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements, is assigned to the principal crops by the village accountant. In the same

* For detailed explanations in respect of provinces, *see* notes at foot of Table II, Nos. 25 to 40.
† Includes 39,000 acres in Upper Burma, for which details are not available.

province this procedure is also followed in the case of oilseeds thinly sown in combination with food-grains and in this case the whole area of the mixed field is assigned to food grains.

The gross area cultivated with crops was, as stated above, 228 million acres in 1918-19. The different classes of crops and the area occupied by each class are stated in the margin. Of the total cropped area, food-crops occupied about 188,954,000 acres or 83 per cent and non-food crops about 39,046,000 acres or 17 per cent. Of the food-crops food-grains (cereals and pulses) occupied as much as 177,843,000 acres,† or about 78 per cent of the total cropped area, and other food-crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food-crops* together) occupied some 11,111,000 acres or only 5 per cent of the total. Of non-food crops fibres such as cotton, jute, hemp, etc., occupied 17,490,000 acres or nearly 8 per cent of the total cropped area, and oilseeds occupied 10,473,000 acres or about 4 per cent. The other non-food crops *—dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.), fodder crops, and miscellaneous non-food crops together—occupied some 11,083,000 acres, or about 5 per cent of the total.

	Acres (1,000).	Per cent of total.
Food-grains	177,843	77·9
Condiments and spices	1,431	0·6
Sugar	3,016	1·3
Fruits and vegetables	5,541	2·4
Miscellaneous food-crops	1,123	0·5
Total food-crops	188,954	82·7
Oilseeds	10,473	4·6
Fibres	17,490	7·7
Dyes and Tanning materials	657	·3
Drugs and narcotics	2,253	1·0
Fodder crops	7,228	3·2
Miscellaneous non-food crops	945	·5
Total non-food crops	39,046	17·1

Food-grains.

The area under food-grains (177,843,000 acres) showed a decrease of 29,594,000 acres or 14 per cent as compared with the preceding year. The actual increase or decrease under each kind of grain is stated in the marginal table (in thousands of acres). Of the total area shown in the table under food-grains 18 per cent was in the United Provinces†, 15 per cent in the Madras Presidency, 14 per cent in Bihar and Orissa, 13 per cent in Bengal, 10 per cent in the Bombay Presidency, 9 per cent in the Punjab, 8 per cent in the Central Provinces, 2 per cent in Berar, and the remaining 11 per cent in the other provinces.

	Acres (1,000) 1917-18	Acres (1,000) 1918-19	Acres (1,000) Decrease (−)
Rice	80,668	77,613	−3,055
Wheat	26,428	19,147	−7,281
Barley	8,505	6,464	−2,041
Jawar	21,118	20,537	−581
Bajra	12,699	11,201	−1,498
Ragi	4,265	4,004	−261
Maize	6,486	6,064	−422
Gram	16,724	7,647	−9,077
Other grains and pulses	30,544	25,166	−5,378

Oilseeds.

The area under oilseeds (10,473,000 acres) showed a decrease of 3,635,000 acres or nearly 26 per cent as compared with the preceding year. The actual increase or decrease under each kind of oilseeds is stated in the margin (in thousands of acres). Of the total area under oilseeds shown in this table, 21 per cent was in the Madras Presidency, 16 per cent in Bihar and Orissa, 15 per cent each in Bengal and Burma, 13 per cent in the Central Provinces and Berar, 7 per cent in the Punjab, 6 per cent in the Bombay Presidency,

	Acres (1,000) 1917-18	Acres (1,000) 1918-19	Acres (1,000) Decrease (−)
Linseed	2,781	1,448	−1,333
Sesamum	3,374	3,235	−139
Rape and mustard	4,359	3,059	−1,300
Other oilseeds	3,594	2,731	−863

* For a list of these crops, *vide* Appendix D.

† In the United Provinces, the whole of the area sown with food-grains mixed with oilseeds is shown under food-grains. The area included under food-grains, which was really sown with oilseeds (as a mixed crop), is roughly estimated to have been 3,000,000 acres in the whole province in 1918-19. Excluding this area of 3 million acres under oilseeds, the total area under food-grains in British India in 1918-19 would come to 175 million acres instead of 178 million acres.

4 per cent in the United Provinces,* and the remaining 3 per cent in other smaller provinces.

Condiments and spices.

The total area under condiments and spices in 1918-19 was 1,431,000 acres, as against 1,543,000 acres in the preceding year, or a decrease of 112,000 acres or 7 per cent. As is to be expected, spices are grown mostly in the southern parts of India, and the Madras Presidency alone accounted for about 50 per cent of the total area under condiments and spices in 1918-19.

Sugar.

The total area under sugar in 1918-19 was 3,016,000 acres, as against 2,993,000 acres in the preceding year, or an increase of 23,000 acres or 1 per cent. Of this area about 2,855,000 acres were occupied by sugarcane, as against 2,808,000 acres in the preceding year. 54 per cent of the sugarcane area was in the United Provinces, 17 per cent in the Punjab, 10 per cent in Bihar and Orissa, 8 per cent in Bengal, and 4 per cent in the Madras Presidency. The other sugar-yielding plants, namely, date palm and palmyra palm, occupied a total area of 161,000 acres as against 185,000 acres in the preceding year. About 55 per cent of this area was in the Madras Presidency and 29 per cent in Bengal.

Fibres.

Fibre crops occupied 17,490,000 acres in 1918-19, as against 18,991,000 acres in the preceding year, or a decrease of 1,501,000 acres or 9 per cent. The actual decrease under the several kinds of fibres is shown in the marginal table.

	1917-18 Acres (1,000)	1918-19 Acres (1,000)	Decrease(—)
Cotton	15,403	14,441	—962
Jute	2,700	2,473	—227
Other fibres	888	576	—312

The area under cotton showed a decrease of 6 per cent. Of the total cotton area 30 per cent was in the Bombay Presidency, 29 per cent in the Central Provinces and Berar, 22 per cent in the Madras Presidency, 10 per cent in the Punjab, and 6 per cent in the United Provinces. The area under jute showed a decrease of about 8 per cent. About 90 per cent of the total jute area was in Bengal and the remaining 10 per cent in the adjoining provinces of Bihar and Orissa and Assam. Other fibres also showed a decrease of 35 per cent as compared with the preceding year.

Dyes and Tanning materials.

The total area under dyes and tanning materials was 657,000 acres in 1918-19. Of this the area under indigo was 287,000 acres, showing a decrease of 414,000 acres or 59 per cent. Of the total indigo area 50 per cent was in the Madras Presidency, 17 per cent in the United Provinces, 6 per cent in the Punjab, and 22 per cent in Bihar and Orissa. Other dyes and tanning materials occupied an aggregate area of 370,000 acres.

Drugs and narcotics.

The total area under drugs and narcotics was 2,253,000 acres in 1918-19, as against 2,163,000 acres in the preceding year, or an increase of 90,000 acres. The actual increase or decrease under each kind of drugs and narcotics is stated in the marginal table in thousands of acres.

	1917-18 Acres (1,000)	1918-19 Acres) (1,000	Increase(+) or decrease(—)
Opium	221	207	—14
Coffee	95	98	+3
Tea	619	688	+69
Tobacco	1,015	1,047	+32
Other drugs and narcotics	213	213	...

Fodder crops.

The head "fodder crops" shows only those crops which are used exclusively as fodder in normal times. These are oats, field vetch, guinea grass, lucerne, fodder jawar, and carob or locust tree. The total area under fodder crops in 1918-19 was 7,228,000 acres, as against 8,194,000 acres in the preceding year.

Fruits and vegetables including root crops.

The total area occupied by fruits and vegetable crops in 1918-19 was 5,541,000 acres, as against 5,680,000 acres in the preceding year. [For the names of the fruits and vegetable crops cultivated in India, see Appendix D.]

*The figures shown under the several heads of oilseeds in Table III against the United Provinces of Agra and Oudh represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop, excluding the oilseeds which are thinly sown in combination, with wheat, barley, gram, and other food crops. If the areas occupied by the scattered oilseeds plants were added up, it is estimated very roughly that they would amount in 1918-19 for the whole of the United Provinces to about 3 million acres. Including this area, the total area under oilseeds in British India in 1918-19 would come to 13 million acres.

The total area occupied by miscellaneous crops, that is, crops not classified under any of the heads specified above, was 2,068,000 acres. Of this, about 1,123,000 acres were occupied by miscellaneous food-crops and about 945,000 acres by miscellaneous non-food crops. [For the names of the crops included under these heads, see footnotes on pages 96 to 103 and Appendix D.] Miscellaneous crops.

The total extent of land on which more than one crop was cultivated during the year was 26,957,000 acres, as against 36,969,000 acres in the preceding year. Area cropped more than once.

The statistics recorded in Table IV are based mainly on cattle censuses. In Burma, Manpur Pargana, and the Central Provinces and Berar the census is taken annually, while in the United Provinces, Assam, Ajmer-Merwara, the Punjab, Delhi, the North-West Frontier Province, the Bombay Presidency, the Madras Presidency, and Coorg it is taken once in five years. The last quinquennial census was taken in 1913-14 in the Punjab, Delhi and the North-West Frontier Province, in 1914-15 in the United Provinces, the Madras Presidency, Assam, and Coorg ; and in 1915-16 in the Bombay Presidency. In Bengal a cattle census was taken for the first time in 1912-13, which gave the numbers of bulls and bullocks, cows, buffaloes, and young stock. [Young stock represents oxen and buffaloes not old enough for work or to produce young.] In Bihar and Orissa a census was taken in 1913-14. The figures for Bihar and Orissa prior to 1913-14, as also those for Bengal for years prior to 1912-13, are based on estimates. Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. In making up the totals for British India for each year, the figures last collected in the provinces, where the census is not taken annually, are repeated year after year until the next cattle census is taken.* It would, therefore, serve no useful purpose to compare the total figures for one year with those for another, as the totals thus constituted do not really represent the number of stock in the year against which the figures are shown in the table. The animals may be divided into three classes, namely, (1) bovine, comprising bulls and bullocks, cows, buffaloes, and young stock (*i.e.*, calves and buffalo calves), (2) ovine, comprising sheep and goats, and (3) others, comprising horses and ponies, mules, donkeys, and camels. Table IV. Live-stock, ploughs and carts.

Number in thousands

	Bovine	Ovine	Others	Ploughs	Carts
Bengal	25,316	Not available			
Madras	21,760	18,192	189	4,291	998
Bombay	9,206	4,038	212	1,121	618
Sind	2,179	1,616	319	278	56
United Provinces	31,741	12,676	846	5,111	859
Bihar and Orissa	20,022	6,587	204	3,234	458
Punjab	15,489	9,109	1,472	2,313	295
Burma	6,175	251	118	645	661
Central Provinces and Berar	11,585	1,315	182	1,442	882
Assam	3,576	521	15	594	39
North-West Frontier Province	1,271	1,147	211	226	5
Ajmer-Merwara	293	457	10	42	11
Delhi	148	32	13	16	8
Coorg	134	4	...	34	1
Manpur	6	1	...	1	...
Total	148,901	55,946	3,791	19,348	4,891

The total number of live-stock of each of these three classes in each province, together with the numbers of ploughs and carts, is stated in the margin (in thousands). Of the total number of live-stock of the bovine class (149 millions), which is cattle proper, the United Provinces account for 21 per cent, Bengal 17 per cent, the Madras Presidency 15 per cent, Bihar and Orissa 13 per cent, the Punjab 10 per cent, the Central Provinces and Berar and the Bombay Presidency including Sind 8 per cent each, and the remaining provinces 8 per cent. In the case of ploughs also, the United Provinces come first with 26 per cent of the total (excluding Bengal for which figures are not available), followed by Madras (22 per cent), Bihar and Orissa (17 per cent), and the Punjab (12 per cent). In the case of stock of the ovine class (sheep and goats), however, Madras accounts for 32 per cent of the total (excluding Bengal), followed by the United Provinces (23 per cent), the Punjab (16 per cent), Bihar and Orissa (12 per cent), and the Bombay Presidency including Sind (10 per cent). In the case of carts, Madras is responsible for 20 per cent of the total (excluding Bengal), followed by the Central Provinces and Berar

* It was arranged to hold a quinquennial census of live-stock in all the provinces, as far as practicable, in the year 1919-20, and the results will be published as soon as data are available.

(18 per cent), the United Provinces (17 per cent), and the Bombay Presidency including Sind and Burma (14 per cent each). The marginal table shows the number of live-stock of the bovine class (which is cattle proper) per 100 acres of cropped area and per 100 of the population of each province. It will be seen that the number of cattle per 100 acres of cropped area ranges between 41 in Bombay and Burma and 134 in Ajmer-Merwara, while the number per 100 of population varies from 35 in Delhi to 91 in the Manpur Pargana. The average for British India, as a whole, is 74 per 100 acres of cropped area and 62 per 100 of the population.

	Number of cattle	
	Per 100 acres of cropped area.	Per 100 of population.
Bengal	104	57
Madras	68	53
Bombay	41	61
Sind	80	62
United Provinces	101	67
Bihar and Orissa	86	58
Punjab	81	79
Burma	41	58
Central Provinces and Berar	50	83
Assam	63	53
North-West Frontier Province	67	56
Ajmer-Merwara	134	58
Delhi	99	35
Coorg	96	77
Manpur	90	91

Table V, Land Revenue Assessment.

The varieties of land tenure in the different provinces are included in Table V and are given, as far as possible, under one or other of the following three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord, the tenure is known as *zamindari* or village community; and when the revenue is assessed on individuals who are the actual occupants, or are accepted as representing the occupants of smaller holdings, the tenure is known as *raiyatwari*. Under either system there may be rent-paying subtenants. Zamindari tenure may be either *permanently settled, i.e.*, where the land revenue has been fixed in perpetuity, or *temporarily settled, i.e.*, where the land revenue is fixed for a number of years only. Village communities and raiyatwari tenures are, as a rule, temporarily settled, and the land revenue assessed on them are changeable from time to time.

The following table shows the position in the surveyed areas of the various provinces, as regards the forms of land tenure, according to the latest statistics available. The figures roughly indicate the extent to which the different systems prevail :—

Province.	Raiyatwari.	Zamindari (individual proprietors or village communities).		Total.
		Permanently settled	Temporarily settled	
	Acres (1,000)	Acres (1,000)	Acres (1,000)	Acres (1,000)
Bengal	...	39,303	11,152	50,455
Madras	61,462	29,586	...	91,048
Bombay	44,733	...	3,910	48,643
Sind	30,098	...	...	30,098
United Provinces	...	7,537	60,767	68,304
Bihar and Orissa	...	41,511	11,292	52,803
Punjab	...	...	56,352	56,352
Burma	110,197	...	...	110,197
Central Provinces	12,140*	...	40,452	52,592
Berar	11,375*	...	...	11,375
Assam	25,713	3,930	1,662	31,305
North-West Frontier Province	...	...	8,438	8,438
Ajmer-Merwara	...	974	797	1,771
Delhi	...	...	369	369
Coorg	1,012	...	...	1,012
Manpur	31	...	...	31
Total	296,761	122,841	195,191	614,793

It will thus be seen that about 48 per cent of the total area is held by *raiyatwari* proprietors, while 20 per cent is held by permanently settled and 32 per cent by temporarily settled *zamindari* proprietors.

* Including Government forests.

The statistics for this table are collected annually in Burma, Assam, Manpur, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar and Orissa, the United Provinces, Ajmer-Merwara, Bombay, Sind, Madras, and Coorg. According to the latest statistics available, the total revenue from land (excluding cesses) for the whole of British India amounts to ₹35 crores. This represents the actual realisable demand * on account of the year, no account being taken either of the collection of arrears for past years, or of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province. For additional details reference should be made to table No. 73 on pages 212—223.

	Total revenue from land (₹1,000)	Total population (1,000)	Revenue per head ₹	a.
Bengal	2,93,56	44,588	...	11
Madras	6,80,57	41,405	1	10
Bombay	3,28,52	15,134	2	3
Sind	1,01,80	3,513	2	14
United Provinces	6,72,83	47,172	1	7
Bihar and Orissa	1,63,07	34,490	...	8
Punjab	4,57,48	19,554	2	5
Upper Burma	1,62,51	4,113	3	15
Lower Burma	3,35,39	6,471	5	3
Central Provinces	1,17,18	10,873	1	1

Delhi	3,91	413	...	15
Coorg	3,80	175	2	3
Manpur	16	7	2	5
Total	35,17,41	240,445	1	7

Table VI. Transfers of property in land.

The total number of transfers of property in land made during 1918-19, as recorded in Table VI, was 994,000, of which 953,000 were by private contract or gift and 41,000 by order of the court. The total area of the transfers by private contract or gift was 4,676,000 acres, and by order of the court 723,000 acres. These statistics are incomplete. They do not include transfers either in Bengal (for which figures are not available), or in Madras (for which the table has been discontinued from 1913-14); in Bihar and Orissa no information is available regarding transfers under orders of civil courts. As explained in the footnotes to Table VI, the figures for the other provinces are also not always complete. It may be noted that voluntary transfers are those made by actual contract or gift, transfers by succession or inheritance not being taken into account: compulsory transfers are those effected through a court, civil or revenue. Transfers of land under the Land Acquisition Act and temporary transfers, such as leases, simple mortgages, and redemptions of mortgages, are excluded from this table. Mortgages with possession are treated as transfers and included in Table VI.

Appendix A. Average yield of crops.

The Agricultural Department in each province maintains a statement of the average yield per acre of land of average quality, irrigated and unirrigated, for crops in each district. In order to test the accuracy of the standards of normal or average yield, and if necessary, to revise these, a system of crop-cutting experiments exists in all the provinces. Under this system plots of land of average quality are selected, and the crops grown on them are cut and weighed in the presence of responsible officers of the district staff or of the Provincial Agricultural Department. The results of the experiments are reported to the head of the Provincial Agricultural Department, who revises the standards in the light of these returns. This revision is ordinarily made once in five years, although crop-cutting experiments are usually carried out for the principal crops each year. The table in Appendix A shows the figures as last revised with reference to the crop-cutting experiments made up to 1916-17. As time goes on the figures become more accurate, and it may be noted that the general trend of the changes made is in an upward direction. In Bengal the yield per acre of winter rice has been increased from 983 lbs to 1,036 lbs and that of jute from 1,271 lbs to 1,300 lbs. Barley in the United Provinces has been raised from 1,100 lbs to 1,150 lbs, arhar from 750 lbs to 800 lbs, and cotton from 160 lbs to 170 lbs. In the Punjab the yield per acre of wheat has been raised from 726 lbs to 791 lbs, of sugarcane from 1,686 lbs to 1,933 lbs, and of cotton from 118 lbs to 135 lbs. Cotton in Sind has been raised from

* Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in the case of provinces where all remissions are granted within the year to which the return relates, but in provinces where remissions are not granted or are only partially granted within the year, no deduction is made on account of remissions.

125 lbs to 170 lbs and sugarcane from 4,233 lbs to 8,142 lbs. In Assam the yield of autumn rice has been increased from 672 lbs to 706 lbs and that of sugarcane from 1,904 lbs to 2,016 lbs. In the North-West Frontier Province wheat has been raised from 633 lbs to 676 lbs and sugarcane from 2,430 lbs to 2,660 lbs. In a few instances the standards have been decreased. In Sind the yield of rapeseed has been put at 393 lbs and in Assam the yield of winter rice at 952 lbs, while the yield of jawar in the North-West Frontier Province is now estimated at 399 lbs.

Appendix B. Territorial changes.

Appendices B, C, and D perhaps require little or no comment. Appendix B, which shows changes that have been made from time to time in district or provincial boundaries, will explain the variations in total areas of districts and provinces in Table I, so far as they are due to territorial changes. Appendix C explains the vernacular terms used in this volume, and Appendix D the classification in Table III of the various crops cultivated in India.

Appendix C. Vernacular terms.

Appendix D. Classification of crops.

Charts.

The map, charts, and diagrams appended to the volume illustrate—

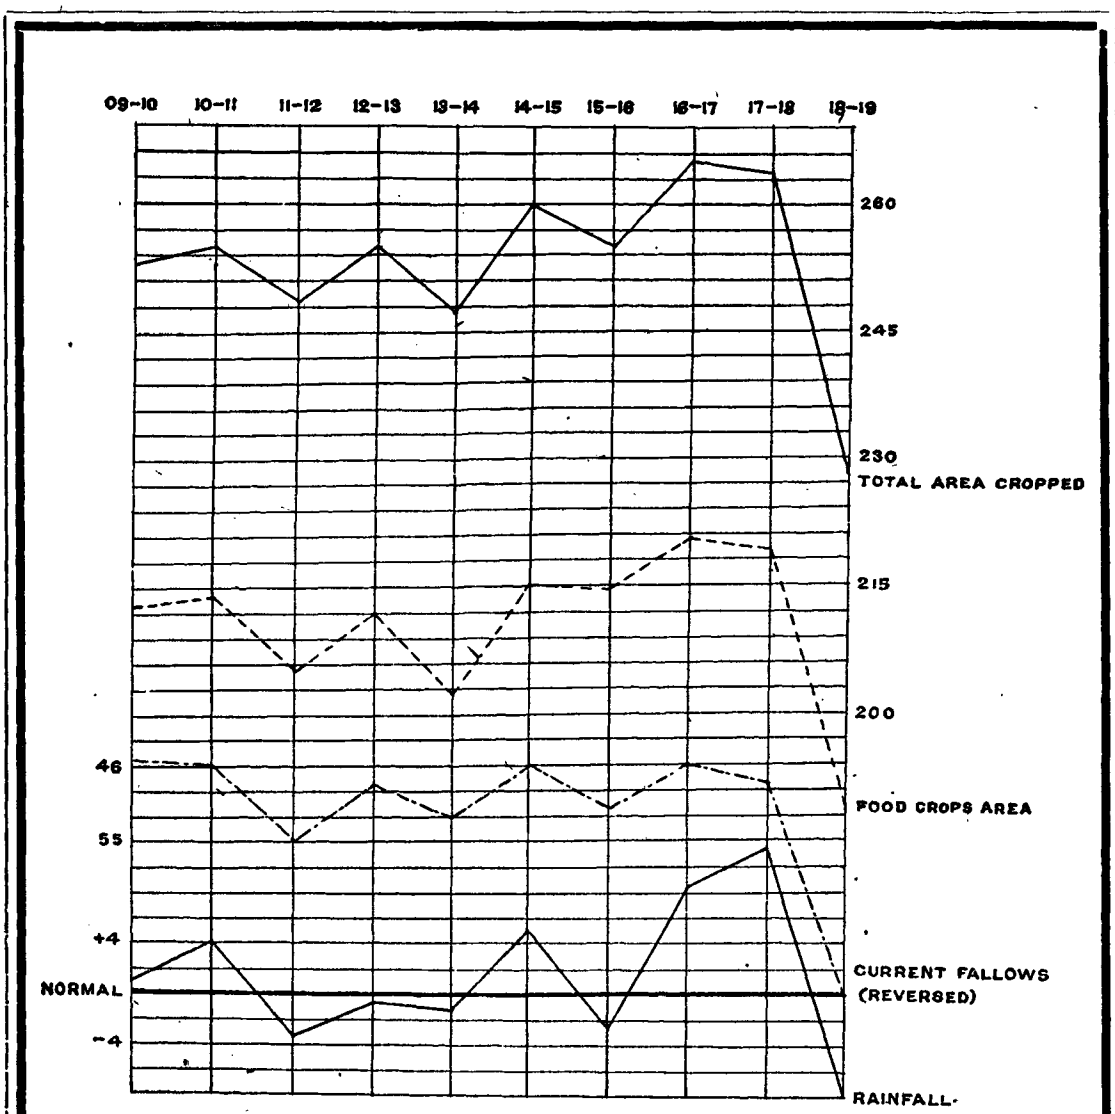
(1) the departure of cropped area and that of rainfall in 1918-19 from the average of the preceding ten years;
(2) variations in rainfall as compared with the normal in relation to the total area cropped, food-crops area and current fallows (reversed);
(3) rainfall in wheat-growing tracts (in June to February) as compared with the total and unirrigated wheat areas;
(4) total cultivable area, total uncultivable area, net area cropped, culturable waste other than fallow, and current fallows;
(5) total area cropped, total area under food crops, total irrigated area cropped, and total area under non-food crops;
(6) area under rice, wheat, millets, oilseeds, cotton, jute, and other crops;
(7) total area cropped and area under different crops;
(8) total live-stock divided between bovine, ovine, and others, and
(9) shares of provinces in the total area under principal crops.

For the prices of agricultural produce, reference should be made to the volume entitled "Prices and Wages in India," 35th issue.

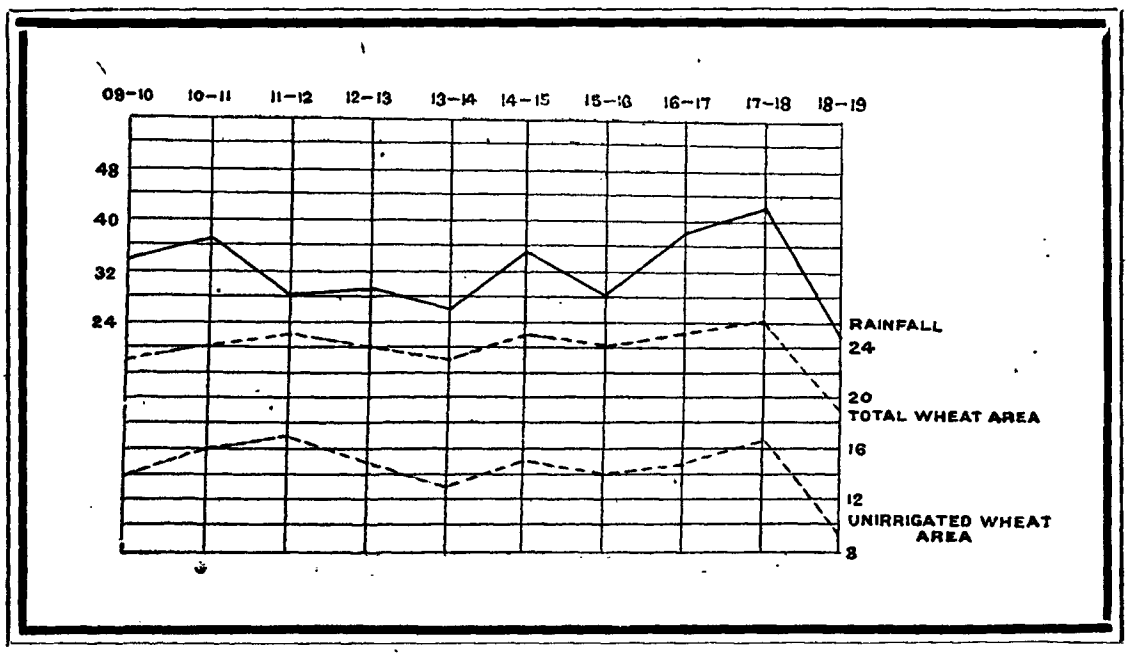
D. N. GHOSH,
Offg. Director of Statistics.

Department of Statistics, India,
Calcutta, October 16, 1920.

2. Total area cropped, area under food crops, current fallows (reversed) and variations in rainfall, as compared with normal.

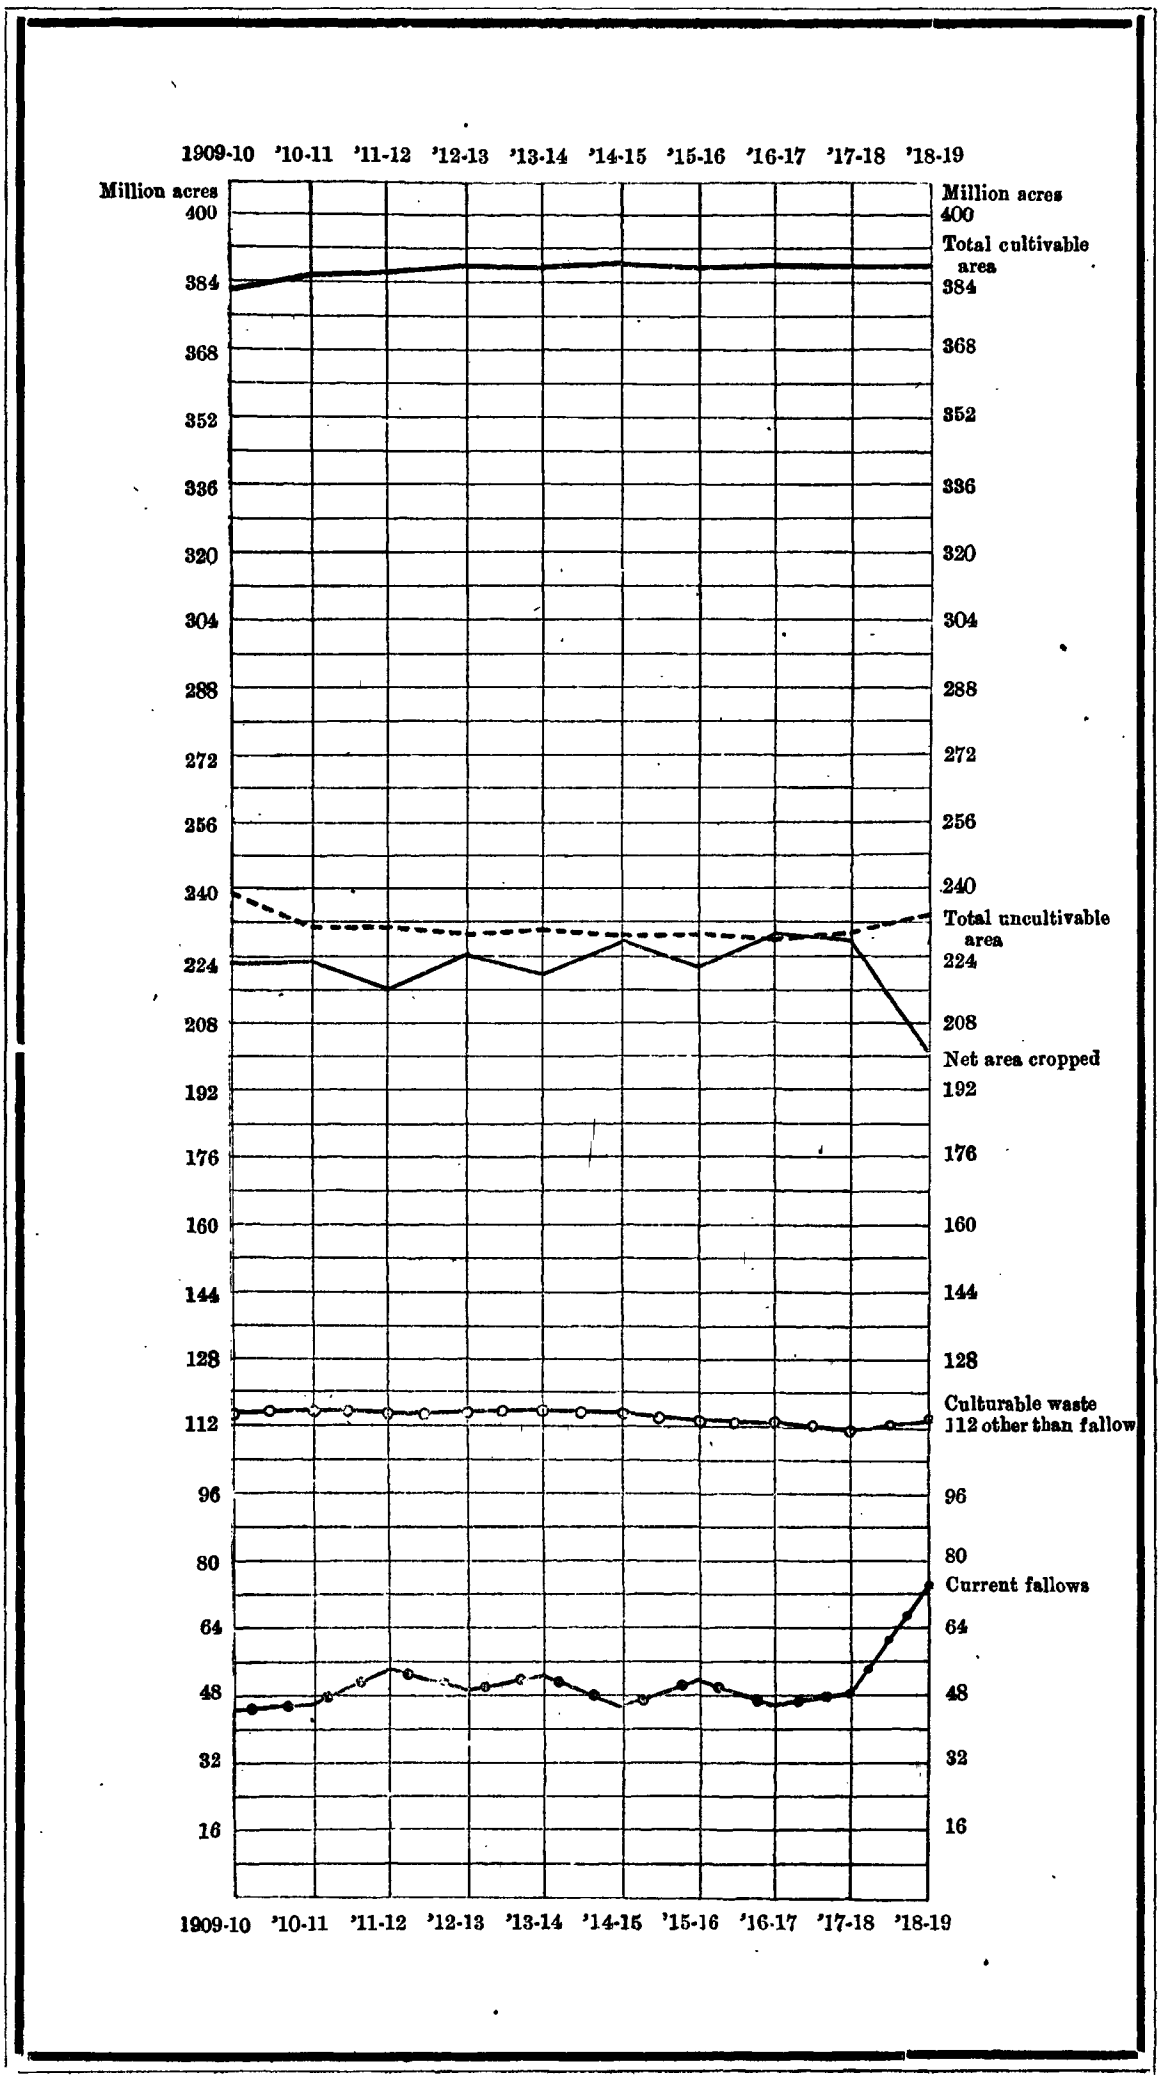


3. Total wheat area, unirrigated wheat area and rainfall in wheat-growing tracts (June to February).



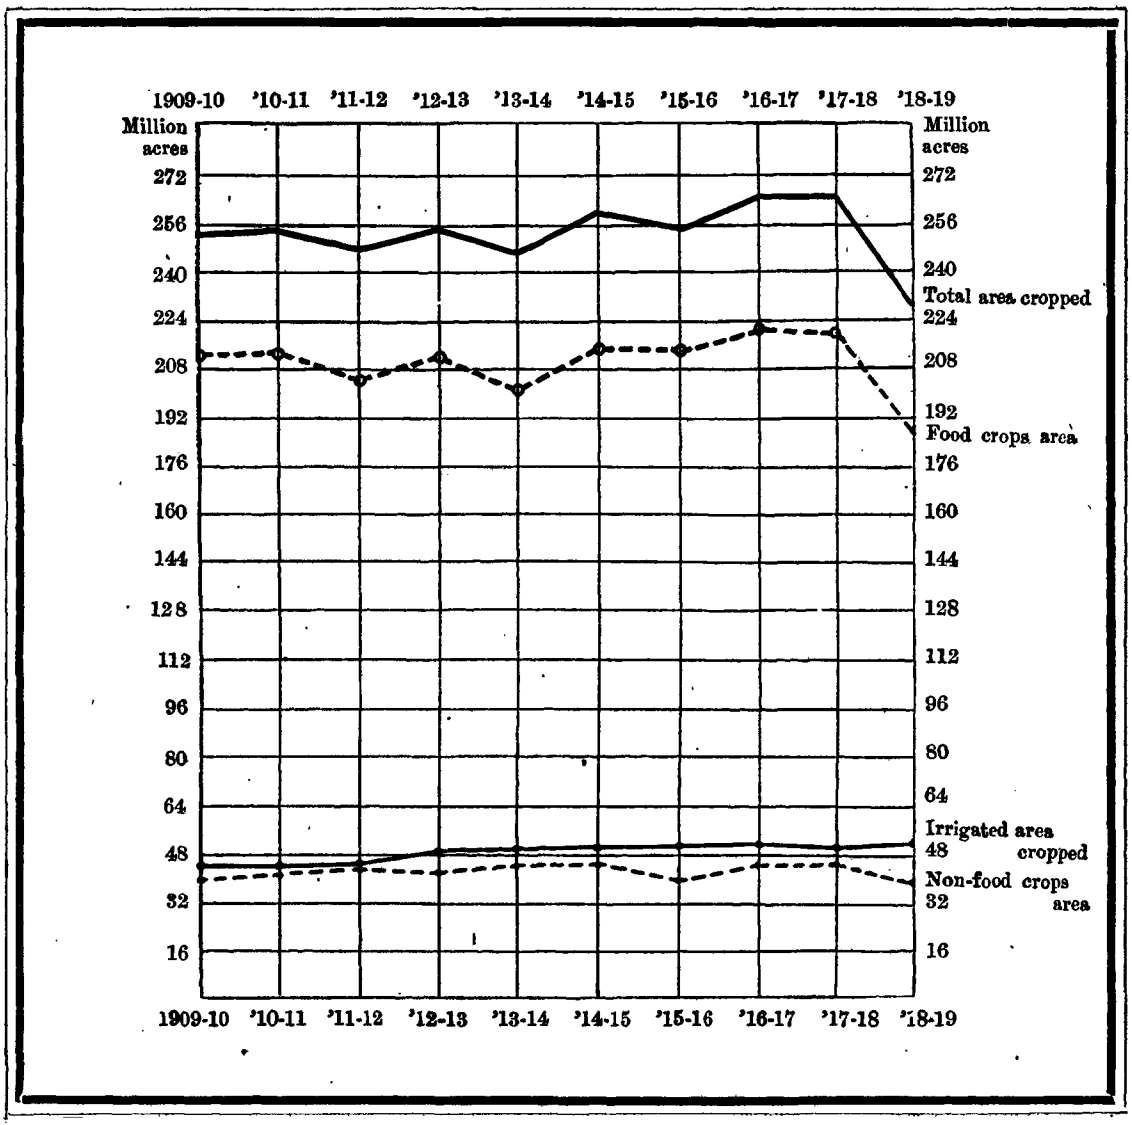
NOTE.—The scale of the curves in Chart No. 3 for "total wheat area" and "unirrigated wheat area" has, in order to effect a better comparison, been made much larger than that used for the curves showing "rainfall."

4. Total cultivable area, total uncultivable area, net area cropped, culturable waste other than fallow and current fallows.

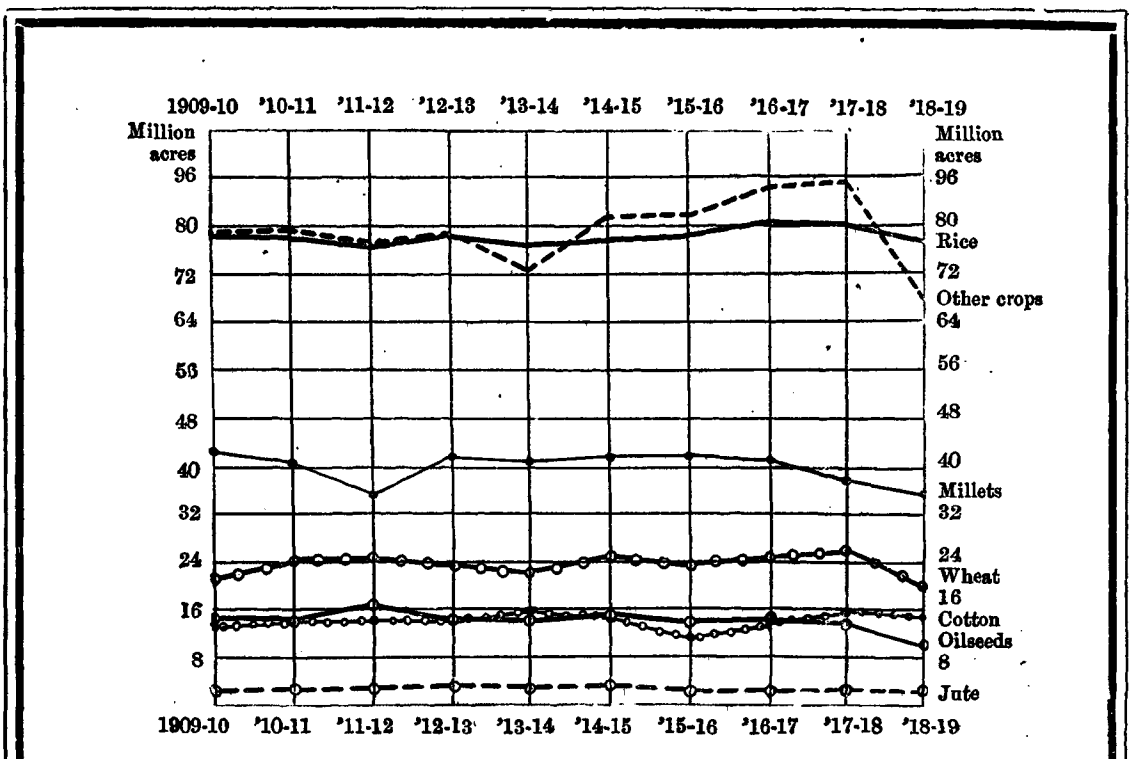


NOTE.— 1. "Total cultivable area" represents the sum of net area cropped, culturable waste, and current fallows.
2. "Uncultivable area" includes the area under forest.

5. Total area cropped, total area under food crops, total irrigated area cropped, and total area under non-food crops.



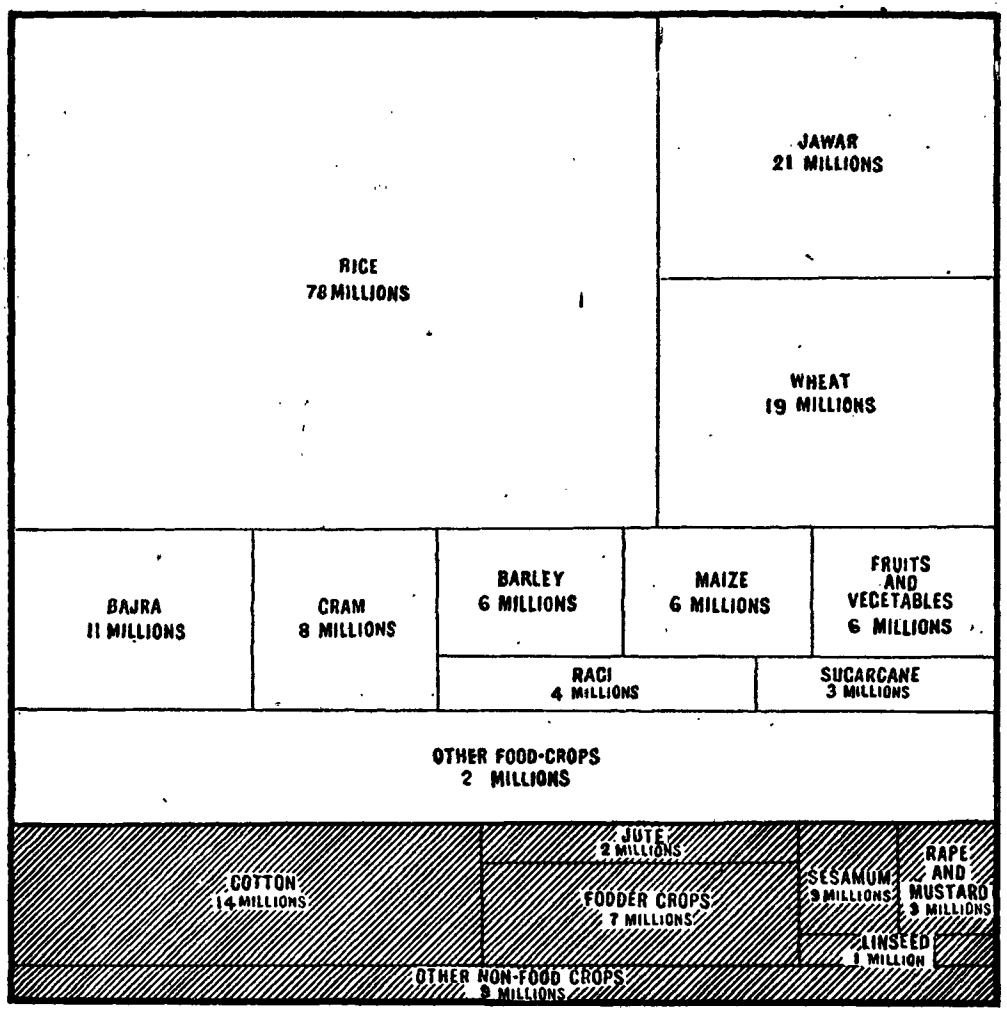
6. Area under rice, wheat, millets, oilseeds, cotton, jute, and other crops.



NOTE.—Millets represent jawar, bajra and ragi.

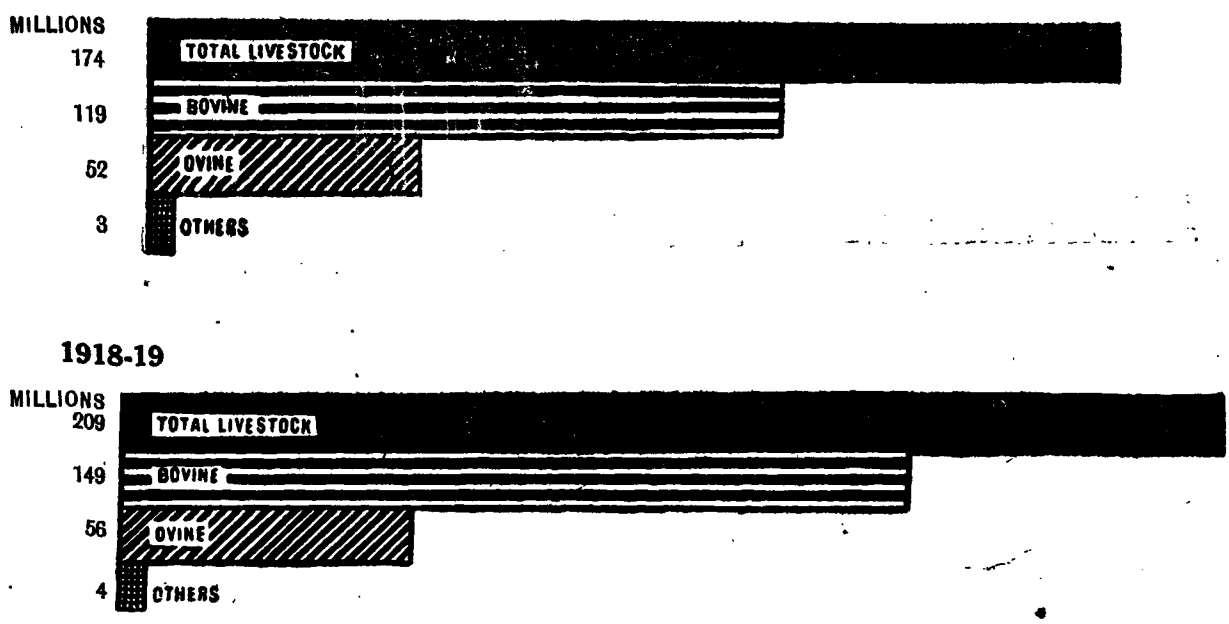
7. Total area cropped in 1918-19.

Total area cropped	228 millions.
Area under food crops (unshaded)	189 millions.
Area under non-food crops (shaded)	39 millions.



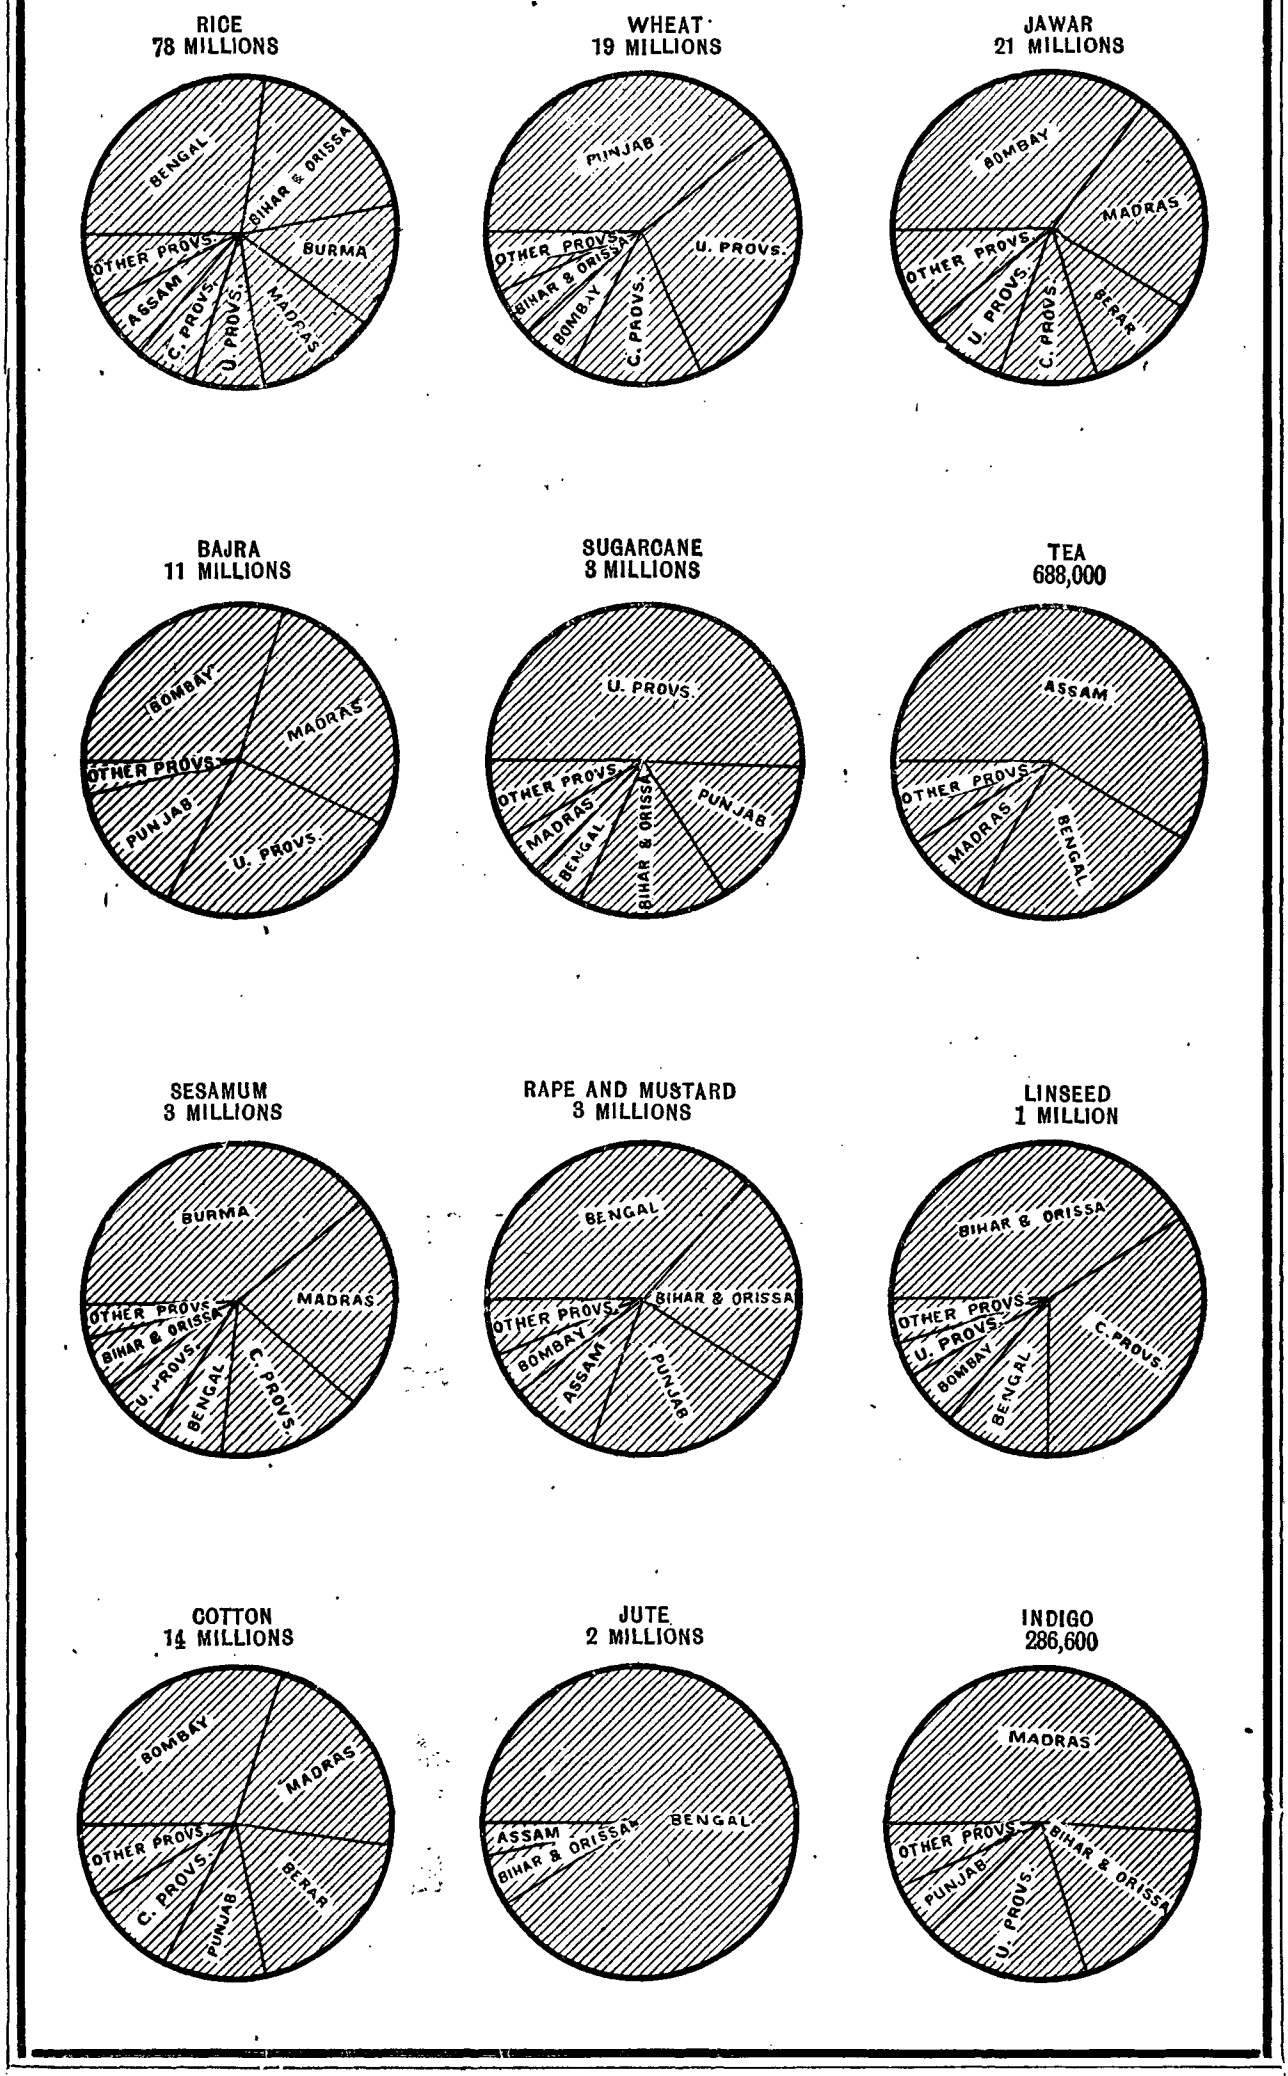
NOTE.—"Other food crops" are minor food-grains, condiments and spices, and miscellaneous food crops.
"Other non-food crops" are oilseeds other than sesamum, linseed, rape and mustard; fibres other than cotton and jute; dyes; drugs and narcotics; and miscellaneous non-food crops.

8. Total livestock, divided between bovine, ovine, and others in 1918-19, as compared with the year 1909-10.



NOTE.—"Bovine" includes bulls and bullocks, cows, buffaloes, calves, and buffalo calves.
"Ovine" includes sheep and goats.
"Others" include horses and ponies, mules, donkeys, and camels.

9. Shares of provinces in the total area (in acres) under principal crops in 1918-19.



NOTE.—In this diagram, the circles for the different crops have no relation to each other; they simply show the relative importance of each province in respect of each crop.

TABLES

Summary Tables of the Agricultural Statistics of British India

No. 1—GENERAL SUMMARY, 1899-1900 TO 1918-19

Classification of area (*Thousand acres*

	1899-1900 (a)	1900-01 (a)	1901-02 (a)	1902-03 (a)	1903-04 (a)	1904-05 (a)	1905-06 (a)	1906-07 (a)	1907-08	1908-09

United States of America	1,089,000	73,213,000	7,417,000	102,032,000	33,534,000	1,682,000
Uruguay	...	720,000	5,000	552,000	...	68,000

(*a*) Not including the territory occupied by the enemy

(*b*) Excluding the Isle of Man and the Channel Islands

* Including figures for Indian States, namely, 2,793,000 acres for rice, 4,798,000 acres or wheat, 756,150 acres for barley, 1,149,206 acres for maize, 6,608,000 acres for cotton, and 396,000 acres for linseed. The figures for rice, barley, maize and linseed for Indian States are, however, not complete, as returns for those crops are not furnished by a number of States.

Note.—The figures for foreign countries have been taken from the Bulletins of Agricultural and Commercial Statistics Published by the International Institute of Agriculture, Rome

(*a*) Includes Bihar and Orissa and excludes Eastern Bengal up to 1910-11

(*b*) Increase due to the adoption of the latest census figures

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The provincial areas in this column exclude Indian States in direct political relations with the Government of India, but include Feudatory or Tributary States politically controlled by Local Governments, with the exception of the Shan States in Burma and the Tribal areas in the North-West Frontier Province

Column 3.—In this column is entered the area of any Feudatory or Tributary States included in column 2

Column 4.—Prior to 1908-09 this column showed the entire area (exclusive of Indian States) for which the statistics required for Tables II and III were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics, for the whole of this area, based either on regular returns or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 6. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest areas. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (*a*) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (*b*) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of Table II.

Column 2 states the area as ascertained by the provincial Survey department, supplemented, for tracts which have not come under the operations of that department, by areas obtained with the computing scale from the Survey of India Atlas sheets of the localities concerned

Columns 5 and 6.—The statistics for the major portion of the zamindari estates and certain raiyatwari and whole inam villages are based on estimates, owing to the absence of adequate agency for the collection of statistics in these tracts. Of the total area (89,660,057 acres) entered in column 6 for 1918-19 (page 19), 66,531,091 acres are based on actual returns and 23,128,966 acres on estimates

See explanations given in the footnotes (page 18)

(*a*) Includes the unaccounted for difference between the Atlas sheet scale and traverse area on the one hand, and the estimated areas in the village accounts of unsurveyed areas, on the other. The difference was over 1,000,000 acres in 1917-18 and about 860,000 acres in 1918-19.

(*b*) Travancore and Cochin

(*c*) Includes over 77,000 acres of Atlas sheet scale area, for which details have not been shown in Table II

Column 2 states the area as returned by the provincial Revenue Survey and Settlement department, supplemented in the case of Indian States by the returns of the topographical survey

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (48,710,491 acres) entered in columns 5 and 6 for 1918-19 (page 21), 44,750,164 acres are based on actual returns and 3,960,327 acres on estimates

1918-19	33,986,247	3,872,000	.....	30,114,247	30,114,247

Column 2 states the area as returned by the provincial Revenue Survey and Settlement department, supplemented in the case of Indian States by the returns of the topographical survey. The revenue survey being incomplete in Sind, the exact area is not known: the column states the area of surveyed tracts *plus* the estimated area of unsurveyed tracts

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (30,114,247 acres) entered in these columns for 1918-19, 29,989,339 acres are based on actual returns and 124,908 acres on estimates.

1918-19					

Columns 2, 5 and 6.—Where there has been no professional survey of the district, estimates framed in the best manner possible are accepted, subject to revision from time to time as surveys extend. Approximate figures for the Chin Hills and for the Kachin Hills (in the Bhamo, Myitkyina, and Katha districts) have been included from 1906-07 and for the Pakokku Hill Tracts from 1907-08. Of the total area (59,764,736 acres) entered in columns 5 and 6 for 1918-19 for Upper Burma (page 30), 14,572,923 acres are based on actual survey and 45,191,813 acres on estimates

The variations in the areas shown in different years under the same item in the same province or district do not necessarily represent an actual increase or decrease on the area in question. In many cases a revised classification or the correction of a faulty estimate is responsible for the change

Column 2.—"Forests" mean "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped). The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, the chief amongst which are these: (1) because the forest Administration Reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked and returned as forests, by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column

(*a*) See footnote (*a*) on page 12

(*b*) Season unfavourable

Columns 8 to 13 state the area actually irrigated during the year, areas cropped more than once being counted once only

Columns 14 to 18 state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop. The excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13) is thus due to the inclusion in column 18 of the area irrigated at both harvests

(*a*) Includes 1,700 acres in Rajshahi for which details are not available

(*b*) Includes 26,777 acres in Purnea for which details are not available

Table 11—*continued*

See explanations given in the footnotes (page 38).

(*a*) See footnote (*a*) on page 12

(*b*) The increase in current fallows and the decrease in net area cropped are due to unfavourable season.

See explanations given in the footnotes (page 38)

(*a*) Includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the forest administration report represent the areas of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different

(*b*) Includes unculturable Government waste and unculturable *banés*

(*c*) States the estimated area of culturable Government waste

(*d*) Shows (1) the estimated area of culturable *banés*, and (2) the difference between the net area cropped and the gross area of the actual holdings (exclusive of *banés*). It thus includes the unculturable lands within the actual holdings, the area of which annot be ascertained

(*e*) Season unfavourable

Column 2.—Includes the area cultivated within forests, and excludes the area of forests in the State of Sandur, in Bellary, not included in the village papers. As the latter is included in the Forest Administration Report, it accounts partly for the disagreement of its figures with those in this table. The area cultivated with coffee, tea, and rubber within forests during the year 1918-19 has been excluded from this column and is shown under column 6.

Column 4.—Includes areas occupied by *babul* and casuarina trees when they do not form parts of forest areas. Prior to 1911-12, such areas were classed under "Miscellaneous non-food crops" in Table III

Column 5.—Includes all occupied waste, that is to say, waste portions of land for which revenue is paid

Column 6.—Of the total net cropped area for 1918-19 (31,769,279 acres) stated in this column (page 52), 25,741,371 acres are based on actual returns, and 6,027,908 acres on estimates

Column 10.—The term "tanks" refers to a particular kind of dammed reservoirs. These reservoirs are formed by throwing dams across the valleys of small rivulets and streams to intercept water during the rains

Column 13.—Of the total area irrigated in 1918-19 (9,001,070 acres, page 53) 7,060,297 acres are based on actual returns and 1,940,773 acres on estimates

NOTE.—Figures for unsurveyed villages are based on estimates.

Column 2.—Includes land administered by the Forest Department whether formally declared forest under an Act or not, and differs from the area stated in the forest reports, because in certain localities, where the settlement is incomplete, the original areas are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions.

Column 3.—Includes all land recorded at the survey and settlement as unculturable, although at times a very small quantity of this land is cultivated.

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

Column 6.—Of the total net cropped area (22,589,594 acres) entered in this column for 1918-19 (page 56), 21,487,288 acres are based on actual returns and 1,102,306 acres on estimates.

Columns 8 to 13.—The figures given for private canals, tanks, wells, and other sources are rough estimates

Column 16.—By "miscellaneous food crops" are understood the crops entered in Table III, as sugar, fruits and vegetables and miscellaneous food crops.

Column 2.—The figures do not agree with those in the Forest Administration Report, because the revenue records do not state the most recent alterations of area due to erosion by the Indus which the forest report does, and because, on the other hand, the forest report does not always exhibit the most recent alteration of area effected by the revision of survey, which the revenue records do.

Column 2.—Includes forest areas administered by the district officers of some districts. Hence the figures do not agree with those in the forest administration report which excludes these areas. This column also includes the Siwalik Range in the Dehra-Dun district.

Column 5.—The maximum period for which land left untilled is reckoned as fallow is three years.

Column 6.—Of the total net cropped area (22,960,895 acres, page 64) entered in this column for 1918-19 for the Province of Agra, 22,356,895 acres are based on actual returns and 604,000 acres on estimates

Columns 2-13.—See explanations given as footnote on page 22 for Saharanpur and Muzaffarnagar

Columns 8 to 13.—Government canals include private canals except in Dehra-Dun, Naini Tal, Budaun, and Basti for which districts separate figures for private canals have been obtained. There are very few private canals in the United Provinces.

Column 13.—Of the total area irrigated (8,498,471 acres, page 65), in the province of Agra in 1918-19, 8,462,571 acres are based on actual returns and 35,900 acres on estimates.

Columns 14 to 18.—Owing to settlement operations, figures for portions of the Saharanpur and Muzaffarnagar districts are not available, for which estimates have been made to complete the totals of each district

Column 2.—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality.

Column 3.—This column includes 23,680 acres of river beds in Gurgaon, 15,360 acres of mountain tracts in Simla, and 3,896,960 acres of mountain tracts in Kangra. These areas are not accounted for in the village papers, and the figures are based more or less on estimates.

Column 4.—Includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually.

(*a*) Due to remeasurement

* See explanations given in the footnotes (page 72)

(a) The increase in current fallows and the decrease in net area cropped are due to the insufficiency of the monsoon and autumn rainfall, and to the prevalence of influenza epidemic.

NOTE.—For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible.

Column 2.—The area entered in this column is that given in the Forest Administration Report, and includes reserved forests and fuel reserves. Estimates of the forest areas in certain hill tracts are also included. The forest areas in the South Shan States, which are included in the Forest Administration Report, are excluded from this table, no returns of agricultural statistics being prepared for those States.

Column 3.—In settled tracts the unculturable area is taken from settlement registers, but in unsettled tracts it is obtained from the best source available.

Column 4.—Includes land thrown out of cultivation and abandoned. Groves, not classed in the cropped area, and bamboos when not grown in forest areas, are also included in this column.

Column 5.—Includes only such land left uncultivated as is actually in the possession of cultivators. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on land left uncultivated.

Column 2.—Shows the areas administered by the Forest Department; but the figures differ from those in the Forest Administration report, because the actual area of the forest is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thekadari villages surveyed, clearance leased villages earned in proprietary rights, and villages purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers. In the case of the Chanda, Drug, Raipur, and Bilaspur districts this column also includes all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation.

Column 3.—States areas covered with water, hill, or rock, and land occupied by buildings and roads.

Column 4.—States (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings.

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow.

Column 2.—Includes the forest area administered by the Forest Department, but excludes a large area of cultivated land in the Melghat taluk in Amraoti shown as forest in the forest report.

Column 3.—Includes village sites, tanks, and land taken up for public purposes or devoted to uses other than agriculture; it also includes unculturable portions of culturable fields.

Column 4.—Includes land available for cultivation but not given out.

Column 5.—Includes occupied culturable land left fallow for private reasons, such as grazing, rotation, etc.

Total								
1917-18	3,337,496	5,510,500	13,996,408	2,584,546	5,876,624	31,305,574	120	157,648
1918-19	3,460,633	5,510,500	13,978,881	2,700,444	5,680,076	31,330,534	120	154,165

Column 2—The figures represent reserved forests, but exclude the areas of forest villages within the reserves which are entered under the appropriate heads of this table.

Columns 3 and 4—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into culturable and unculturable on the assumption that their proportion in the surveyed area holds good.

Column 5—Includes generally all lands which are thrown out of cultivation or not cultivated for three years, but which remain in the occupation of leaseholders. Figures for the Hills districts except the plains portion of the Garo Hills and Sadiya Frontier Tract are rough estimates.

Column 6—The figures are obtained from the abstract crop statement for districts which have been cadastrally surveyed. The figures for the permanently settled estates of Sylhet and Goa lpara and for the hill districts and the Sadiya Frontier Tract are estimates.

(*a*) Revised figure

Column 2—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazára administered by the district officer and other waste lands in Peshawar.

Column 4—Includes large areas of Government waste not allotted for cultivation

Column 5—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year.

NOTE—This table shows the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities.

The variations in the areas shown in different years under the same crop in the same district do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

Column 10 (*other food-grains including pulses*).—Arhar (pigeon pea), barbati, lobia or chowli (asparagus), mung (green gram), kulthi (horse gram), urad (black gram), field gram, cheick (job's tear), lentils, cheena (common millet), kangni (Italian millet), kodo or varagu, kutki (little millet), kuhudi, peas, pigeon or bottle grass, swank or shama, chickling vetch, buck wheat, wudalu or barti.

(*a*) See footnote (*a*) on page 12.

Column 28 (other dyes).—Arnatto, chayroot, divi-divi, henna, madder, morinda, safflower, saffron.

Column 31.—In certain cases, notably in Madras, the areas stated under "Tea" differ from those given in the special report on tea production published separately. The principal reason is that the special report is prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are in many cases inaccurate and defective. Minor discrepancies are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.

Column 35 (other drugs and narcotics).—Aloes, arecanut, sweet basil, betel-vine, country borage, bogoda brinjal or nela mulaka dhatura, purple flea-bane, isfagul, kclinji or vempali, senna, soap nut, sweet flag.

(a) Increase due to a revised classification of crops.

Fodder crops	Fruits and vegetables including root crops	Miscellaneous crops: Food	Miscellaneous crops: Non-food	Total area cropped during the year	Area cropped more than once	Net area cropped during the year	Province

Column 37 (*fodder crops*).—Carob or locust-tree, fodder cholam, lucerne, guinea grass, oats, field vetch.

Column 38 (*fruits and vegetables including root crops*).—Agasi, wood apple, cashew nut, custard apple, rose apple, artichoke, arum, beans, beetroot, bilimbi, bimb, brinjal, cabbage, carrot, cassava, cauliflower, celery, chicory, citron, coconut, cress, cucumber, drumsticks or horse radish, elephantfoot, fig, garmal cape gooseberry, country star gooseberry, goosefoot, gourd, gourd melon, grape, guava, gumberry, edible hibiscus, jack fruit, jujube, kanda, kankrol, kamranga, karola, kavali, kavathu, koorka, lettuce, mango, mangosteen, mankachu, marians, Indian medlar, mellon, oranges, papay, parvar or patol, peach, pineapple, plantain, black plum, hog plum, pomegranate, pomelo, ponnagantikura, potato, puliyavara, sweet potato, pumpkin, radish, raspberry, rosello, sankalu, sapodilla, sebestan, sorrell, water caltrop, spinach, strawberry, manila tamarind, tomato, turnip, uchhe, yams, elephant yams.

Column 39 (*miscellaneous food crops*).—Amaranths, arrowroot, kirni, mahua.

Column 40 (*miscellaneous non-food crops*).—Chrysanthemum, dani (*nipa fruticans*), dhaincha (*sesbania aculeata*), nowers, margosa or neem tree, mulberry, chaplash, thetké (grass).

(a) Variations due to a revised classification of crops.

(b) Includes 342,173 acres in Nainital and Almora for which details of crops are not available.

(c) Increase in 1915-16 is due to inclusion of area under grass and babul previously shown as "fallow" in Table II.

(d) Includes 342,192 acres in Almora and Naini Tal, for which details are not available. Season unfavourable.

(e) Season unfavourable.

Table III—*continued*

* See explanations given in the footnotes (page 103).

Note.—The total in column 41 differs in some cases from the sum of the preceding columns: (see footnotes on page 147)

(a) Variations due to a revised classification of crops.

(b) Decrease due to the insufficiency of the monsoon and autumn rainfall, and to the prevalence of influenza epidemic.

NOTE—The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements is assigned to the principal crop by the village accountant. The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram, jawar and arhar, bajra and arhar, and cotton and arhar, for which separate headings are provided in the crop statements, are distributed in accordance with prescribed formulæ and entered under the crops of which they are composed.

Columns 3, 4, 5, 6, 9, and 10.—The whole of the area of the land planted with food-grains wheat, barley, etc., mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 3,094,500 acres in the whole of the United Provinces of Agra and Oudh in 1918-19

Columns 2 to 24.—See explanations given as footnotes on page 61 for Saharanpur and Muzaffarnagor.

Columns 12, 13, and 14.—The figures shown in these columns represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1918-19 (for the whole of the United Provinces of Agra and Oudh) to 321,500 acres of linseed, 925,000 acres of sesamum, and 1,848,000 acres of rapeseed

* See explanation given in the footnote (page 136)

(*a*) There is no agency for the collection of statistics in Almora, Garhwal, and the hill tracts of Naini Tal. Estimates have, however, been made for Garhwal and included in the table

(*b*) Owing to settlement operations figures for the kharif (autumn) and rabi (spring) crops for the whole of Gorakhpur district and those for all crops for a portion of the Basti district are not available; hence previous year's figures have been repeated

NOTE—The information is received from district officers who in their turn obtain figures from the district Land Records staffs in the case of the temporarily-settled areas and from Zamindars in the case of the permanently-settled portion of Goalpara, with the exception in the latter district of jute, the estimate for which is compiled by the village Chaukidari Panchayats. In the permanently-settled part of Sylhet the figures for jute are those submitted after actual inspection by the village Chaukidari Panchayats. The figures for tea are reported by the garden managers, while for all other crops estimates have been framed by the district officers from the actual areas in the surveyed parts, applied to the rest of the districts. The figures for the hill districts and the Sadiya Frontier Tract are rough estimates which are revised quinquennially except for cotton for the hill districts and sugarcane and rape and mastard for the Sadiya Frontier Tract for which estimates have to be made annually for the forecasts of these crops.

Note.—Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young are treated as "young stock".

(*a*) Figures not available

(*b*) Included under "mules"

(*c*) Figures from 1908-09 to 1910-11, which are based on estimates, include Bihar and Orissa but exclude Eastern Bengal

(*a*) In Coorg the table is prepared quinquennially on a census taken every five years. The last census was taken in March 1915 by the circle shánbógs, and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in municipal towns are included.

(*b*) An annual census is taken on the 15th March in Manpur

(*c*) The figures in columns 7 to 14 exclude Bengal (see Table IV, No. 58)

(*d*) Statistics based on a census taken in 1913-14. Figures for columns 6, 13 and 14 were revised in 1914-15.

(*e*) Included under "Donkeys"

(*f*) Excluding Eastern Bengal

Table IV—*continued*.

Note—Figures for 1912-13 are based on a cattle census taken in 1912; the figures for most of the districts in columns 2 and 3 have, however, subsequently been revised. The census did not take into account the animals named in columns 7 to 11 nor ploughs and carts (columns 12 and 13). The figures for 1910-11 for the districts of the Presidency and Bardwan Divisions and for Darjeeling are based on estimates. The figures for 1909-10 for Faridpur are based on information collected during survey operations conducted in that district.

*Revised in 1918-19

Note.—A census is taken every five years in Government (raiyatwari) villages. The last quinquennial census was taken in 1914-15. In inám villages, there is no suitable agency for the work, and Collectors obtain information for these villages as best as they can: it is not known to what extent any census is made in them. Previous to 1909-10, no information was available regarding live-stock in permanently settled (zamindari) estates and in towns and cantonments which did not form part of any revenue village; but from that year statistics based on estimates are furnished for all these tracts.

(a) Constituted in 1910-11 out of the Cuddapah and North Arcot Districts

Note.—The figures are collected once in five years. The last quinquennial census was taken in 1915- 6. Prior to 1915-16 all animals belonging to a family were entered against the name of the head of the family even though the animals were temporarily absent from the village. Animals belonging to other villages were excluded, and those belonging to a roving grazier having no permanent residence were noted, but were not included in the village resources. In the census of 1915-16 all animals present in the village were recorded, although some of them might belong to other villages, as in the case of the population census. The figures are regularly tested by circle inspectors (kanungos). Stock statistics for the city of Bombay were collected for the first time in 1909-10.

(*a*) Represents figures for both East and West Khandesh.

Note.—The table is prepared quinquennially on a census in each district taken every five years. The last census, which was due in 1913-14 but could not be taken in that year owing to famine in some of the districts, was taken in 1914-15 in all the districts, except Almora, Garhwal, and the hill tracts of Naini Tal. In these latter districts the last census was taken in 1912.

Table IV—*continued*

Note.—The figures for years prior to 1913-14 are only estimates received from time to time on the basis of settlement records or reports of police enquiries. The figures for 1913-14 shown in the table for all the districts of the Province, except Hazaribagh, Ranchi, Palamau, and Manbhum, were arrived at by a census of live-stock held in these districts towards the end of 1913. For Palamau, Hazaribagh, and Ranchi the figures are based on information collected during survey operations; while the figures for Manbhum are based on police reports. Corrections were made in the figures for Hazaribagh in 1915-16 and for Palamau in 1917-18

Note.—A census for the whole province is taken every fifth year in the first week of February. The last census was taken in 1914. All cattle in cantonments and municipalities as also those belonging to Government are included

(*a*) Owing to redistribution of territories consequent on the formation of the province of Delhi [*vide* footnote (*a*) on page 14] the figures for Rohtak and Gurgaon were revised in 1912-13

(*b*) See footnote on page 14

Note.—The figures are collected annually, between the 1st January and the 15th March, by the patwaris in each village for the areas in their respective charges. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari takes into account all animals including those temporarily sent elsewhere (*e.g.*, for grazing), which belong to residents of the village, and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Stock in cities, large towns, cantonments, and in forest villages are included

Note.—A census is made annually by the village officers. All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village

Notes.—The statistics are based on a cattle census taken generaliy every five years. The census is, however, not taken simultaneously in the different districts. In the six districts of the Assam valley and in the Sadya Frontier Tract the last census was taken in 1915. In Cachar it was taken in 1912, in the Garó Hills (plains portion only) in 1913, and in the temporarily settled portion of Sylhet in 1910. No statistics are available for tracts other than Jaintia Parganas in Sylhet, and for the hill tracts

(*a*) For Jaintia Parganas only. The figures for 1904-05 include estimates for other tracts also, but such estimates are not available for 1909-10

(*b*) Excluding permanently settled tracts (*c*) Constructed in 1914-15 out of Lakhimpur (*d*) No information

Table IV—*concluded*.

(*a*) Excludes Bihar and Orissa districts constituted into a separate province

Note.—The varieties of tenure are included as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari, and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the province. In the Central Provinces and Berar, however, areas under Government forests are shown separately.

Column 3.—Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village and where there is any difficulty in estimating the corresponding deduction to be made in the population (*column* 11). In Madras, Pombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this column as "area not fully assessed." Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops or for other special reasons.

Column 4.—This head is sub-divided into (*a*) total fully assessed area for which returns are available, and (*b*) area cultivated out of the area given in head (*a*). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net cropped area as shown in column 6 of Table II.

(§) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year.

* No details

† Includes 1,360,300 acres (in Dinajpur) for which details are not available

‡ Table made quinquennial after 1911-12

¶ Increase due to inclusion of certain Zamindari villages which were formerly included under Raiyatwari

(*b*) Includes 3,407,181 acres in Dinajpur, Rangpur, and Pabna, for which details are not available

Column 5.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, and not those due by raiyats to the zamindars. The actual realisable demand on account of the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are :—(1) ordinary revenue comprising fixed collections, revenue from canals in Sind, fluctuating collections (including nazarana), over collections (Bombay), surplus collections, collections from Government estates, kyun tax (Burma); (2) sale of Government estates; (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of summary settlement cess; (5) moturpha (house tax) collections; (6) assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charges (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent on collections from Government estates (Bengal) and (11) miscellaneous, comprising receipts on account of land registration fees, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, huccoba tax (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of revenue Courts (except in Bengal and Assam), receipts under Madras Act II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, thathameda tax (Burma), receipts from ruby mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway class C land and rents of buildings situated on such lands

Column 6 - -The population is that of the last general census

Entry 8.—As in entry 5, but only ordinary land revenue on fully assessed areas is entered

Entry 9.—To be entry 8, divided by entry 4 (*a*)

Entry 10.—To be entry 8, divided by entry 4 (*b*)

* No details

† Includes ₹15,19,026 for Dinajpur for which details are not available

‡ Includes ₹15,18,959 for Dinajpur for which details are not available

The table is prepared quinquennially, and the figures were last collected in 1917-18

Column 1.—The following classification of estates has been adopted:—

(1) *Zamindari* (*permanently settled*) including estates managed for proprietors by Government.

(2) *Zamindari* (*temporarily settled*) comprising (*a*) all temporarily settled estates, namely, those settled for periods with proprietors and estates leased to farmers for periods; and (*b*) all estates owned by Government as proprietor.

Column 4 (*b*) includes in certain cases fully assessed current fallows.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Land revenue assessed on fully assessed area [col. 4(a)].	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

The table is prepared quinquennially. The figures were last collected in 1918-19

Column 3 (a).—In the case of raiyatwari tracts this column states the area of unoccupied assessed lands, of all unassessed porambokes, of minor inám lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous;" and in the case of zamindari tracts the areas of hills, porambokes, and minor inámi are entered. The entire area of whole inám villages is deducted from this column

Column 3 (b)—Raiyatwari; includes the area of certain Agency tracts in Ganjam, Vizagapatam, and Godavari, and also the difference between the area by professional survey and the area according to village papers

Column 4 (a).—The figures for the raiyatwari tenures in this column are taken from village papers which differ in some cases from the resultant of preceeding columns

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure	
		For total area	For cultivated area			Number of towns	Aggregate population

Column 4 (a).—Raiyatwari; states the total occupied area as stated in village papers

Column 4 (b).—For certain districts areas actually cultivated and for certain others estimates, or actuals supplemented by estimates, are shown in this column

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

Column 8.—Shows only the "ordinary revenue," as defined in the Civil Accounts, on area fully assessed

Column 10.—The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4 (*a*).

Column 11 states the entire population of raiyatwari and zamindari villages, respectively

Table V—*continued*

No. 76—INCIDENCE OF THE LAND REVENUE ASSESSMENT ON THE AREA AND POPULATION OF EACH DISTRICT IN BOMBAY IN 1915-16

District and nature of tenure		Total area (in acres) by survey, less feudatories [col. 2 of table I minus col. 3 of same table]	Deduct		Balance, that is, fully assessed area (in acres) for which figures are available		Total revenue from land (excluding cesses) of district (col. 2)	Population of district (col. 2)
			Area (in acres) not fully assessed	Area (in acres) for which the figures required for this table are not available	Total	Cultivated

This return is prepared quinquennially

Column 1.—Lands held under special tenures, such as talukdari, mehwasi, udhad-jamabandi narvadari, and bhagdari in Gujarat and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)"

Column 3 (*a*) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area

Column 3 (*b*) includes alienated cultivated and zamindari cultivated (estimated) land

Column 4 includes land under temporary cultivation, also pot inams paying full assessment

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average of the last five years about 2·5 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area

Column 11 includes population of pót ináms and the like scattered areas, which cannot be distinguished from the population of the fully assessed area

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, *plus* the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment

The table is prepared quinquennially, and the figures were last collected in 1916-17

Columns 3 (a) and 3 (b) exclude small revenue-free plots, for which details are not forthcoming

Column 5—states (1) "ordinary revenue," comprising (*a*) fixed collections (including land revenue on account of resumed Gorait Jagirs), (*b*) fluctuating collection, (*c*) surplus collections, (*d*) collections from Government estates (including collections from Dudhi, Tarai, and Bhabar Estates, and receipt from Forest Estates); (2) sale of Government estates; (3) sale-proceeds of waste lands and redemption of land tax, (4) miscellaneous comprising (*a*) receipt from quarries and mineral products in forest and land not under the management of the Forest Department, (*b*) water mills rent, (*c*) malikanas or allowance to excluded proprietors, (*d*) fines and forfeitures of Revenue courts, (*e*) recoveries in India of law charges in England on account of appeals from India, (*f*) miscellaneous receipts, (i) patwari miscellaneous receipts (Revenue Record Room), (ii) mutation fees, (iii) mutation fines, (iv) sale of waste paper, (v) Partition fees, (*g*) Rents of Railway class "C" land and rents of building situated on such lands. On the average of the last five years about 1·68 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 6.—The total population of the province includes the population of the Benares State

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Note.—No figures have been entered in columns 8 to 12 opposite "Lucknow, permanently settled," (page 237) as no portion of the permanently settled area has been fully assessed to land revenue

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12

Columns 13 and 14.—The figures are taken from the Census Reports of 1911

Total . . Permanently ,,	973,695	154,321	...	819,374	91,079	1,18,897	
GRAND TOTAL	1,770,921	154,321	...	1,616,600	206,363	3,65,444	501,395

Note.—The table is prepared quinquennially, and the figures were last collected in 1915-16, but some of the figures were revised in 1918-19. The tenure in Ajmer-Merwara is all zamindari, and includes village communities in the case of temporarily settled areas
Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istamrári areas as "Zamindari (permanently settled)"
Column 4 includes in the case of the khalsa villages the assessed cultivated area, including assessed fallows
Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts

† Included under Ajmer

	Miscellaneous revenue	...	...	...	...	...	2,266		

The table is prepared quinquennially, and the figures were last collected in 1917

Column 1.—The following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government;

(2) *Zamindari (temporarily settled)* comprising (*a*) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods and (*b*) all estates owned by Government as proprietor

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts. On the average of the last five years about 0·16 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Land revenue assessed on fully assessed area [col. 4 (*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (columns 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Note.—For tracts outside the surveyed area the figures are mostly based on estimates framed in the best manner possible

Column 1.—No areas are classed as zamindari, as no system of communal assessment prevails

Column 3 (*a*) shows grants under Appendices I and II of the Rules under the Upper Burma Land and Revenue Regulation

Column 3 (*b*) includes non-State lands in districts where no land revenue rates are yet imposed and where the *thathameda* rates have not yet been adjusted

Column 4 (*a*) shows figures of State and non-State lands assessed to land revenue, including current fallows which are not assessed to land revenue. This column also includes the areas of waste land grants of which the rates have been fixed in perpetuity

Column 5 states ordinary land revenue, *thathameda*, water rate rents of fisheries, and items under "Miscellaneous Land Revenue," appearing in the Civil Accounts.

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Column 1—Zamindari (temporarily settled) includes malguzari and thekadari
Column 2 states the area by village papers (column 6 of table I, No. 20)
Column 3(a)—Zamindari estates properly so-called (that is, excluding malguzari) are classed as not fully assessed
Column 4(b) excludes fallows
Column 5—The figures represent different items of land revenue for different districts, no uniform practice having been followed throughout the province

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Ownership	2,981	3,629	3,003	2,131	2,062	151,099	153,458	158,704	149,357	147,919
Right of occupancy	...	...	...	...	...	17,777	21,323	18,089	16,951	15,630

Note—It is optional with local Governments to enter or omit transfers of lands held by tenants

The entries under "by order of court" state not merely the transfers occasioned by debt, but all forms of transfer effected through the medium of a court. The word "court" in the entry "by order of court" should be held to include a revenue court.

Changes of entry due to succession, partitions, or simple mortgages, are not really transfers, and are excluded from the table, as also are redemptions of mortgage. All temporary transfers such as leases are also excluded, but mortgage with possession is treated as a transfer and entered in the table

(*a*) The statement includes all legal transfers of property (1) by voluntary action of the owners and (2) by virtue of decrees of civil, and rders of revenue, courts. Transfers ordered by courts in cases of disputed succession, and those occasioned by debt incurred by the judgment-ebtors, are included under the heading "by order of court." This heading also includes transfers ordered by civil courts from registered holders o decree-holders, of lands sold by civil courts in satisfaction of decrees, and of holdings sold by the revenue authorities for arrears of revenue

(*b*) Transfers of property in land are not permitted in Manpur, except by sale and that only under special conditions

(*c*) Not stated

Note.—Transfers by inheritance or non-permanent transfers, such as leases or usufructuary mortgages for short periods, are excluded but mortgages with possession are included, as also all transfers made under order of a court. Transfers of *malikana* rights, that is, rights to receive a portion of the profits of an estate not amounting to proprietary rights, have been excluded. Statistics of transfers of tenant-right are not given. Transfers by gift have been included.

Note.—Transfers of property in land were not regularly registered in Upper Burma until 1st January 1914. The information is collected by revenue officers. The statement includes cases in which land has been permanently transferred by gift, sale, or other transactions, for valuable consideration. The term "court" includes a revenue office as well as a civil court

(*a*) No information (*b*) Less than one acre (*c*) Details for districts not given

Note.—The figures against "proprietors" are filled up from returns compiled on the basis of mutation proceedings. Those against "tenants" are based on statements furnished by patwaris in which all transfers are entered, including transfers by mortgage with possession, as well as transfers by sale, but excluding transfers by inheritance. The statement does not include leases or mortgages without possession.

Note.—The information is obtained from the Registration Department. The table includes all transfers effected by sale of fields under decree of a court (including a revenue court) either in execution of the decree or for recovery of arrears of land revenue. Private sales or recognised divisions of fields necessitating a change in the name of the registered occupant are entered under "by private contract or gift," as also are mortgages with possession. Transfers due to succession, by inheritance, simple mortgages, and leases are omitted

The column "by order of court" includes transfers occasioned by debt incurred by judgment debtors, as also all other transfers effected by order of courts, civil and revenue

APPENDICES

APPENDIX A

THE AVERAGE YIELD PER ACRE OF PRINCIPAL CROPS IN INDIA

A provisional return of the yield of principal crops cultivated in India was first compiled in 1892, from various statistical publications available at the time, such as agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc. To provide for the periodical revision of the estimates a system of experimental crop cuttings was prescribed by the Government of India, the results of which are reported by Local Governments and Administrations at the close of each quinquennium. The returns for the quinquennium ended 31st March 1917 have been received and scrutinised. These outturns per acre are of extreme importance since these will generally be used during the present quinquennium (*i.e.*, until 31st March 1922) in estimating the production of crops, for which forecasts are prepared.

2. The estimates are prepared in the following way. The estimate given is the average outturn on average soil in a year of average character, as deduced from the information obtained from experiments made during the period under review. When, therefore, this average is multiplied by the average area sown, it is believed to give as near an approximation as possible to the outturn of the crop in an *average* year. The Department of Agriculture or Land Records of each province has at its disposal provisional standard estimates of the average yield of land of average quality (usually under the two major heads of irrigated and unirrigated land) for the several crops in each district. The object of the experiments or investigations annually made is to test the accuracy of these estimates, and to enable the head of the Department in each province to revise his provincial estimates when necessary. Should it happen that the period has been one of unfavourable conditions or of exceptionally favourable conditions, which have affected the experiments reported, this would not necessarily involve the reduction or increase of the standard estimates for the district or for the province, unless there were other reasons for believing that, as estimates of average yield in an average year, they had been pitched too high or too low.

3. In 1913, on an examination of the returns of the quinquennium ending 1911-12, it was recognised that the results of experiments as conducted by the district revenue staff were generally unreliable. A change was accordingly made in the system. In 1915 the Government of India, in order to improve the returns, issued instructions to employ, as far as possible, the expert officers of the provincial Agricultural Department, for carrying out experiments on a well-ordered plan in each agricultural tract, and for the investigation of average crop outturns in the various provinces. It appears from the provincial reports that during the quinquennium under review experiments were regularly conducted by officers of the Agricultural Department in Madras, Bombay, and the United Provinces. In Bihar and Orissa crop tests by officers of the Agricultural Department were carried out on a small scale (as an experimental measure only) in a few districts. In Bengal the work was transferred from the district staff to the Agricultural Department, but owing to a reduction in the staff of the Department in consequence of financial stringency, the old system had to be reverted to. In the Punjab officers of the Agricultural Department were consulted in revising the standards, and it is stated that an improved system of conducting experiments has come into force from 1917. In Burma also new rules have been issued entrusting supervision of the experiments very largely to the Agricultural Department with effect from 1917-18. In Assam experiments were conducted according to revised rules framed in 1912 and slightly modified in 1915. In Mysore a system of checking the estimates by the results of experiments conducted by the Agricultural Department is, it is understood, to be introduced during the next quinquennium. No change in the system appears to have been made or contemplated in the remaining provinces

4. It will thus be seen that in the majority of provinces, the orders of 1915 could not be fully carried out in the quinquennium under review. As a result of the experiments that were made, whether under the old or the new system, considerable changes have been made in the averages previously adopted, except in Bombay, Bihar and Orissa, and the Central Provinces and Berar. The changes

are generally in an upward direction. In Bengal the yield of winter rice has been raised from 983 to 1,036 lbs, and that of jute from 1,271 to 1,300 lbs. Barley in the United Provinces has been raised from 1,100 to 1,150 lbs, arhar from 750 to 800 lbs, and cotton from 160 to 170 lbs. In the Punjab wheat has been raised from 726 to 791 lbs, sugarcane from 1,686 to 1,933 lbs, and cotton from 118 to 135 lbs. Cotton in Sind has been raised from 125 to 170 lbs, and sugarcane from 4,233 to 8,142 lbs. In Assam the yield of autumn rice has been raised from 672 to 706 lbs, and that of sugarcane from 1,904 to 2,016 lbs. In the North-West Frontier Province wheat has been raised from 633 to 676 lbs, and sugarcane from 2,430 to 2,660 lbs. In a few instances the standards have been decreased. In Sind the yield of rapeseed has been put at 393 lbs; in Assam the yield of winter rice at 952 lbs, while the yield of jawar in the North-West Frontier Province is now estimated at 399 lbs.

5. The importance of accurate standards of average outturn cannot be exaggerated, since, as already noted, under the present system the estimates of yield in crop reports are based on these standards, and a small error of even one lb per acre may make a difference of thousands of tons in the estimated yield of a province. It has also to be remembered that the result of a single experiment, if not conducted with proper care, may vitiate the average for the district as well as for the province, since the district figure is calculated by averaging the outturns obtained from all the selected experiments in the district, and the provincial average is estimated by multiplying each district outturn by the area under the crop in each district and dividing the sum of the total outturns thus arrived at by the total area under the crop in the province. It is, therefore, extremely necessary that the instructions issued by the Government of India in 1915, referred to above, should be carried out to the fullest extent, as early as possible, where this has not already been done.

6. The statement below compares the average outturns of the major crops in the different provinces. The relative importance of each province in respect of each crop has also been shown by percentages representing the proportion of the total area under each crop in British India cultivated in each province. Tea has been included in this statement, although this crop is not dealt with in the quinquennial returns, the average outturns having been calculated from the special returns of tea production for the five years ending 1916.

(a) Irrigated. (b) Unirrigated.

The outturns of maize in Assam, of sugarcane in Sind, and of cotton in Ajmer-Merwara appear to be too high, as compared with other provinces, although the areas cultivated are insignificant. On the other hand, the outturns of linseed in the Central Provinces and of sesamum in the Central Provinces and Burma appear to be too low in spite of extensive areas being cultivated with the crops in these provinces

7. In the following paragraphs the leading features of the provincial reports are summarised :—

Bengal.—In 1915 the work of conducting crop cutting experiments in Bengal was partially transferred from the district offices to the Agricultural Department, but owing, as already noted, to a reduction made in the staff of demonstrators attached to the Agricultural Department in consequence of financial stringency, the old system had to be reverted to. This transfer and retransfer of the work from the district staff to the Agricultural Department and back led to some confusion and resulted in fewer experiments being made in some districts than would otherwise have been undertaken. Nevertheless the total number of experiments made during the quinquennium under review with staple crops (rice, wheat, gram, linseed, rape and mustard, sesamum, sugarcane, and jute) was a record of 3,671, as against 2,814 in the previous quinquennium ; and these experiments afforded sufficient data for a general revision of the standards previously adopted for the province. The average yield has been raised in the case of rice, sugarcane, and jute ; while it has been reduced in the case of wheat, gram, rape and mustard, and also linseed. The important changes are the increase in the yield of winter rice from 983 to 1,036 lbs, of autumn rice from 807 to 871 lbs, and of jute from 1,271 lbs, to 1,300 lbs, and the reduction of the yield of wheat from 861 to 698 lbs. The returns do not distinguish between irrigated and unirrigated crops, the irrigated area being relatively very small in the province. A few experiments were also made with certain less important crops such as barley, maize, peas, *khesary*, *mung*, sunn hemp, and tobacco; but the data obtained were not sufficient to warrant the deduction of average yields per acre for the whole province.

Madras.—During the quinquennium under review experiments in Madras were conducted by the Agricultural Department, and it is stated that they may be taken as being on the whole more accurate than those conducted in former years by the officers of the Revenue Department. On the other hand, these are much fewer in number and in many cases are too few to admit of the results being accepted as a representative figure for any tract. It is further stated that the figures reported in the previous quinquennial returns, which were solely based on crop cutting experiments, have never been adopted in Madras for the purpose of calculating outturns in crop forecasts, season and crop reports, etc. For this purpose there exists a separate set of standards, which have been fixed and modified from time to time by the Board of Revenue, in consultation with the Director of Agriculture, on a consideration of the tabulated results of crop cutting experiments, the results obtained on Government farms, and, in the case of cotton, of the figures of total crop exported from certain areas. These standard figures have been reported (rightly) in the present return. The Director of Agriculture, however, remarks that these figures are in need of revision in many cases and that he has now under consideration this important question. For the above reason, no useful comparison can be made between the present and the previous figures, especially as a distinction was made between irrigated and unirrigated crops in the previous figures, whereas the present figures are averages for irrigated and unirrigated crops taken together, except in the case of sugarcane which is always an irrigated crop.

Bombay.—In Bombay the estimates of 1897 were prepared with great care, and the results of the experiments made in the two quinquennial ending 1901-02 and 1906-07 were not considered sufficiently reliable to justify any revision. In the quinquennium ending 1911-12, the system of crop cutting experiments conducted by the district staff was abolished, and a system of more scientifically conducted experiments on Government farms by officers of the Agricultural Department was substituted; but the results obtained on Government farms were too meagre to justify any revision of the provincial averages, although a few changes were made with great caution in the district figures. In the quinquennium under review a few changes have been made in the district figures, as a result of the experience gained by the Agricultural Department ; and it is believed that the changes are in the right direction, although the matter is largely one of guess work. The only change made in the provincial averages is a very slight increase in the yield of cotton, namely, from 100 to 102 lbs; all other figures remaining unchanged. It is stated

that endeavours will be made during the next quinquennium to test other figures upon which it has not yet been possible to offer any definite opinion.

Sind.—The figures reported from Sind in the previous quinquennia were not the average outturns worked out from the yield of crops raised on different classes of lands and under various modes of irrigation, but were mostly the actual results of individual experiments (or mean figures where more experiments than one were made) by the settlement or divisional officers. The present return has also been prepared from similar data, but a distinction has been made between irrigated and unirrigated crops. The Commissioner remarks that in order to work out correct averages, a large number of experiments would be necessary for each crop under different modes of irrigation, and the aggregate cultivation under each mode of irrigation on different classes of lands would also have to be taken into account; but as these statistics are not yet available on a sufficiently large scale, there is no alternative but to accept the figures now communicated by the collectors. As compared with the previous figures the present estimates show an increase in the case of wheat, barley, gram, sugarcane, and cotton, and a decrease in the case of jawar, bajra, sesamum, and rapeseed. The most important changes are the increase in the average yield of barley from 1,076 to 1,279 lbs, that of gram from 476 to 604 lbs, of sugarcane from 4,233 to 8,142 lbs, and of cotton from 125 to 170 lbs; and the decrease in the yield of jawar from 1,396 to 866 lbs, of bajra from 971 to 624 lbs, and that of rapeseed from 602 to 393 lbs. The Commissioner states that it is not possible to explain these wide variations except that the increase in the case of sugarcane and cotton can be ascribed to a more regular supply of water following the many improvements in the canals. The figure for sugarcane (8,142 lbs) seems, however, to be extremely high. It is further stated that instructions have been issued to district officers to collect in future the data of outturn of normal (12-anna) crops raised on different classes of irrigation and to work out on a uniform system the average for the district by taking into account the area under each mode of irrigation.

United Provinces.—In the quinquennium under review experiments in the United Provinces were made regularly by officers of the Agricultural Department and some by settlement officers, in addition to those conducted by district officers. The results of these experiments have not necessitated a change in the previous standards except for barley, jawar, arhar, and cotton. The yield of barley has been raised from 1,100 to 1,150 lbs, that of arhar from 750 to 800 lbs, and that of cotton from 160 to 170 lbs. The yield of jawar, on the other hand, has been reduced from 650 to 600 lbs.

Bihar and Orissa.—In accordance with the Government of India Circular of 1915, referred to above, the execution of crop tests by officers of the Agricultural Department of Bihar and Orissa was started in that year as an experimental measure, and experiments were carried out on a small scale in seven districts as supplementary to those conducted by district officers. The crop tests conducted by the Departmental officers are stated to have shown better results than those conducted by district officers; but the information obtained by the small staff of the Department is not yet of sufficient volume to serve as an effective check on the figures returned by district officers. The experiments conducted by district officers, on the other hand, were, as usual, unreliable owing mainly to carelessness in the selection of typical plots, and the results of these experiments do not, therefore, justify any modification of the provisional standards previously adopted for the province on the basis of the estimates of 1892. In the consolidated tables for British India these unrevised standards have therefore been retained in the statement of provincial averages (Table No. 1), but in the detailed statement of district figures, the average outturns based upon the experiments conducted during the quinquennium under review have been shown for each district, irrigated and unirrigated crops being classified separately. The provincial Director remarks that the district officers' figures should be supplemented by the results of a larger number of experiments made by the trained staff of the Agricultural Department under the new system, before the present provincial standards can be safely revised.

Punjab.—The revision of 1912 in the Punjab was made on the basis of the overcautious estimates of settlement officers, and it was remarked

that the yields then fixed were in consequence too low. The results of the experiments made in the quinquennium under review have confirmed that opinion, and in the present revision these yields, as also the cautious estimates of settlement officers, have been regarded as minima. In consultation with district and settlement officers and the Principal of the Agricultural College, Lyallpur, and other officers of the Department of Agriculture, increases have been made where the results of crop experiments indicate that enhancement is required, provided that the number of experiments has been sufficient. The system of conducting crop experiments has been revised and greatly improved, but unfortunately the new system came into force only with the spring harvest of 1917, at least so far as experiments conducted by district officers were concerned. The present revision shows that a general increase in the provincial averages has taken place. The notable increases are in the yield of rice from 688 to 782 lbs, of wheat from 726 to 791 lbs, of barley from 716 to 809 lbs, of maize from 908 to 1,040 lbs, of sugarcane from 1,686 to 1,933 lbs, and of cotton from 118 to 135 lbs. The Punjab Government remarks "that the present normal yields, though possibly slightly on the low side, are fairly reasonable, and that though it is no doubt difficult to determine how far the results of particular crops in particular harvests vary from the normal, the estimates at least for the main crops are steadily becoming accurate."

Burma.—In the quinquennium under review crop cuttings in Burma were as usual carried out for the most part under the supervision of subdivisional and township officers, with occasional assistance from the Superintendent of Land Records and the subordinate Land Records staff. On a consideration of the results of these experiments and of those made in the previous quinquennia, no change has been made in the previous provincial estimate for rice in Lower Burma; but in the case of Upper Burma the estimates for all the crops now reported exhibit considerable variations. The Director of Agriculture remarks that whatever be the value of the Lower Burma figures, in Upper Burma the number of experiments remains too small to justify confidence in the estimates. In order to show the main products only, the following deductions have, as usual, been made from the gross outturn of the crops, namely, for rice and jawar 33 per cent, and for cotton 70 per cent. The Local Government issued orders in 1916, in accordance with which new rules have been prescribed changing the whole system with effect from 1917-18, and entrusting supervision of the experiments very largely to the Agricultural Department. The results of the new system will be reported in the next return. It may be noted that the average outturns hitherto ascertained by the Director of Agriculture on the basis of crop cutting experiments have never been utilized for the purposes of estimating yields in crop forecasts, season and crop reports, etc, for which there exists a distinct set of normal outturns framed and revised from time to time by the Commissioner of Settlements and Land Records, Burma, mainly on the basis of settlement records. These normal outturns, which are published in the provincial Season and Crop Report, have been shown in the appended Table (No. 8) of district averages underneath the figures of crop cutting experiments reported by the Director of Agriculture, and have also been taken into account in calculating the averages for British India in Table No. 1. It is very desirable that one set of standard outturns should be framed, and revised or verified from time to time, on a consideration of data available from all sources and in consultation with the expert officers of the provincial Agricultural Department.

Central Provinces and Berar.—In the revision of 1912 experiments in the Central Provinces and Berar were selected with great care and due attention was paid to seasonal peculiarities and to classes of soil. In the quinquennium under review, as a result of a large number of experiments made with the rice crop in the Nagpur division slight changes have been made in the figures for that crop for the districts of that division. It has not, however, been considered necessary or advisable to make any change in the provincial averages for any crop.

Assam.—In consequence of the reformation of the province of Assam revised rules for the conduct of crop cuttings were framed in 1912, which were slightly modified in 1915. In accordance with the revised rules experiments were

conducted on all the crops of the province, for which forecasts are made, and also on certain other crops, such as *matikalai* (*phaseolus radiatus*), maize, and potato. The number of experiments made was much larger than in the preceding quinquennium, and their results are stated to have been on the whole satisfactory. The only district in which no experiments were made is the Naga Hills where the staff is stated to be inadequate for the purpose. As a result of the experiments made, the averages have been revised in most cases, the most important changes being the reduction of the yield of winter rice from 1,008 to 952 lbs, and the increase in the yield of autumn rice from 672 to 706 lbs, and that of sugarcane from 1,904 to 2,016 lbs. In the case of cotton a deduction varying between 40 and 50 per cent has been made in order to obtain the yield of lint.

North-West Frontier Province.—In the quinquennium under review experiments in the North-West Frontier Province were made by the district staff (Sub-divisional Officers, Tahsildars, and Naib-Tahsildars) in the two selected districts of Peshawar and Dera Ismail Khan. The results obtained from these experiments have been carefully scrutinized by the Revenue Commissioner, and, in cases where the figures were excessive, especially in Dera Ismail Khan, they have been modified after comparison with the settlement results when the experiments were conducted and worked out under the Settlement Officer's own supervision. For the other districts the averages previously adopted on the basis of experiments framed by Settlement Officers have been repeated. The provincial averages have been raised for all the crops except rice, jawar, and maize. The important changes are the increase in the yield of wheat from 633 to 676 lbs, of barley from 876 to 907 lbs, and of sugarcane from 2,430 to 2,660 lbs, and the reduction of jawar from 436 to 399 lbs.

Ajmer-Merwara.—The figures reported by Ajmer-Merwara are based mainly on the results obtained in 1916-17. The yield of jawar, maize, and cotton has been raised, and that of barley lowered; the most important changes being the increase in the yield of jawar from 137 to 322 lbs, and that of cotton from 170 to 291 lbs. The reported yield of unginned cotton has been reduced by two-thirds to obtain the yield of cleaned cotton (lint), but the figure still appears to be high. It is remarked by the Commissioner that the results of crop experiments, as they are at present conducted in Ajmer-Merwara, are of little, if any, value as a basis for estimating the average yield of any crop on average soil in a year of average character.

Delhi.—The return received from Delhi relates to the new province as constituted in 1912. The reported figures do not call for any special remark.

Coorg.—The only experiments made in Coorg have, as usual, been on rice. The average yield has been slightly lowered from 1,483 to 1,425 lbs, which is still very high in comparison with the reported yield of other provinces. The comparatively high yield of rice in Coorg was ascribed, in the previous return, partly to special attention being paid to rice cultivation since the decline of the coffee industry, and partly to the rice lands of Coorg being watered by hill streams which contain much manurial matter. The slight decrease in the present return is stated to be probably due to the selection of the crop and not to a decline in the productive capacity of the soil or bad years.

Mysore.—As a result of the experiments made in the Mysore State during the quinquennium under review, the averages for all the crops, except sugarcane, have been raised, the most important increases being in the outturns of rice (from 841 to 1,185 lbs), ragi (from 581 to 728 lbs), and cotton (from 79 to 122 lbs). The yield of sugarcane has been reduced from 3,138 to 2,559 lbs. The present figures are based only on experiments conducted by the Revenue Department. It is stated that arrangements have been made for checking the figures by the results of experiments conducted by the Agricultural Department, and the Darbar hope in future to be able to furnish more accurate statistics.

NOTE.—(1) Average yield of both irrigated and unirrigated land is ascertained by multiplying the yield of irrigated land by the irrigated area cropped, and the yield of unirrigated land multiplied by the unirrigated area cropped, and dividing the sum of these products by the total area cropped.
(2) The superseded figures of the previous quinquennia have been inserted merely to show the trend of the revision made in each period
* The estimates for Bihar and Orissa are the standards adopted provisionally by the Agricultural Department of the province, which are partly based on the information collected in 1892. The results of the experiments for the period ending 1916-17, as recorded in table No. 6, are not considered sufficiently reliable to justify a revision of the provincial estimates.
† The averages for Burma for 1916-17 are based on the normal outturns per acre given in the Season and Crop Report of Burma for 1916-17

(*a*) There is no proper cultivation in the area, hence there is no land revenue.
(*b*) The area represent reserved forests, hence no revenue.
(*c*) The land transferred is chiefly occupied by P. W. Dept. Inspection bungalow, etc., and does not bring any revenue.
(*d*) Not available.

APPENDIX C

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA

Agasi, agati, or avati (*Sesbania grandiflora*)—A vegetable crop.

Ajmud (*Carum Roxburghianum*)—A kind of spice.

Ajwan (*Carum copticum*)—A kind of spice, "Bishop's weed."

Akurkura or jevandi (*Chrysanthemum coronarium*)—A non-food crop.

Amada or mamidi allam (*Curcuma amada*)—A condiment.

Ampazham (*spondius magnifera*)—The hog plum.

Arhar (*Cajanus indicus*)—The pigeon pea.

Arunelli (*Phyllanthus distichus*)—Country star gooseberry.

Bajra (*Pennisetum typhoideum*)—The spiked millet.

Bané (Coorg)—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.

Barbati (*Vigna catjang*)—Asparagus, a food grain.

Barti (*see* Wudalu).

Bel (*Ægle Marmelos*)—A fruit.

Bhagdari (*see Narvadari*).

Bilimbi (*Averrhoa Bilimbi*)—A fruit.

Bimb (*Cephalandra indica*)—A fruit.

Chaplash (*Artocarpus Chaplasha*)—A tree grown mainly for timber.

Chayroot (*Oldenlandia umbellata*)—A dye.

Cheena (*Panicum miliaceum*)—The common millet.

Cheik (*Coix lachryma-jobi*)—A food grain, "Job's Tear."

Chikkudukayalu (*Dolichos lablab*)—The Indian or popat bean.

Cholam (*see* jawar).

Cholanathu (*Andropogon sorghum*)—Fodder jawar.

Chowli (*see* Barbati).

Cumbu (*see* Bajra).

Dani (*Nipa fruticans*)—A soboliferous palm, the leaves of which are used for thatching purposes, also for matting.

Dhaincha (*Sesbania aculeata*)—A plant cultivated mainly for green manure.

Dhatura (*Datura alba*)—A drug.

Dividivi (*Cæsalpinia coriara*)—A tanning material.

Gajar—Carrot.

Garmal (*Coleus barbatus*)—A fruit.

Gondli (*see* Kutki).

Gorait (United Provinces)—Village watchman.

Henna (*Lawsonia alba*)—A dye.

Inám (Madras)—Alienated villages or lands granted rent-free. *Whole inám* villages are *entire* villages held on such tenure; *minor ináms* are portions of villages, generally a number of fields, held on *inám* tenure.

——(*Coorg*)—A grant of land by Government as a reward for services rendered or for religious or charitable purposes.

Isfagul (*Plantago ovata*)—A drug.

Istamrári (Punjab, Ajmer-Merwara)—A tenure which, though the revenue is assigned is charged with a permanently fixed quit-rent.

Izáfat (Bombay)—A form of service tenure.

Izára (Berar)—Land leased under the waste-land rules on stipulated terms.

Jagír (Berar)—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.

——(Ajmer-Merwara)—Land granted revenue-free on condition of military service or as a charitable endowment.

——(Bombay)—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.

——(Coorg)—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.

Jambo or naval—Black plum.

Jamma (Coorg)—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

APPENDIX C—*continued*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*continued*

Jawar (*Sorghum vulgare*)—The great millet.

Jenugulu—Asparagus.

Jinjili (*Sesamum indicum*)—An oilseed.

Jira—Caraway.

Jodi (Madras)—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, *minus* the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.

Kalpayaru—Kidney bean.

Kangni (*Panicum Italicum*)—Italian millet

Kamranga (*Averrhoa Carambola*)—A fruit.

Kanda (*Dracontium*)—A vegetable crop.

Kankrol (*Momordica cochinchinensis*)—A vegetable crop.

Karola (*Momordica Charantia*)—A vegetable crop.

Karuvapilai (*Murraya Koenigii*)—A condiment.

Kavali (*Sterculia urens*)—The Indian katura, a fruit.

Kavathu (*Dioscorea alata*)—A tuber used as a food stuff.

Khálsa (Bombay)—Government occupancy or raiyatwari tenure.

——(Central Provinces)—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

——(Berar, Ajmer-Merwara)—Land paying full revenue to Government.

Khatedar (Berar)—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khiraj (Assam)—Land assessed to full revenue.

Khoti (Bombay)—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Kirni (*Mimusops hexandra*)—A large tree cultivated chiefly in north-western India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.

Kodo or *Kutki* (*Paspalum Scrobiculatum*)—A kind of millet.

Korai—The Indian matting sedge.

Kolinji (*Tephrosia purpurea*)—A drug.

Koorka (*Strobilanthes*)—A vegetable crop.

Kuhudi (*Panicum trypheron*)—A food grain.

Kulthi (*Dolichos biflorus*)—Horse gram.

Kutki (*see* Kodo).

Kwin (Burma)—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.

Lakhiraj (Assam)—Revenue-free land.

Lobia (*see* Barbati).

Madder (*Rubia tinctorum* and *R. cordifolia*)—A dye.

Mahalkari (Bombay)—A revenue and police officer in charge of a sub-division of a taluk.

Makhan sim—The sword bean.

Malguzari (Central Provinces)—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

Mamlatdar (Bombay)—The chief revenue and police officer (native) in charge of a taluk.

Mankachu (*Alocasia indica*)—A root crop.

Marua (*Elusine coracana*)—A kind of millet.

Marukkolundu (*Artemisia vulgaris*)—The Indian worm wood.

Mehwasi (Bombay)—A proprietary tenure assessable to revenue at a lump sum.

Muafi (Manpur)—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

Mung (*Phaseolus Mungo*)—Green gram.

APPENDIX C—*continued*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*continued*

Munsarim (Berar).—A head native revenue officer.

Narvadari, Bhagdari (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump and in the latter distributed by rates over fields.

Neem or Margosa (*Melia azadirachta*).—A non-food crop.

Neerali (*Gynocordia odorata*).—An oilseed.

Nela mulaka (*Solanum xanthocarpum*).—The bogoda brinjal, a drug.

Nisfkhiraj (Assam).—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.

Odamula (*Ochalandra Rheedii*).—A reed.

Ol or zaminkand.—The elephant foot, a root crop.

Palampat (Berar).—Land held on payment of a quit-rent, but not necessarily hereditary.

Panchayat (Bengal).—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.

Papay (*Carica papaya*).—A fruit.

Parpattigar (Coorg).—A revenue officer in charge of a sub-division of a taluk.

Parvar (*see* Patol).

Patel (Coorg).—Village headman appointed by Government.

Patol (*Trichosanthes dioica*).—A vegetable crop.

Peshkash (Madras).—The fixed land revenue payable to Government on all permanently-settled estates.

Pimakottai or pouna.—The mast wood.

Ponnagantikura (*Alternanthera sessilis*).—A vegetable crop.

Poramboke (Madras).—Lands reserved for public or village communal purposes.

Pôt inâms (Bombay).—Lands sub-alienated in alienated villages.

Pôt khardb (Berar).—The unculturable area included in a survey number.

Puliyavara (*Oxalis corniculata*).—A vegetable crop.

Ragi (*see* Marua).

Randhuni (*see* Ajmud).

Rayatwari.—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.

Sabai grass (*Ischœmum Augustifolium*).—A fibre plant.

Sank-alu (*Pachyrhizus angulatus*).—A root crop.

Sapodilla (*Achras Sapota*).—A fruit.

Sebestan (*Cordia Myxa*).—A fruit.

Shanbóg (Coorg).—A village accountant appointed by Government.

Shrotriem (Madras).—Village held on grant (originally to Brahmins), wholly or partially revenue-free.

Siris tree or vagai (*Albizzia Lebbek*).—A non-food crop.

Sorrell (*Rumex vesicarius*).—A vegetable crop.

Sother.—Radish.

Swank (*Panicum frumentaceum*).—A food grain.

Talukdari (Bombay).—A form of proprietary right in force in the northern districts of Bombay.

Tejpat (*Cinnamonum Tamala* and *C. obtusifolium*).—A spice.

Thathameda (Upper Burma).—Household tax.

Thattan payara (*see* Barbati).

Thekadar (Central Provinces).—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.

Thetke grass (*Imperata arundinacea*).—A small perennial grass used chiefly for thatching purposes.

Thugyi (Burma).—A village headman

APPENDIX C—*concluded*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*concluded*

Til (*Sesamum indicum*).—An oilseed.

Uchhe (*Momordica muricata*).—A vegetable crop.

Udai (*Acacia eburnea*).—A thorny tree used as fuel or for fencing purposes.

Udhad-jamabandi (Bombay).—A proprietary tenure subject to fixed assessment.

Umbli (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.

Unda (*Pongamia glabra*).—An oil seed.

Urad (*Phaseolus radiatus*).—Black gram.

Wudalu or barti (*Panicum flavidum*).—A food grain.

Zamindar.—The holder of an estate on a fixed assessment under a deed of permanent ownership granted by Government.

———— (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.

Zamindari.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.

———— (United Provinces).—An undivided estate held in joint tenure.

Beetroot	Beta vulgaris	38. „ „ „
Bel	Ægle Marmelos	38. „ „ „
Betel vine	Piper Betle	35. Drugs and Narcotics—others.
„ nut (*see* Arecanut)	.....	.....
Bhindi (*see* Hibiscus, edible)	.....	.....
Bilimbi	Averrhoa Bilimbi	38. Fruits and Vegetables including root crops.
Bimb	Cephalandra indica	38. „ „ „
Bishop's weed (*see* Ajwan)	.....	.....
Borage, country	Coleus aromaticus	35. Drugs and Narcotics—others.
Brinjal	Solanum Melongena, S. longum.	38. Fruits and Vegetables including root crops.
„ bogoda or nela mulaka	Solanum xanthocarpum	35. Drugs and Narcotics—others.
Buck wheat (*see* Wheat)	.....	.....

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Cabbage	Brassica oleracea	38. Fruits and Vegetables including root crops.
Caraway or Jira	Carum Carui	18. Condiments and spices.
„ Black or Shahjira	Carum Bulbocastanum	18. „ „ „
Cardamom Aromatic	Amomum aromaticum	18. „ „ „
„ greater	„ subulatum	18. „ „ „
„ lesser	Elettaria Cardamomum	18. „ „ „
Carob or Locust tree	Ceratonia Siliqua	37. Fodder crops.
Carrot or Gajar	Daucus Carota	38. Fruits and Vegetables including root crops.
Cashew nut	Anacardium occidentale	38. „ „ „
Cassava	Manihot utilissima and M. palmata.	38. „ „ „
Castor	Ricinus communis	16. Oilseeds—others.
Cauliflower	Brassica oleracea	38. Fruits and Vegetables including root crops.
Celery	Apium graveolens	38. „ „ „
Chaplash (*see* Sam tree)	.....	.....
Chayroot	Oldenlandia umbellata	28. Dyes and Tanning Materials—others.
Cheena (*see* Millet)	.....	.....
Cheik (*see* Job's Tear)	.....	.....
Chicory	Cichorium Intybus	38. Fruits and Vegetables including root crops.
Chickling Vetch (*see* Vetch)	.....	.....
Chillies	Capsicum sp.	18. Condiments and spices.
Chikkudukavalu (*see* Beans, Indian)	.....	.....
Cholum (*see* Millet)	.....	.....
Cholanathu (fodder Cholum)	Andropogon Sorghum	37. Fodder crops.
Chowli (*see* Barbati)	.....	.....
Chrysanthemum, Akurkura, or Jevandi	Chrysanthemum coronarium.	40. Miscellaneous non-food crops.
Cinchona	Cinchona sp.	33. Cinchona.
Cinnamon	Cinnamonum zeylanicum	18. Condiments and spices.
Citron or lime or lemon	Citrus medica	38. Fruits and Vegetables including root crops.
Cloves	Eugenia caryophyllata or Caryophyllus aromaticus.	18. Condiments and spices.
Coconut	Cocos nucifera	38. Fruits and Vegetables including root crops.
Coffee	Coffea arabica	30. Coffee.
Coriander	Coriandrum sativum	18. Condiments and spices.
Cotton	Gossypium sp.	21. Cotton.
Cress	Lepidium sativum	38. Fruits and Vegetables including root crops.
Cucumber	Cucumis sativus	38. „ „ „
Cumbu (*see* Millet)	.....	.....
Cumin	Cuminum Cyminum	18. Condiments and spices.
Custard Apple (*see* Apple)	.....	.....
Dani	Nipa fruticans	40. Miscellaneous non-food crops.
Date palm (*see* Palm)	.....	.....
Dhaincha	Sesbania aculeata	40. Miscellaneous non-food crops.
Dhatura	Datura alba	35. Drugs and Narcotics—others.
Dill or Sowa	Peucedanum graveolens	16. Oilseeds—others.
Dividivi	Cæsalpinia coriara	28. Dyes and Tanning Materials—others.
Drumsticks or Horse-radish	Moringa pterygosperma	38. Fruits and Vegetables including root crops.
Elephant's foot, Zaminkand or Ol	Amorphophallus campanulatus.	38. „ „ „
Elephant yam	Tryphonium trilobatum	38. „ „ „
Fennel	Fœniculum vulgare	18. Condiments and spices.

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Fenugreek	Trigonella fœnum græcum	18. Condiments and spices.
Field Vetch (*see* Vetch)	.....	.....
Fig	Ficus Carica	38. Fruits and Vegetables including root crops.
Flea-bane, purple	Vernonia anthelmintica	35. Drugs and Narcotics—others.
Flowers	.....	40. Miscellaneous non-food crops.
Gajar (*see* Carrot)	.....	.....
Garlic	Allium sativum	18. Condiments and spices.
Garmal	Coleus barbatus	38. Fruits and Vegetables including root crops.
Gawar (*see* Vetch)	.....	.....
Ginger	Zingiber officinale	18. Condiments and spices.
Goa bean (*see* Bean)	.....	.....
Gondli (*see* Millet)	.....	.....
Gooseberry, Cape—or tepari	Physalis peruviana	38. Fruits and Vegetables including root crops.
„ Country star or Arunelli	Phyllanthus distichus	38. „ „ „
Goose foot	Chenopodium album	38. „ „ „
Gourd, Snake	Trichosanthes anguina	38. „ „ „
„ Bottle	Lagenaria vulgaris	38. „ „ „
„ Towel	Luffa acutangula	38. „ „ „
„ Red or melon pumpkin	Cucurbita maxima	38. „ „ „
„ Melon, white	Benincasa cerifera	38. „ „ „
Gram	Cicer arietinum	9. Gram.
„ Field	Phaseolus trilobus	10. Other food grains, etc.
„ Green or Mung	Phaseolus Mungo	10. „ „ „
„ Horse or Kulthi	Dolichos biflorus	10. „ „ „
„ Black or Urad (Matikalai)	Phaseolus radiatus	10. „ „ „
Grape	Vitis vinifera	38. Fruits and Vegetables including root crops.
Groundnut	Arachis hypogœa	15. Groundnut.
Guava	Psidium Guajava	38. Fruits and Vegetables including root crops.
Guinea grass	Panicum maximum	37. Fodder crops.
Gumberry	Cordia Rothii	38. Fruits and Vegetables including root crops.
Hemp, Indian, or Ganja	Cannabis sativa	34. Indian Hemp.
„ Sunn	Crotalaria juncea	23. Fibres—others.
„ Deccan	Hibiscus cannabinus	23. „ „
„ Sisal	Agave sisalana	23. „ „
Henna	Lawsonia alba	28. Dyes and Tanning Materials—others.
Hibiscus, edible or bhindi	Hibiscus esculentus	38. Fruits and Vegetables including root crops.
Horse-radish (*see* Drumsticks)	.....	.....
Indian Hemp (*see* Hemp)	.....	.....
Indian worm wood (*see* Marukkolundu)	.....	.....
Indigo	Indigofera sumatrana and I. arrecta.	27. Indigo.
Isfagul	Plantago ovata	35. Drugs and Narcotics—others.
Jack fruit	Artocarpus integrifolia	38. Fruits and Vegetables including root crops.
Jambotree (*see* Plum, black)	.....	.....
Jawar (*see* Millet)	.....	.....
Jenugulu (*see* Barbati)	.....	.....
Jevandi (*see* Chrysanthemum)	.....	.....
Jinjili (*see* Sesamum)	.....	.....
Jira (*see* Caraway)	.....	.....
Job's Tear or Cheik	Coix lachryma-jobi	10. Other food grains, etc.

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Jujube	Zizyphus Jujuba	38. Fruits and Vegetables including root crops.
Jute	Corchorus sp.	22. Jute.
Kachu or Kachalu (*see* Arum)	.....	.....
Kakri (*see* Melon)	.....	.....
Kalpayaru (*see* Beans, Kidney)	.....	.....
Kamranga	Averrhoa Carambola	38. Fruits and Vegetables including root crops.
Kanda	Dracontium	38. „ „
Kangni (*see* Millet)	.....	.....
Kankrol	Momordica cochinchinensis	38. Fruits and Vegetables including root crops.
Kaon (*see* Millet)	.....	.....
Kapok	Eriodendron anfractuosum	23. Fibres—others.
Karola	Momordica Charantia	38. Fruits and Vegetables including root crops.
Karuvapilai	Murraya Koenigii	18. Condiments and spices.
Kavali or Indian Katura	Sterculia urens	38. Fruits and Vegetables including root crops.
Kavathu, pannikkavathu, pallakavathu, kolkavathu	Dioscorea alata	38. „ „ „
Kharbuja (*see* Melon)	.....	.....
Khesari (*see* Vetch)	.....	.....
Khurfa (*see* Purslane)	.....	.....
Kidney bean (*see* Bean)	.....	.....
Kirni	Mimusops hexandra	39. Miscellaneous food crops.
Kodo (*see* Millet)	.....	.....
Korai (*see* Matting sedge, Indian)	.....	.....
Kokam (*see* Mangosteen)	.....	.....
Kolinji or vempali	Tephrosia purpurea	35. Drugs and Narcotics—others.
Koorka	Strobilanthes	38. Fruits and Vegetables including root crops.
Kuhudi	Panicum trypheron	10. Other food grains, etc.
Kulthi (*see* Gram)	.....	.....
Kutki (*see* Millet)	.....	.....
Lemon (*see* Citron)	.....	.....
Lentils	Lens esculenta or Ervam lens	10. Other food grains, etc.
Lettuce	Lactuca Scariola	38. Fruits and Vegetables including root crops.
Lime (*see* Citron)	.....	.....
Linseed	Linum usitatissimum	12. Linseed.
Lobia (*see* Barbati)	.....	.....
Locust tree (*see* Carob)	.....	.....
Lucerne	Medicago sativa	37. Fodder crops.
Madder	Rubia tinctorum and R. cordifolia.	28. Dyes and Tanning Materials—others
Mahua	Bassia latifolia and B. longifolia.	39. Miscellaneous food crops.
Maize	Zea Mays	8. Maize.
Makhan Sim (*see* Beans, Sword)	.....	.....
Mango	Mangifera indica	38. Fruits and Vegetables including root crops.
Mangosteen or Kokam	Garcinia indica	38. „ „ „
Mankachu	Alocasia indica	38. „ „ „
Margosa or Neem tree	Melia azadirachta	40. Miscellaneous non-food crops.
Marians	Bouea burmanica	38. Fruits and Vegetables including root crops.
Marjoram	Origanum vulgare	18. Condiments and spices.
Marua (*see* Millet)	.....	.....
Marukkolundu or Indian wormwood	Artemisia vulgaris	40. Miscellaneous non-food crops.

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Mast wood	Calophyllum inophyllum	16. Oilseeds—others.
Mati kalai (*see* Black gram)	.....	.....
Matting sedge, Indian or Korai	Cyperus corymbosus, C. tegetum.	23. Fibres—others.
Medlar, Indian	Vangueria edulis	38. Fruits and Vegetables including root crops.
Melon, Kharbuja	Cucumis Melo	38. „ „ „
„ Kakri	Cucumis Melo var. momordica	38. „ „ „
„ Musk	Cucurbita moschata	38. „ „ „
„ Water	Citrullus vulgaris	38. „ „ „
„ White Gourd (*see* Gourd)	.....	.....
Metha (Fenugreek)	Trigonella fœnum-græcum	18. Condiments and spices.
Millet, Common or Cheena	Panicum miliaceum	10. Other food-grains, etc.
„ Great or jawar or cholum	Sorghum vulgare	5. Cholum or Jawar.
„ Italian, Kangni, or Kaon	Panicum Italicum or Setaria italica	10. Other food grains, etc.
„ Kodo or Varagu	Paspalum scrobiculatum	10. „ „
„ Little, Kutki, or Gondli	Panicum miliare	10. „ „
„ Marua or Ragi	Elusine Coracana	7. Ragi or marua.
„ Spiked, Bajra or Cumbu	Pennisetum typhoideum	6. Cumbu or Bajra.
Mint or Pudina	Mentha arvensis	18. Condiments and spices.
Morinda or Al	Morinda tinctoria	28. Dyes and Tanning Materials—others.
Moth (*see* Bean)	.....	.....
Mulberry	Morus indica	40. Miscellaneous non-food crops.
Mung (*see* Gram)	.....	.....
Mustard	Brassica sp.	14. Rape and Mustard.
Naval (*see* Plum, black)	.....	.....
Neem tree (*see* Margosa)	.....	.....
Neerali	Gynocordia odorata	16. Oilseeds—others.
Niger Seed or Sorguja	Guizotia abyssinica	16. Oilseeds—others.
Nutmeg	Myristica fragrans	18. Condiments and spices.
Oats	Avena sativa	37. Fodder crops.
Odamula (reeds)	Ochalandra Rheedii	40. Miscellaneous non-food crops.
Ol (*see* Elephant foot)	.....	.....
Onion	Allium Cepa	18. Condiments and spices.
Opium	Papaver somniferum	29. Opium.
Orache, garden (*see* spinach)	.....	.....
Oranges	Citrus Aurantium	38. Fruits and Vegetables including root crops.
Palm, Date	Phœnix sylvestris	20. Sugar—others.
„ Palmyra	Borassus flabellifer	20. „ „
Papay	Carica papaya	38. Fruits and Vegetables including root crops.
Parvar or Patol	Trichosanthes dioica	38. „ „ „
Peach	Prunus persica	38. „ „ „
Peas	Pisum sativum or Pisum arvense.	10. Other food grains, etc.
Peanut (*see* Groundnut)	.....	.....
Pepper	Piper or Capsicum	18. Condiments and spices.
„ Black	Piper nigrum	18. „ „ „
„ Long	Piper longum	18. „ „ „
Pigeon or bottle grass	Setaria glauca	10. Other food grains, etc.
Pigeon pea (*see* Arhar)	.....	.....
Pimakottai, Pouna (*see* Mastwood)	.....	.....
Pine apple	Ananas sativa	38. Fruits and Vegetables including root crops.
Plantain	Musa sapientum	38. „ „ „
Plum, black, Jambo tree or Naval	Eugenia Jambolana	38. „ „ „
„ Hog, or Ampazham	Spondias mangifera	38. „ „ „
Poi (*see* Spinach)	.....	.....

APPENDIX D—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Pomegranate	Punica granatum	38. Fruits and Vegetables including root crops.
Pomelo	Citrus decumana	38. „ „ „
Ponnagantikura	Alternanthera sessilis	38. „ „ „
Potato	Solanum tuberosum	38. „ „ „
„ Sweet	Ipomœa Batatas, Batatas edulis.	38. „ „ „
Pudina (*see* Mint)	.....	.....
Puliyavara	Oxalis corniculata	38. Fruits and Vegetables including root crops.
Pumpkin	Cucurbita pepo	38. „ „ „
Pumpkin Melon (*see* Gourd, red)	.....	.....
Radish or Sother	Raphanus sativus	38. Fruits and Vegetables including root crops.
Ragi (*see* Millet)	.....	.....
Randhuni (*see* Ajmud)	.....	.....
Rapeseed	Brassica sp.	14. Rape and Mustard.
Raspberry	Rubus lasiocarpus	38. Fruits and Vegetables including root crops.
Rhea	Bœhmeria nivea	23. Fibres—others.
Rice	Oryza sativa	2. Rice.
Rose apple (*see* Apple)	.....	.....
Roselle	Hibiscus subdariffa	38. Fruits and Vegetables including root crops.
Rubber (India)	Hevea brasiliensis, manihot Glaziovii.	40. Miscellaneous non-food crops.
Sabai grass	Ischœmum augustifolium	23. Fibres—others.
Safflower	Carthamus tinctorius	28. Dyes and Tanning Materials—others.
Saffron	Crocus sativus	28. „ „
Sage	Salvia officinalis	18. Condiments and spices.
Sam tree or Chaplash	Artocarpus Chaplasha	40. Miscellaneous non-food crops.
Sank-alu	Pachyrhizus angulatus	38. Fruits and Vegetables including root crops.
Sapodilla	Achras Sapota	38. „ „ „
Sawan (*see* Swank)	.....	.....
Sebestan	Cordia myxa	38. Fruits and Vegetables including root crops.
Senna	Cassia angustifolia and C. ovata.	35. Drugs and Narcotics—others.
Sesamum, til or jinjili	Sesamum indicum	13. Sesamum.
Shahjira (*see* Caraway, black)	.....	.....
Shama (*see* Swank)	.....	.....
Singhara or water caltrop	Trapa bispinosa	38. Fruits and Vegetables including root crops.
Siris tree or vagai	Albizzia Lebbek	40. Miscellaneous non-food crops.
Sisal hemp (*see* Hemp)	.....	.....
Soapnut or Kumkudu-Kaya	Sapindus trifoliatus	35. Drugs and Narcotics—others.
Sorguja (*see* Niger seed)	.....	.....
Sorrell	Rumex vesicarius	38. Fruits and Vegetables including root crops.
Sowa (*see* Dill)	.....	.....
Sother (*see* Radish)	.....	.....
Soy bean (*see* Bean)	.....	.....
Spelt wheat (*see* Wheat)	.....	.....
Spinach	Spinacea oleracea	38. Fruits and Vegetables including root crops.
„ Indian or poi	Basella alba	38. „ „ „
„ Mountain, or Garden Orache	Atriplex hortensis	38. „ „ „
Strawberry	Fragaria vesca	38. „ „ „
Sugarcane	Saccharum officinarum	19. Sugarcane.

APPENDIX D—*concluded*

ALPHABETICAL LIST OF CROPS—*concld.*

Name of Crop		Heads of classification in Table III
English or Vernacular	Botanical	
Sunflower	Helianthus Annuus	16. Oilseeds—others.
Swallow-wort	Calotropis sp.	23. Fibres—others.
Swank, Sawan, or Shama	Panicum frumentaceum	10. Other food grains, etc.
Sweet flag	Acorus Calamus	35. Drugs and Narcotics—others.
Sweet potato (*see* Potato)	.....	.....
Tamarind	Tamarindus indica	18. Condiments and spices.
„ Manila	Pithecolobium dulce	38. Fruits and Vegetables including root crops.
Taramira	Eruca sativa	14. Rape and Mustard.
Tea	Camellia Thea	31. Tea.
Tejpat	Cinnamonum Tamala and C. obtusifolium.	18. Condiments and spices.
Tepari (*see* Gooseberry)	.....	.....
Thattan-payara (*see* Barbati)	.....	.....
Thetkè (grass)	Imperata arundinacea	40. Miscellaneous non-food crops.
Til (*see* Sesamum)	.....	.....
Tobacco	Nicotiana Tabacum and N. Rustica.	32. Tobacco.
Tomato	Lycopersicum esculentum	38. Fruits and Vegetables including root crops.
Tori, Toria	Brassica Napus	14. Rape and Mustard.
Turmeric	Curcuma longa	18. Condiments and spices.
Turnip	Brassica Rapa	38. Fruits and Vegetables including root crops.
Uchhe	Momordica muricata	38. „ „ „
Udai	Acacia eburnea	40. Miscellaneous non-food crops.
Unda	Pongamia glabra	16. Oilseeds—others.
Urad (*see* Gram)	.....	.....
Varagu (*see* Millet)	.....	.....
Vagai (*see* Siris tree)	.....	.....
Vempali (*see* Kolinji)	.....	.....
Vetch, Field or gawar	Cyamopsis psoralioides	37. Fodder crops.
„ Chickling or khesari	Lathyrus sativus	10. Other food grains, etc.
Water caltrop (*see* Singhara)	.....	.....
„ melon (*see* Melon)	.....	.....
Wheat	Triticum sativum	3. Wheat.
„ Buck	Fagopyrum esculentum	10. Other food grains, etc.
„ Spelt	Triticum sativum var Spelta.	3. Wheat.
Wood apple (*see* Apple)	.....	.....
Wudalu or barti	Panicum flavidum	10. Other food grains, etc.
Yams	Dioscorea sp.	38. Fruits and Vegetables including root crops.
Zaminkand (*see* Elephant foot)	.....	.....

Glossary of vernacular terms used in the Volume	127
Index	128—131

Agricultural Statistics of India

1918-19

VOLUME II—INDIAN STATES

Introductory Note

This volume deals with Statistics for Indian States as far as reported. As in the previous issues, summary tables have been inserted to show the total figures relating to area, the classification of area, and the area under crops for each State or group of States, and the totals for all the reporting States. The total number of cattle as far as reported in each of the years 1906-07 to 1918-19 has also been included in the general summary table (No. 1). These statistics are defective for comparative purposes as additions have been made in the number of reporting States from time to time. Explanatory notes have been inserted at the foot of the tables. Two charts and an index for easy reference have been added to the volume. It should be noted that, for the reasons explained below, the agricultural statistics of Indian States are incomplete and are of far less accuracy than those of British Provinces published in Volume I. The question of the improvement of the statistics of Indian States has been taken up by the Government of India, and it is expected that more complete and accurate statistics for them will be available in the near future. As these States comprise one-third of the total area of India, the importance of their statistics in the all-India returns can scarcely be over-estimated. General

The total area of Indian States is approximately 497,000,000 acres (770,000 square miles), with a population of 72 millions according to the census of 1911. These are divided for the purposes of agricultural statistics into two main classes, namely, (1) States within the jurisdiction of Local Governments and Administrations, and (2) States having direct political relations with the Government of India.

(*1*) *States within the jurisdiction of Local Governments and Administrations.*—The total area of these States is 181,060,000 acres, with a population of about 27 millions. They are divided into the following main groups:—

	Area Thousand acres	Population Thousands
Bombay and Sind States	40,878	7,412
Madras States	6,802	4,812
Punjab States	24,511	4,213
Bihar and Orissa States	18,335	3,945
Central Provinces States	19,960	2,117
Burma States (including Shan States)	38,402	1,540
North-West Frontier Province States (including tribal areas)	16,380	1,379
United Provinces States	4,345	832
Bengal States	3,477	823
Assam States	7,970	346
Total	181,060	27,419

The total area of all these States (with the exception of the greater part of the Shan States in Burma and the tribal areas in the North-West Frontier Province) is included in the areas of the respective British Provinces stated in column 2 of table I of Volume I (British India), but are shown separately in column 3 of that table in order to arrive at the net area of British territory (in column 5) dealt with in that volume. Of these States, agricultural

statistics are at present available only for the following thirty-three States in the Madras and the Bombay Presidencies and the Punjab, and are dealt with in this volume :—

	Area Thousand acres	Population Thousands
Madras States—		
Travancore	4,880	3,429
Cochin	903	918
Pudukkottai	754	412
Banganapalle	163	39
Sandur	102	14
Punjab States—		
Patiala	3,795	1,408
Jind	853	272
Nabha	620	249
Bahawalpur	12,700	781
Sirmur (Nahan)	632	139
Kalsia	122	56
Pataudi	34	20
Loharu	143	19
Dujana	57	25
Kapurthala	417	268
Malerkotla	107	71
Faridkot	412	130
Simla Hill States (comprising Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, Madhan, and Koti)	3,231	276
Bombay States—		
Jath	571	70
Phaltan	254	56
Aundh	321	69
Sachin	28	19
Total	31,099	8,740

(2) *States having direct political relations with the Government of India.*— These are divided into the following main groups :—

	Area Thousand acres	Population Thousands
Hyderabad	52,927	13,375
Baroda	4,866	2,033
Mysore	18,861	5,806
Kashmir	54,036	3,158
Rajputana States	82,552	10,530
Central India States	49,515	9,357
Baluchistan (Native)	51,462	420
Sikkim	1,804	88
Total	316,023	44,767

No agricultural statistics are at present available for Hyderabad,* Baluchistan (Native), and Sikkim. Of the remainder, returns are received only from the following twenty States :—

	Area Thousand acres	Population Thousands
Mysore	18,861	5,806
Kashmir	54,036	3,158
Baroda	4,866	2,033
Rajputana States—		
Jaipur	9,971	2,637
Bikaner	14,922	701
Marwar	22,410	2,058
Tonk	1,634	303
Alwar	2,037	792
Kishangarh	549	87
Bharatpur	1,263	559
Jhalawar	527	96
Kotah	3,638	659
Bundi	1,421	219

* Arrangements are being made by the Hyderabad State to prepare agricultural statistics for the State.

	Area Thousand acres	Population Thousands
Central India States—		
Gwalior	16,511	3,102
Indore	6,080	1,008
Bhopal	4,657	730
Rajgarh	613	127
Narsingarh	469	110
Barwani	754	109
Nagod	324	75
Total	165,543	24,349

The total area of all the fifty-three reporting States named above amounts to 196,642,000 acres, with a population of nearly 33 millions. These States, therefore, represent 40 per cent of the total area, and 46 per cent of the total population, of all the Indian States.

The earliest years from which the statements of agricultural statistics have been received from these fifty-three reporting States are noted below :—

Mysore	1886-87
Jaipur	1892-93
Gwalior	1896-97
Bikaner, Marwar, Tonk	1898-99
Alwar, Bharatpur, Kishangarh, Jhalawar, Kotah	1900-01
Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, Bahawalpur	1907-08
Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, Simla Hill States (12 in number)	1908-09
Kashmir	1910-11
Baroda, Bundi, Phaltan, Aundh, Sachin, and Jath	1918-19

The returns for the different States relate to the years ending on the dates stated below, so far as information is now available :—

Bikaner, Sandur, Banganapalle	year ended 31st March
Indore	„ in June
Jath	„ 6th June
Mysore, Gwalior, Nagod, Pudukkottai, Narsingarh, Phaltan, Aundh, Barwani	„ 30th June
Baroda	„ in July
Bundi	„ 14th July
Sachin	„ 31st July
Travancore, Cochin	„ in August
Jaipur	„ 31st August
Kishangarh	„ 15th September
Marwar, Kotah, Jhalawar, Bhopal	„ 30th September
Tonk, Rajgarh, Bharatpur, Alwar	„ 31st October

From the total area of all the fifty-three reporting States (196,642,000 acres), deduction must be made of 107,552,000 acres for which statistics are not available. These comprise chiefly unsurveyed areas and lands held on jagir, muafi, and other privileged tenures. The net area actually covered by these statistics is, therefore, only 89,090,000 acres by professional survey,* or 88,839,000 acres according to village papers.* Table I, Total area

This area is classified, for the purposes of agricultural statistics, as shown in the margin. About 10,167,000 acres, or 11·4 per cent of the total, are occupied by forests; and the area not available for cultivation, that is, land absolutely barren, or unculturable, or covered by buildings, water, and roads, or otherwise appropriated to Table II, Classification of area

	Thousand acres	Per cent
Forests	10,167	11·4
Not available for cultivation	20,188	22·7
Culturable waste other than fallow	15,413	17·4
Current fallows	13,702	15·4
Net area cropped	29,369	33·1
Total	88,839	100

* For explanation of the terms "professional survey" and "village papers," see footnotes to Table I (page 6) of this Volume and the Note prefixed to Volume I

uses other than agriculture, amounts to 20,188,000 acres or 22·7 per cent. The balance, 58,484,000 acres or 65·9 per cent, represents the area available for cultivation. Of this, 15,413,000 acres, or 17·4 per cent of the total area, represent culturable waste, *i.e.*, land available for cultivation but not taken up, and 13,702,000 acres, or 15·4 per cent, were kept fallow in the year under report. The net area actually cropped in the year was thus 29,369,000 acres (33·1 per cent of the total area), which shows a decrease of 3,648,000 acres as compared with the preceding year. This net cropped area, however, excludes areas cropped more than once in the year. If areas cropped more than once are taken as separate areas for each crop, the gross area cropped in the year of report amounts to 30,745,000 acres, as against 37,173,000 acres in the preceding year.

Irrigation

The total area irrigated in the reporting States during 1918-19 was 6,200,000 acres, as against 6,487,000 acres in the preceding year. Of this, 1,794,000 acres were irrigated from Government canals, 722,000 acres from private canals, 723,000 acres from tanks, 1,554,000 acres from wells, and the remaining 1,407,000 acres from other sources of irrigation. These figures, however, do not take into account areas cropped more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. If areas cropped more than once are counted as separate areas for each crop the gross area of irrigated crops amounts to 6,721,000 acres, against 7,162,000 acres in the preceding year. Of this area, 5,856,000 acres were under food crops.

Table III, Area under crops

The gross area cultivated with crops in the reporting States was, as stated above, 30 million acres in 1918-19, as against 37 million acres in the preceding year; or a decrease of 19 per cent. The different classes of crops and the area occupied by each, so far as details are available, are stated in the margin. Of the total cropped area, food crops occupied about 24,015,000 acres or 80·3 per cent and non-food crops about 5,884,000 acres or 19·7 per cent. Of the food-crops, food grains (cereals and pulses) occupied as much as 22,537,000 acres, or 75·4 per cent of the total cropped area, and other food crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food crops together) covered some 1,478,000 acres, or only 4·9 per cent of the total. Of the non-food crops, oilseeds occupied 1,195,000 acres or 4 per cent of the total cropped area, fibres such as cotton, hemp, etc., 2,302,000 acres or 7·7 per cent, and fodder crops 1,101,000 acres or 3·7 per cent. The other non-food crops, namely, dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.), and miscellaneous non-food crops together, covered some 1,285,000 acres or 4·3 per cent of the total.

	Thousand acres	Per cent of total
Food-grains	22,537	75·4
Condiments and spices	185	·6
Sugar	163	·5
Fruits and vegetables	355	1·2
Miscellaneous food-crops	775	2·6
Total food-crops	24,015	80·3
Oilseeds	1,195	4·0
Fibres	2,303	7·7
Dyes and tanning materials	7	...
Drugs and narcotics	253	·9
Fodder crops	1,101	3·7
Miscellaneous non-food crops	1,025	3·4
Total non-food crops,	5,884	19·7

The area under food-grains (22,537,000 acres) shows a decrease of 5,336,000 acres as compared with the preceding year. The actual increase or decrease under each kind of grain is stated in the marginal table. It will be seen that, with the exception of jawar and maize, all the grains showed a decrease, the most marked decrease being in the area under the two principal *rabi* food-grains, wheat and gram.

	Thousand acres		
	1918-19	1917-18	Increase +, Decrease −
Rice	2,243	2,593	−350
Wheat	3,538	5,333	−1,795
Barley	758	1,337	−579
Jawar	5,804	3,329	+2,475
Bajra	2,086	2,648	−562
Ragi	1,940	2,380	−440
Maize	1,149	1,101	+48
Gram	1,602	4,115	−2,513
Other food-grains and pulses	3,417	5,037	−1,620

The area under oilseeds (linseed, sesamum, rapeseed, mustard, etc.) decreased by 842,000 acres or 41 per cent, that under drugs and narcotics by 24,000 acres or 9 per cent, that under condiments and spices by 112,000 acres or 38 per cent, that under fruits and vegetables by 293,000 acres or 45 per cent; that under dyes and tanning materials by 15,000 acres or 68 per cent, and that under fodder crops by 209,000 acres or 16 per cent. The area

under sugar showed an increase of 3,000 acres or 2 per cent, and that under fibres (cotton, hemp, etc.) increased by 505,000 acres or 28 per cent.

The total extent of land on which more than one crop was raised during the year was 1,376,000 acres, as against 4,156,000 acres in the preceding year.

Table IV Live-stock

Tables IV, V, and VI are very incomplete, as figures for these tables are not furnished by many of the reporting States. Table IV is prepared by only twenty-seven States, namely, Mysore, Pudukkottai, Banganapalle, Sandur, Cochin, Gwalior, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Nagod, Bikaner, Marwar, Jaipur, Kishangarh, Alwar, Bharatpur, Jhalawar, Tonk, Kotah, Bundi, Baroda, Phaltan, Aundh, Sachin, and Jath. According to the latest statistics, the total number of live-stock of the bovine class (bulls and bullocks, cows, buffaloes, and calves) in these twenty-seven States is 15,946,000, that of the ovine class (sheep and goats) 10,422,000, and that of horses and ponies, mules and donkeys, and camels 472,000. The numbers of ploughs and carts are 2,232,000 and 683,000, respectively.

Table V Land Revenue.

Table VI Transfer of land.

Table V (Land Revenue) is prepared by twenty-five States, namely, Mysore, Pudukkottai, Banganapalle, Sandur, Cochin, Gwalior, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Bikaner, Nagod, Marwar, Jaipur, Alwar Bharatpur, Jhalawar, Tonk, Kotah, Bundi, Phaltan, Aundh, Sachin, and Jath; and Table VI (Transfers of Land) is furnished by only five States, namely, Mysore, Banganapalle, Cochin, Barwani, and Alwar.

The Appendix explains the vernacular terms used in this volume, and the charts illustrate (1) the classification of the total area showing the proportion of cultivated and uncultivated lands, and (2) the total area cropped in 1918-19 with shares of food and non-food crops

DEPARTMENT OF STATISTICS,
Calcutta, 26th April, 1921.

D. N. GHOSH,
Offg. Director of Statistics.

Note —The entries in this table regarding the classification of area and areas under food and non-food crops comprise figures for Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1906-07; to which were added those for Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, and Bahawalpur from 1907-08; for Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, and the Simla Hill States from 1908-09; for Kashmir from 1910-11, and for Baroda, Phaltan, Aundh, Sachin, Jath, and Bundi for 1918-19.

* The entries regarding cattle comprise Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1906-07; to which were added those for Indore, Rajgarh, and Narsingarh from 1907-08; for Bhopal, Barwani, and Nagod from 1908-09; for Banganapalle and Cochin from 1910-11; for Pudukkottai from 1916-17, and for Sandur, Baroda, Aundh, Phaltan, Sachin, Jath, and Bundi for 1918-19. Detailed figures for the States for nine years are given in Table IV (pages 98-101)

(*a*) Excluding areas for which no returns are available

(*b*) Condiments and spices, fruits and vegetables, and miscellaneous food crops

(*c*) Cinchona, Indian hemp, other dyes and tanning materials, other drugs and narcotics, and miscellaneous non-food crops

(*d*) The total of food crops and non-food crops shown here does not agree with the total area cropped shown in Summary Table No. 4 for the reasons stated in the footnotes to that table (page 5)

Summary Tables—*continued*

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in Southern India. In States where there has been no professional survey, the figures are based on the best available information.

Column 3.—In this column is deducted the entire area for which the statistics required for Tables II and III are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures, which have not yet been surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables II and III is correspondingly increased.

Columns 4 and 5.— Column 4 is a check on the accuracy of column 5. In the latter, "village papers" mean "the papers prepared by the village accountants." In States where no village papers exist, or where the source of information is the same for both the survey and the village papers, the figures in column 4 are necessarily repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (*a*) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas, and (*b*) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads is not always uniform in the two sets of returns.

(*a*) Previous year's figure repeated [*vide* footnote (*a*) on page 14]

(*b*) *Column 3* states the area of unsurveyed forests.

See explanations given in the footnotes (page 6)

(*a*) *Column 3* states the areas of jagir and other alienated lands.

(*b*) *Column 2.*—As there has been no revenue survey so far, this column states the area of the State according to the best available information. *Column 3* states the areas of jagir and muafi villages, the boundaries of which have been demarcated, but for which the statistics required for other tables are not available. *Columns 4 and 5.*—In the absence of any revenue survey data, the figures in column 5 are repeated in column 4

(*c*) *Column 3* states the area held by jagirdars and udakdars, as well as the muafi plots in khalsa villages for which no separate record is maintained

(*d*) See footnote (*a*) on page 13.

(*a*) Statistics are furnished by twelve States of this group, namely, Bashahr, Jubbal, Theog, Kumbarsain, Khaneti Bilaspur, Baghal, Ghund, Mehlog, Baghat, Madhan, and Koti, the last but one from 1911-12 and the last one from 1918-19. These, represent about 86 per cent of the aggregate area of all the States comprised in the group. The returns, however, relate only to the settled portions of the reporting States, except Bilaspur, Baghal, and Mehlog, for which complete returns have been received. *Column 2* states the area of the settled portions of the States named above, except Bilaspur, Baghal, and Mehlog, for which the whole area is included.

(*b*) See footnote (*e*) on page 13

(*a*) *Column 2* states the area of the State as ascertained by revenue survey. *Column 3* exhibits the area of jodi, kayamgutta, and sarvamanayam villages, and jagirs for which the statistics required for the other tables are not available at present.

Column 5.—The figures in column 4 are repeated.

(*b*) *Column 3* states the estimated areas of jagir, muafi, ubari, tanka, istamrar and such other villages as are still unsurveyed.

(*c*) *Column 2* states the whole area of the State, excluding theareas covered by the Indore Residency, the Mhow Cantonment, and the Hirapur Thakurate. *Column 3* states the areas of jagir, istamrar, and forest villages, and also of some of the outbandi villages.

(*d*) *Column 3* states the areas of jagir and such other villages as are still unsurveyed; it also includes the areas which formerly were parts of jagir villages, but which, after the completion of the settlement operations, either lapsed to or were resumed by the State.

(*e*) *Column 3* states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat.

Columns 4 and 5.—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases.

(*a*) *Column 2* states only the khalsa area, forming about one-third of the whole area of the State. The whole area of the State according to the Census of 1911 is 9,970,560 acres, which is shown in table No. 5. *Column 3* states the area of detached revenue-free plots situated in khalsa villages.

(*b*) *Columns 2 and 4* state the area of the State according to the professional survey of 1855. *Column 5* states the area of the State according to the settlement records.

(*c*) *Column 3* states the area of jagir villages

(*d*) *Column 3* states the area of entire jagir and muafi villages, which have not yet been surveyed, and the detached revenue-free plots situated in khalsa villages.

(*e*) *Column 2* states the whole area of the State according to the Census of 1911. *Column 3* states the areas of Bhadarwa and Punch, certain unsettled areas and frontier tracts which are not directly looked after by the Revenue Department of the State, and also certain other areas for which returns are not available. *Columns 4 and 5* entirely exclude the area of Bhadarwa (*Jagir*) and Punch and Frontier *Ilaqas*.

(*f*) Details not available

Column 2.—The definition of the term "forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area cropped), an explanation being given in a note.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture

Columns 4 includes groves not classed in the cropped area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

Columns 8 to 13 state the area actually irrigated during the year, areas cropped more than once being counted once only.

(*a*) The statistics collected in 1908-09 have been repeated up to 1912-13, as fresh information could not be collected owing to pressure of work connected with the revenue settlement of the State.

(*b*) *Column 2* states the area of reserved forests within surveyed villages

(*c*) Includes 8,215 acres in coffee estates

Columns 14 to 18 state the gross area of irrigated crops, areas cropped more than once being counted as separate areas for each crop. This accounts for the excess in some cases of the total area of crops irrigated (column 18) over the total area irrigated (column 13).

(*a*) Incomplete

Table II—*continued*

No. 7—CLASSIFICATION OF THE AREA (in acres) OF EACH STATE—*continued*

See explanations given in the footnotes (page 14)

(*a*) *Column 2* states the areas of forests left unassessed. Forests in this State not having been demarcated, figures in columns 3 and 4 also include same forest areas. *Column 4* states areas of land left uncultivated for over three years of *bir* (grass lands) and of pasture lands. *Column 5.*—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

Column 2 states the areas of state and district forests and of plantations.

Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture, but the exact area of all such lands cannot be ascertained, although it cannot be large.

(*a*) Included in column 3 (*b*) Included in Column 8

Bharatpur—Column 2 includes grass preserves (locally called the State *Rundhs*) and hills. Column 4 includes areas out of cultivation or which have not been cultivated for the last four years or upwards, but excludes State grass preserves (*Rundhs*) Column 5—the maximum period for which land thrown out of cultivation is reckoned as fallow is three years. Column 8 includes area irrigated from the Bareta Bund, constructed by the State Public Works Department.

Note—In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by higher authorities

(*a*) See footnote (*a*) on page 55

(*b*) Includes millets, maize, and gram.

(*c*) In Travancore no accounts are kept regarding the area under each crop, and the figures shown in this table, up to 1917-18 are based on very rough estimates. An improved system has been introduced by the Darbar according to which accurate figures are available in some cases from 1918-19.

Oilseeds						Condiments and spices	Sugar		Fibres				State

Note.—Until 1898-99 statistics were collected every year by the *shanbog* and *patel* of each village by enquiry or inspection. Since that year a census is taken every five years as nearly as possible simultaneously throughout the State. The last census was taken in January 1916. Live-stock in municipalities are included

*No information

Entry 2 (a).—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (head 10). Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons.

Entry 3.—This column should be sub-divided into (*a*) total fully assessed area for which returns are available, and (*b*) area cultivated out of the area given in head (*a*). The latter head should be equal to the former after deducting current fallows and fully assessed waste.

† See explanation given in the footnote (page 114).

* These are *khalsa* or state lands only. The whole area of the State according to the census of 1911 is stated in Table I—No. 5

***Alwar.*—The classes of tenure are zamindari and village communities, the former comprising *zamindari-bil-ijmal* and the latter *pattidari* and *bhaiyachara*. *Item 1* states the area by village papers (column 5 of Table I). *Item 2 (a)* shows areas covered with forests (column 2 of Table II)which are wholly revenue-free.

††*Jhalawar.*—The whole area stated in this table is classed as "Khatedari" and "Watendari" equivalent to "raiyatwari" and "zamindari" respectively. Item 1 excludes entire villages held by jagirdars and udakdars.

* No information

Entry 4.—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the raiyats to the zamindars. The actual realisable demand on account of the year should be entered, after excluding arrears for past years. This column should include all the heads classed as "Land Revenue" in the Civil Accounts.

Entry 5.—The population in entry 5 is that of the last general census.

* *Entry 7*—As in entry 4 but only ordinary land revenue on fully assessed areas is to be entered.

†*Narsingarh.*—*Item 1* states the net area by revenue survey as shown in column 4 of Table I. *Item 2* (*a*) includes forest areas (column 2 of Table II) and unculturable (column 3 of Table II) and culturable land not possessed by any cultivator. *Item 2* (*b*) states the area of minor muafis. *Item 3* (*b*) includes fallow lands left uncultivated for three years or less as full cultivation rate is assessed on them.

* No information

Column 2 states the net area by survey (column 4 of Table I)
Column 4 (*a*) includes area not fully assessed which cannot be separated from area fully assessed.
Column 5 states "Land Revenue" as defined in the Civil Accounts, and includes cesses which cannot be separated from the land revenue.
Column 8 states only ordinary land revenue with cesses.
Columns 9 and 10.—The figures in these columns represent the incidence of land revenue on areas both fully and partially assessed
Column 11 includes population of area not fully assessed which cannot be separated from that of fully assessed area.

Column 4 (b) states not only the area actually under crops, but also fallow lands as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in Table III

Columns 5 and 6 relate only to khalsa area, as statistics for these columns are not available for the whole area of the State

Column 1.—The State area leased to cultivators for a fixed term is returned as *raiyatwari*. The area leased out on condition of proprietary rights being given to lessees if they reclaimed land within a fixed term is returned as *zamindari—temporarily settled;* and the rest of the area (*i.e.*, the area remaining after deduction of the raiyatwari and the temporarily-settled zamindari areas from the total area) is entered as *zamindari—permanently settled*

Column 3 includes muafi, chauth, and istamrar areas.

Column 6.—The population stated is that of the last census.

Column 11 shows the total population in cases where separate figures for areas fully and not fully assessed are not available.

Table V—*concluded*

No. 50—INCIDENCE OF THE LAND REVENUE ASSESSMENT ON THE AREA AND POPULATION OF EACH DISTRICT IN KOTAH IN 1918-19

Note.—It is optional with the local authorities to enter or omit transfers of lands held by tenants. The following rules have been prescribed for the preparation of this return:—(1) Changes of entry due to succession, partitions, or simple mortgages are not really transfers and should be excluded from the table, as also should redemptions of mortgage. (2) All temporary transfers, such as leases, should also be excluded, but mortgage with possession should be treated as a transfer and entered in the table. (3) All transfers made by order of a Court should also be included in the table. (4) The word "Court" in the entry "by order of court" should be held to include a revenue Court.

(*a*) *Mysore.*—Only permanent transfers are included as by sale or gift, in which the parties concerned apply for and obtain transfers of revenue registry in the village accounts from which the table is compiled. Thus, changes of registry under orders of civil and revenue courts as well as those effected in consequence of the sale of land for arrears of Government revenue are included.

(*b*) *Alwar.*—Transfers by mortgage with possession, sale, and gift, both of proprietary and of occupancy rights, whether by order of court or by private contract, are shown in this table. Property confiscated by order of a criminal court, and holdings transferred by order of a civil or revenue court in satisfaction of money decrees or arrears of land revenue respectively are thus included.

APPENDIX

Vernacular terms used in the Explanatory Notes.

Bhaiyachara (Alwar).—Villages held by a number of families, by possession without reference to shares.
Bir (Narsingarh).—Grass lands.
Bunds (Alwar).—Embankments.
Chauth (Bharatpur).—Land paying one-fourth of the rental.
Ilaka (*Ilaqa*).—An estate or dependency, a property.
Inám (Mysore).—Wholly or partially revenue-free tenure ; *minor ináms* are plots of inám lands situated in a village, whether Government or inám.
Istamrár (Gwalior, Indore, Bharatpur).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.
——— (Alwar).—A tenure which, though favourably assessed, is charged with a permanently fixed quit-rent.
——— (Bharatpur).—Land paying a reduced permanently fixed *jama* (assessment).
Jagir (Mysore, Gwalior, Kishangarh, Kotah, Narsingarh).—Land granted revenue-free on condition of military service or as a charitable endowment.
——— (Indore, Barwani).—Land granted revenue-free on condition of military service or as a charitable endowment or in recognition of good services rendered to the State.
———(Bikaner).—Land granted revenue-free on condition of military service or as a charitable endowment.
——— (Alwar).—Assignment of land revenue, with or without condition of military service and payment of commutation dues, granted in recognition of meritorious services to relations of the ruling chief or other high officials of the State.
——— (Kishangarh).—Land granted revenue-free on condition of military service either actually rendered or fulfilled by a rateable money contribution.
Jagirdar (Jhalawar).—Holder of jagir land.
Jodi (Mysore).—A whole inám village paying quit-rent to Government.
Kayamgutta (Mysore).—A whole village granted by the State on fixed money-rent.
Khalsa (Gwalior, Jaipur, Bikaner, Marwar, Bharatpur).—Land paying full revenue to the State.
Khatedari (Jhalawar).—Same as *raiyatwari*.
Muafi (Gwalior, Alwar, Kotah, Bharatpur, Kishangarh).—Land granted free of revenue.
Out-bandi (Indore).—Assessment of revenue calculated at a fixed rate per plough.
Patel (Mysore).—Village headman appointed by Government.
Pattidari (Alwar).—Villages held by a number of families, by shares, ancestral or customary.
Patwari (Narsingarh).—Village revenue officer or accountant.
Raiyatwari (Bharatpur).—State area leased to cultivators for a fixed term.
Rundhs (Bharatpur).—State grass preserves.
Sarvamanayam (Mysore).—An inám village, wholly revenue-free.
Shanbóg (Mysore).—A village accountant appointed by Government.
Tanka (Gwalior).—Estate held by certain families who were in power when the country was annexed and who were left in possession of their estates on payment of a fixed annual tribute, or *tanka*, bearing but a small proportion to the annual assets.
Ubari (Gwalior).—Land held at an abatement of the full land revenue.
Udakdar (Jhalawar).—Holder of a Ubári estate.
Watendari (Jhalawar).—Same as *Zamindari*.
Zamindari (Bharatpur).—Estate on a fixed assessment under a deed of permanent ownership granted by the State.
Zamindari-bil-ijmal (Alwar).—Villages held jointly by a body of owners.

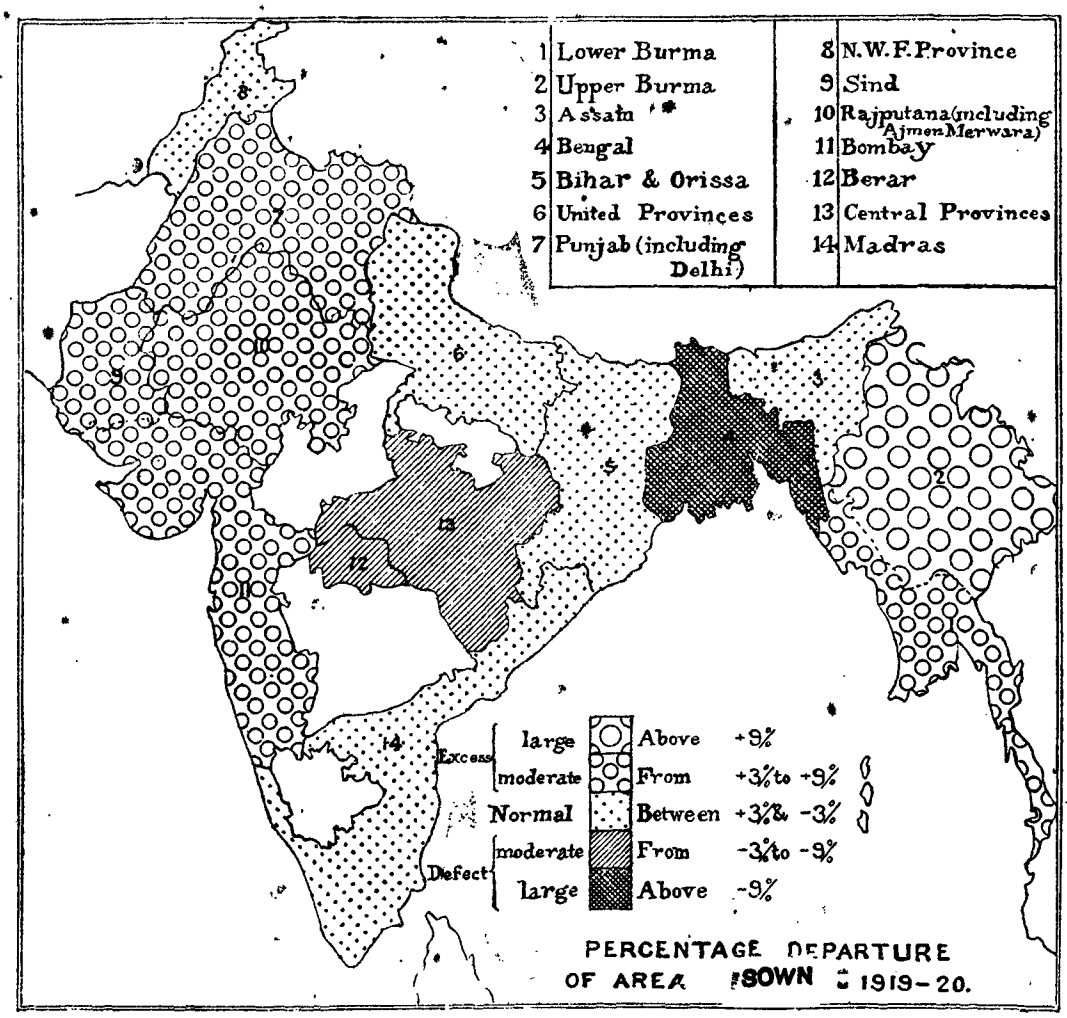
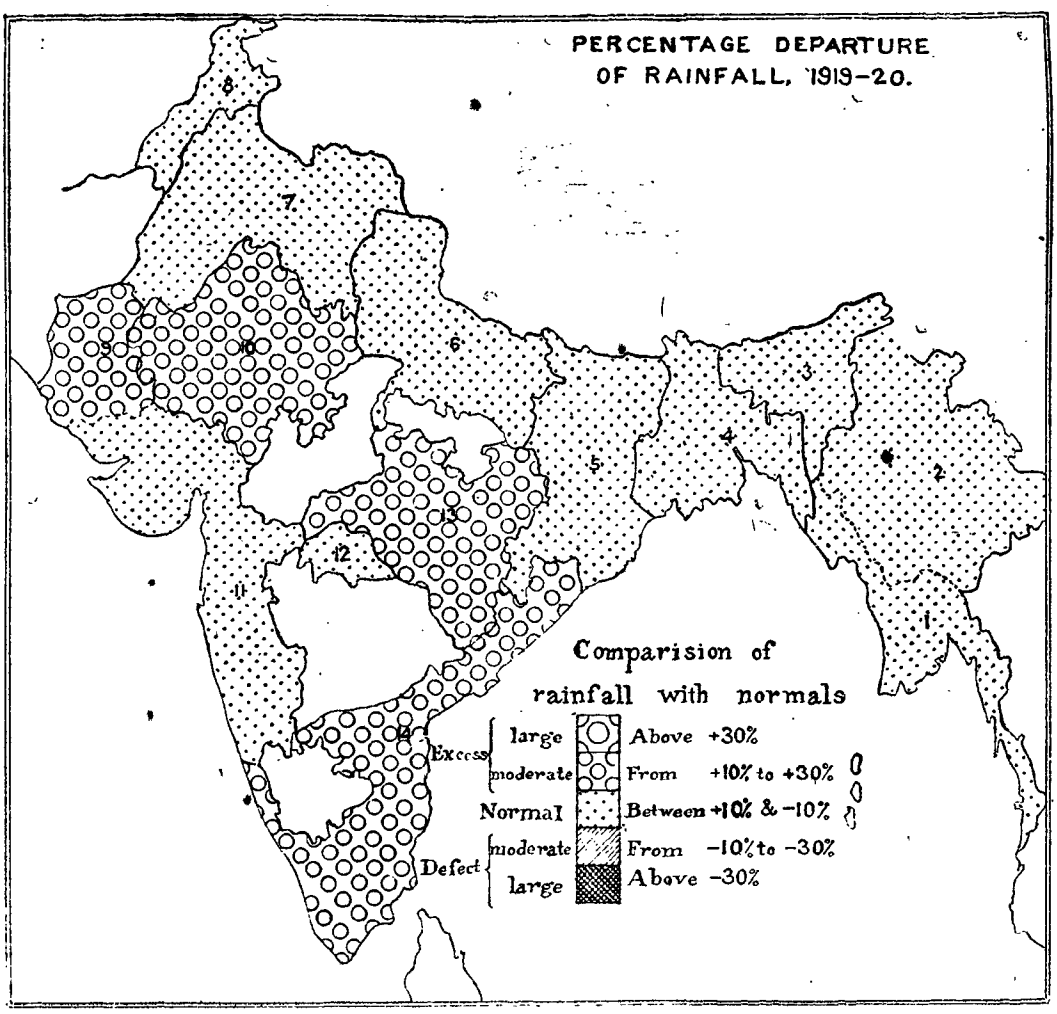
MAP SHOWING THE DEPARTURE OF SOWN AREA AND THAT OF RAINFALL IN 1919-20.





PERCENTAGE DEPARTURE OF RAINFALL, 1919-20.
Comparision of rainfall with normals
Excess large Above +30%
moderate From +10% to +30%
Normal Between +10% & -10%
Defect moderate From -10% to -30%
large Above -30%

NOTE.—For the actual figures of rainfall reference may be made to the publication entitled "Rainfall of India," issued by the Meteorological Department.

Agricultural Statistics of India, 1919-20.

VOLUME I.

NOTE.

In the present issue of the Volume, the undermentioned changes have been made:—

(i) The former Table II (Classification of Area) has been split up into two separate tables, namely, Table II—Classification of Area, and Table III—Area under Irrigation;

(ii) The classification of animals in Table V (formerly Table IV)—Live-stock, has been slightly modified in accordance with the Circular letter No. 421-12-21, dated the 9th March 1916, of the Department of Revenue and Agriculture;

(iii) The former Table VI—Transfers of property in land, and Appendix B—Changes in district and provincial boundaries, have been discontinued; and

(iv) A new table (Table VII) showing harvest prices of certain important crops in each district and province has been added.

Agricultural Statistics of India

1919-20

VOLUME I—BRITISH INDIA

Introductory Note

This annual volume is the thirty-sixth of the series started in 1886 with statistics for 1884-85. As in the previous issue, figures for twenty years are shown in Summary table No. 1, for ten years in the provincial tables, and for two years in the district tables. A map showing the departure from the normal of sown area and that of rainfall in 1919-20 and other charts as detailed in the penultimate paragraph of this note, together with an index for easy reference have, as usual, been inserted in the volume. In the present issue, the former Table II (classification of area) has been split up into two separate tables, *viz.*, Table II—Classification of area, and Table III—Area under irrigation, and a new table (Table VII) showing prices of crops at harvest time has been added; while Table VI—Transfers of property in land, and Appendix B—Changes in district and provincial boundaries, have been abolished. Changes in the Volume

The statistics are compiled from annual returns furnished by Local Governments and Administrations. Detailed information as to the sources from which the figures are collected in the different provinces is given in footnotes to the respective tables for each province. The statistics now consist of seven separate tables, namely, I—Area; II—Classification of area; III—Area under irrigation; IV—Area under crops; V—Live-stock, ploughs, and carts; VI—Land Revenue Assessment; and VII—Harvest prices. The totals of the figures given in these tables are shown in a series of summary tables, to which a table on world crops is added. In addition to these, there are three appendices, namely, Appendix A dealing with the average yield per acre of principal crops; Appendix B giving the meaning of vernacular terms used in the volume; and Appendix C containing an alphabetical list of crops cultivated in India and their classification in Table IV. This volume, it may be noted, deals with the agricultural statistics of British Provinces, while Volume II deals with those of Indian States* as far as they are reported. Sources of Statistics

The returns for each province relate to the following dates:— Periods to which provincial returns relate

Assam, Coorg, and Manpur	Year ended	31st March
Central Provinces and Berar	„	31st May
North-West Frontier Province	„	15th June
Bengal, Bihar and Orissa, United Provinces, Madras, Burma, Bombay and Sind, Punjab and Ajmer-Merwara	„	30th „
Delhi	„	30th September

It may be noted that the statistics relating to areas irrigated (Table III) and areas under crops and specification of crops (Table IV) generally include both the *kharif* and the *rabi* crops, and relate to the year closing with the harvesting of the *rabi* or spring crops.

* In Appendix A (Volume I), however, figures relating to Mysore are shown separately.

Total area and population of India

The total area of India is 1,262,000 square miles, or 1,152,168,000 acres, with a population of 319 millions according to the census of 1921. This may be divided as follows :—

	Acres	Population
(1) British Provinces (including Indian States within the political jurisdiction of Local Governments and Administrations) . . .	754,947,000	271,703,000
(2) Indian States having direct political relations with the Government of India	316,023,000	43,372,000
(3) Certain specially administered territories in Burma (the South Shan States and Karenne) and in the North-West Frontier Province (Tribal areas, etc.) not included under (1)	46,492,000	3,495,000
(4) British Baluchistan (including administered areas) . .	34,706,000	422,000
Total .	1,152,168,000	318,992,000

No returns of agricultural statistics are prepared either for item (3) certain specially administered territories in Burma and in the North-West Frontier Province, or for item (4) British Baluchistan.

Table I Total area

The total area of the British Provinces dealt with in this volume—754,947,000 acres or 1,180,000 square miles—includes 129,798,000 acres, with a population of some 27 millions, belonging to Indian States, which are within the political jurisdiction of Local Governments and Administrations. These include in Burma the Mông mit State, the Hkamte Long State, and the Upper Chindwin States; in Assam, Manipur and the Khasi and Jaintia Hill States; in Bengal, Cooch Bihar and Tripura; in Bihar and Orissa, the Tributary States of Orissa and Chota Nagpur; in the United Provinces, Rampur, Tehri, and Benares; in the Punjab, the Phulkian States, the States of the Bahawalpur Agency, the Jalandhar Division States, and the Simla Hill States; in the North-West Frontier Province, the Phulera and Upper Tanawal States; in Sind, the Khairpur State; in Bombay, the Gujarat States (excluding Baroda), the Konkan States, the Deccan States, the Satara Jagirs, and the Southern Mahratta States; in the Central Provinces, the Chhattisgarh States; and in Madras, the States of Travancore, Cochin, Pudukkottai, Banganapalle, and Sandur. Of these States, agricultural statistics are prepared for most of the States in the Punjab, all the States in Madras and a few States in Bombay; but they are dealt with in Volume II along with the States having direct political relations with the Government of India.

Thus, by deducting 129,798,000 acres belonging to Indian States from the total area of 754,947,000 acres included in British Provinces, a balance of 625,149,000 acres is left (as shown in Table I), which represents the area of British territory according to professional survey. The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in the Southern Presidencies. The agricultural statistics are, however, prepared in a number of provinces or parts of provinces from "village papers," *i.e.*, papers prepared by the village accountants for the purpose of assessment and collection of land revenue. The area given in the village papers of the United Provinces, the Central Provinces, Madras, the Punjab, and the North-West Frontier Province differs to some extent from the area ascertained by professional survey. The causes of this difference are: (*a*) while the surveyed area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas, and (*b*) the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and rail roads is not uniform in the two sets of returns. Substituting the area by village papers for the area by survey in respect of provinces and tracts where the two sets of returns differ, the actual area of British territory for which statistics are given in this volume is 622,468,000 acres, as against 625,149,000 acres according to the professional survey.

This area is, for the purpose of Agricultural Statistics, classified as shown in the margin. About 88,323,000 acres, or 14 per cent of the total, are occupied by forests; and the area not available for cultivation, *i.e.*, land absolutely barren or unculturable or covered by buildings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 145,770,000 acres or 23 per cent. The balance, 388,375,000 acres or 63 per cent, represents the area available for cultivation. Of this, 113,415,000 acres, or 18 per cent of the total area, represent culturable waste other than fallow, *i.e.*, land available for cultivation but not taken up, and 52,135,000 acres, or 9 per cent, were kept fallow in the year of report. The net area actually sown in the year was therefore 222,825,000 acres, or 36 per cent of the total area, as against 201,384,000 acres in the preceding year, or an increase of 4 per cent. The proportion of sown to total area and the number of population per 100 acres of sown area in each province are stated in the margin. The proportion of sown to total area in the year of report was highest in Delhi and lowest in Burma and Sind. This area, however, excludes areas sown more than once in the year. If areas sown more than once are taken as separate areas for each crop, the gross area sown in the year of report amounts to 254,991,000 acres, as against 228,342,000 acres in the preceding year.

Table II Classification of area

	Acres (1,000)	Per cent
Forests	88,323	14
Not available for cultivation	145,770	23
Culturable waste other than fallow	113,415	18
Current fallows	52,135	9
Net area sown	222,825	36
Total	622,468	100

	Proportion of sown to total area	Population per 100 acres of sown area

Assam	18 „	119
Coorg	14 „	122
Burma	13 „	70
Sind	13 „	86
British India	36 „	108

Forests

The term "forests" in the returns of Agricultural Statistics means "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may, however, be excluded, and entered in the column "net area sown." The forest areas returned in the Agricultural Statistics do not agree in most cases with those stated in the Reports on the administration of the Forest Department for various reasons,* the chief amongst which are the following:—(1) the forest administration reports and the returns of agricultural statistics relate in many cases to different periods, (2) the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics include, in addition, forest areas administered by district officers, and (3) certain village lands worked by the Forest Department and returned as forest lands by that Department are not treated as forests in the returns of agricultural statistics but are included under the proper heads of cultivated or uncultivated lands as the case may be. Of the total forest area (88,323,000 acres in 1919-20), 25 per cent lies in Burma, 19 per cent in the Central Provinces and Berar, 15 per cent in the Madras Presidency, 11 per cent in the United Provinces, 10 per cent in the Bombay Presidency, and the remaining 20 per cent in the other provinces.

Area not available for cultivation

As it is naturally expected, most of the barren and unculturable lands lies in the hilly tracts of Burma and of southern India and in the dry and desert regions of north-western India. Of the total area "not available for cultivation" (145,770,000 acres in 1919-20), about 33 per cent lies in Burma, 15 per cent in the Madras Presidency, 10 per cent in Sind, and 9 per cent in the Punjab.

Culturable waste other than fallow

The head "culturable waste other than fallow" shows lands available for cultivation but not taken up. It includes areas such as groves not classed in the sown area and also areas under bamboos and thatching grass when not

* For detailed explanations in respect of provinces, *see* notes at foot of Table II, Nos. 25 to 40.

forming parts of forest areas.* Of the total culturable waste land (113,415,000 acres in 1919-20), 22 per cent is in Burma, 14 per cent in the Punjab, 12 per cent each in Assam and the Central Provinces and Berar, 11 per cent in the Madras Presidency, and the remaining 29 per cent in the other provinces.

Current fallows

The maximum period for which land left uncultivated is reckoned as fallow varies in the different provinces, from two years in the Punjab and the North-West Frontier Province to ten years in the Bombay Presidency, according to local laws and customs. After this period the land, if still left uncultivated, is treated as abandoned and included under the head "culturable waste." Owing to this diversity of practice, the classification as between "culturable waste" and "current fallows" is of doubtful statistical accuracy; a plot of land, for instance, left uncultivated for, say, six years, would be treated as fallow in the Bombay Presidency, but as culturable waste in the Punjab. The total area returned as "current fallow" in 1919-20 was 52,135,000 acres, as against 72,668,000 acres in the preceding year, or a decrease of 28 per cent.

Table III
Irrigation

The total area irrigated in 1919-20 was 48,963,000 acres, as against 47,222,000 acres in the preceding year. Of this area 20,550,000 acres were irrigated from Government canals, 2,647,000 acres from private canals, 7,337,000 acres from tanks, 12,692,000 acres from wells, and 5,737,000 acres from other sources of irrigation. In India irrigation is ordinarily resorted to on an extensive scale in tracts where the rainfall is most precarious. In Lower Burma, Assam, Eastern Bengal, and the Malabar Coast (including the Konkan), where the rainfall is ordinarily heavy, the crops hardly need the help of irrigation, unless there is an unusual scarcity of rain. Of the total area irrigated in 1919-20, 26 per cent was in the Punjab, 22 per cent in the United Provinces, 20 per cent in the Madras Presidency, 12 per cent in Bihar and Orissa, 7 per cent in Sind, and the remaining 13 per cent in the other provinces. The proportion of irrigated to total sown area in each province is stated in the margin. The proportion is highest in the driest province of Sind.

	Proportion of irrigated to total sown area
Sind	79 per cent
Punjab	50 „
North-West Frontier Province	42 „
Ajmer-Merwara	39 „
United Provinces	31 „
Madras	29 „
Delhi	27 „
Bihar and Orissa	23 „
Burma	8 „
Bengal	7 „
Central Provinces and Berar	4 „
Bombay	4 „
Assam	4 „
Coorg	3 „

The figures in the preceding paragraph do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. Counting areas sown more than once as separate areas for each crop, the gross area of irrigated crops was 53,019,000 acres † in 1919-20. Of this area about 86 per cent was under food crops and the remainder under non-food crops. Of the irrigated food-crop area, 10,106,000 acres were sown with wheat, 31,940,000 acres with other cereals and pulses, and 3,416,000 acres with other food crops. These statistics of irrigated crops are in some cases defective as explained in the notes at the foot of Table III (pages 70—77).

Table IV
Area under crops

The areas cultivated with the different crops represent the areas actually sown, whether the crop comes to maturity or not, except in cases where fields, owing to the failure of the first sowings, have been devoted to other crops, and in these cases the area first sown is omitted. In cases where two or more crops are grown together on the same field, an estimate is made of the area covered by each, and the areas so estimated are separately returned under the respective crop headings. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by the provincial authorities. In certain tracts, where the village staff does not exist, estimates are made on the best available information. An exception to the above rule is, however, made in the United Provinces, where the area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements,

* For detailed explanations in respect of provinces, *see* notes at foot of Table II, Nos. 25 to 40.
† Includes 36,000 acres in Agra, for which details are not available.

is assigned to the principal crops by the village accountant. In the same province this procedure is also followed in the case of oilseeds thinly sown in combination with food-grains and in this case the whole area of the mixed field is assigned to food grains.

The gross area cultivated with crops was, as stated above, 255 million acres in 1919-20. The different classes of crops and the area occupied by each class are stated in the margin. Of the total sown area, food-crops occupied about 210,965,000 acres or 83 per cent and non-food crops about 43,674,000 acres or 17 per cent. Of the food-crops, food-grains (cereals and pulses) occupied as much as 199,667,000 acres†, or about 78 per cent of the total area sown, and other food-crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food-crops* together) occupied some 11,298,000 acres or only 4 per cent of the total. Of non-food crops, fibres such as cotton, jute, hemp, etc., occupied 18,865,000 acres or nearly 7 per cent of the total area sown, and oilseeds occupied 12,571,000 acres or about 5 per cent. The other non-food crops *—dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.), fodder crops, and miscellaneous non-food crops together—occupied some 12,238,000 acres or about 5 per cent of the total.

	Acres (1,000)	Per cent of total
Food-grains	199,667	78·4
Condiments and spices	1,620	0·6
Sugar	2,813	1·1
Fruits and vegetables	5,675	2·2
Miscellaneous food-crops	1,190	0·5
Total food-crops	210,965	82·8
Oilseeds	12,571	4·9
Fibres	18,865	7·4
Dyes and Tanning materials	726	·3
Drugs and narcotics	2,293	·9
Fodder crops	8,206	3·2
Miscellaneous non-food crops	1,013	·5
Total non-food crops	43,674	17·2

Food-grains

The area under food-grains (199,667,000 acres) showed an increase of 21,824,000 acres or 12 per cent as compared with the preceding year. The actual increase under each kind of grain is stated in the marginal table. Of the total area shown in the table under food-grains 19 per cent was in the United Provinces†, 15 per cent in the Madras Presidency, 14 per cent in Bihar and Orissa, 11 per cent each in Bengal and the Punjab, 10 per cent in the Bombay Presidency, 8 per cent in the Central Provinces, and the remaining 12 per cent in the other provinces.

	Acres (1,000) 1919-20	Acres (1,000) 1918-19	Acres (1,000) Increase (+)
Rice	78,706	77,613	+1,093
Wheat	23,530	19,147	+4,383
Barley	7,519	6,464	+1,055
Jawar	22,488	20,537	+1,951
Bajra	14,582	11,201	+3,381
Ragi	4,222	4,004	+218
Maize	6,656	6,064	+592
Gram	12,941	7,647	+5,294
Other grains and pulses	29,023	25,166	+3,857

Oilseeds

The area under oilseeds (12,571,000 acres) showed an increase of 2,098,000 acres or nearly 20 per cent as compared with the preceding year. The actual increase under each kind of oilseeds is stated in the margin. Of the total area under oilseeds shown in this table, 21 per cent was in the Madras Presidency, 17 per cent in Bihar and Orissa, 15 per cent in the Central Provinces and Berar, 12 per cent each in Bengal and Burma, 8 per cent in the Punjab, 7 per cent in the Bombay Presidency, 5 per cent in the United Provinces,‡ and the remaining 3 per cent in the other minor provinces.

	Acres (1,000) 1919-20	Acres (1,000) 1918-19	Acres (1,000) Increase (+)
Linseed	2,245	1,448	+797
Sesamum	3,491	3,235	+256
Rape and mustard	3,680	3,059	+621
Other oilseeds	3,155	2,731	+424

* For a list of these crops, *vide* Appendix C.

† In the United Provinces, the whole of the area sown with food-grains mixed with oilseeds is shown under food-grains. The area included under food-grains, which was really sown with oilseeds (as a mixed crop), is roughly estimated to have been 4,000,000 acres in the whole province in 1919-20. Excluding this area of 4 million acres under oilseeds, the total area under food-grains in British India in 1919-20 would come to 196 million acres instead of 200 million acres.

‡ The figures shown under the several heads of oilseeds in Table IV against the United Provinces of Agra and Oudh represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop, excluding the oilseeds which are thinly sown in combination with wheat, barley, gram, and other food crops. If the areas occupied by the scattered oilseeds plants were added up, it is estimated very roughly that they would amount in 1919-20 for the whole of the United Provinces to about 4 million acres. Including this area, the total area under oilseeds in British India in 1919-20 would come to nearly 17 million acres.

Condiments and spices

The total area under condiments and spices in 1919-20 was 1,620,000 acres as against 1,431,000 acres in the preceding year, or an increase of 189,000 acres or 12 per cent. As it is expected, spices are grown mostly in the southern parts of India, and the Madras Presidency alone accounted for about 47 per cent of the total area under condiments and spices in 1919-20.

Sugar

The total area under sugar in 1919-20 was 2,813,000 acres, as against 3,016,000 acres in the preceding year, or a decrease of 203,000 acres or 7 per cent. Of this area about 2,647,000 acres were occupied by sugarcane, as against 2,855,000 acres in the preceding year. 53 per cent of the sugarcane area was in the United Provinces, 18 per cent in the Punjab, 10 per cent in Bihar and Orissa, 8 per cent in Bengal, and 4 per cent in the Madras Presidency. The other sugar-yielding plants, namely, date palm and palmyra palm, occupied a total area of 166,000 acres as against 161,000 acres in the preceding year. About 51 per cent of this area was in the Madras Presidency and 34 per cent in Bengal.

Fibres

Fibre crops occupied 18,865,000 acres in 1919-20, as against 17,490,000 acres in the preceding year, or an increase of 1,375,000 acres. The actual increase under the several kinds of fibres is shown in the marginal table. The area under cotton showed an increase of 6 per cent. Of the total cotton area 30 per cent was in the Central Provinces and Berar, 28 per cent in the Bombay Presidency, 15 per cent in the Madras Presidency, 14 per cent in the Punjab, and 8 per cent in the United Provinces. The area under jute showed an increase of about 13 per cent. About 88 per cent of the total jute area was in Bengal and the remaining 12 per cent in the adjoining provinces of Bihar and Orissa and Assam. Other fibres also showed an increase of 30 per cent as compared with the preceding year.

	1919-20 Acres (1,000)	1918-19 Acres (1,000)	Increase (+)
Cotton	15,318	14,441	+877
Jute	2,800	2,473	+327
Other fibres	747	576	+171

Dyes and Tanning materials

The total area under dyes and tanning materials was 726,000 acres in 1919-20. Of this, the area under indigo was 243,000 acres, showing a decrease of 44,000 acres or 15 per cent. Of the total indigo area 42 per cent was in the Madras Presidency, 23 per cent in Bihar and Orissa, 20 per cent in the United Provinces, and 9 per cent in the Punjab. Other dyes and tanning materials occupied an aggregate area of 483,000 acres.

Drugs and narcotics

The total area under drugs and narcotics was 2,293,000 acres in 1919-20, as against 2,253,000 acres in the preceding year, or an increase of 40,000 acres. The actual increase or decrease under each kind of drugs and narcotics is stated in the marginal table.

	1919-20 Acres (1,000)	1918-19 Acres (1,000)	Increase(+) or decrease(—) Acres (1,000)
Opium	182	207	—25
Coffee	96	98	—2
Tea	701	688	+13
Tobacco	1,101	1,047	+54
Other drugs and narcotics	213	213	...

Fodder crops

The head " fodder crops " shows only those crops which are used exclusively as fodder in normal times. These are oats, field vetch, guinea grass, lucerne, fodder jawar, and carob or locust tree. The total area under fodder crops in 1919-20 was 8,206,000 acres, as against 7,228,000 acres in the preceding year.

Fruits and vegetables including root crops

The total area occupied by fruits and vegetable crops in 1919-20 was 5,675,000 acres, as against 5,541,000 acres in the preceding year. [For the names of the fruits and vegetable crops cultivated in India, see Appendix C.]

Miscellaneous crops

The total area occupied by miscellaneous crops, that is, crops not classified under any of the heads specified above, was 2,203,000 acres. Of this, about 1,190,000 acres were occupied by miscellaneous food-crops and about 1,013,000 acres by miscellaneous non-food crops. [For the names of the crops included under these heads, see footnotes on pages 128 to 135 and Appendix C.]

Area sown more than once

The total extent of land on which more than one crop was cultivated during the year was 32,165,000 acres, as against 26,957,000 acres in the preceding year.

Table V
Live-stock, ploughs and carts

The statistics recorded in Table V are based on cattle censuses. The census is taken annually in certain provinces and quinquennially in others.* Prior to 1919-20 the censuses were not taken at the same time, nor was the method of collecting the data uniform throughout British India. In 1916, however, the Government of India decided that a census of cattle should be taken throughout British India between December and April with effect from 1919-20, and that it should be repeated quinquennially throughout except in a few provinces, where annual census is taken. Certain changes were also made in the classification of animals. Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. The animals are divided into three classes, namely, (1) bovine, comprising oxen and buffaloes, (2) ovine, comprising sheep and goats, and (3) others, comprising horses and ponies, mules, donkeys, and camels. The total number of live-stock of each of these three classes in each province, together with the numbers of ploughs and carts, is stated in the margin. Of the total number of live-stock of the bovine class (146 millions), which is cattle proper, the United Provinces accounted for 20 per cent, Bengal 17, Madras 15, Bihar and Orissa 14, the Punjab 10, the Central Provinces and Berar 8, Bombay including Sind 7 and the remaining provinces 9 per cent. In the case of stock of the ovine class (sheep and goats), however, Madras accounted for 36 per cent of the total, followed by the Punjab (15 per cent), the United Provinces (13 per cent), Bombay including Sind and Bengal (10 per cent each), and Bihar Orissa (9 per cent). The table below shows the number of live-stock of the bovine class (which is cattle proper) per 100 acres of sown area and per 100 of the population of each province. It will be seen that the number of cattle per 100 acres of sown area ranges between 30 in Bombay and 101 in Bengal and Coorg, while the number per 100 of population varies from 33 in Delhi to 86 in the Manpur Pargana. The average for British India, as a whole, is 66 per 100 acres of sown area and 61 per 100 of the population.

Number in thousands

	Bovine	Ovine	Others	Ploughs	Carts
Bengal	24,724	4,396	126	4,448	737
Madras	22,294	16,515	181	4,287	1,037
Bombay	8,184	2,890	205	1,094	625
Sind	1,818	1,592	300	264	57
United Provinces	29,764	6,100	764	4,872	841
Bihar and Orissa	20,180	4,079	194	3,036	494
Punjab	14,409	7,086	1,265	2,244	302
Burma	5,983	255	115	665	669

Table VI
Land Revenue Assessment

The varieties of land tenure in the different provinces are included in Table VI and are given, as far as possible, under one or other of the following three heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). When the revenue is assessed by the State, permanently or temporarily, on an individual or community owning an estate, and occupying a position identical with or analogous to that of a landlord, the tenure is known as *zamindari* or village community; and when the revenue is assessed on individuals who are the actual occupants, or are accepted as representing the occupants, of smaller holdings, the tenure is known as *raiyatwari*. Under either system there may be rent-paying subtenants. Zamindari tenure may be either *permanently settled*, *i.e.*, where the land

* In Burma, the Central Provinces and Berar and Manpur Pargana the census is taken annually; in all other provinces it is taken quinquennially.

revenue has been fixed in perpetuity, or *temporarily settled, i.e.,* where the land revenue is fixed for a number of years only. Village communities and raiyatwari tenures are, as a rule, temporarily settled, and the land revenue assessed on them are changeable from time to time.

The following table shows the position in the surveyed areas of the various provinces, as regards the forms of land tenure, according to the latest statistics available. The figures roughly indicate the extent to which the different systems prevail :—

	Raiyatwari	Zamindari (individual proprietors or village communities) settled		Total
		Permanently	Temporarily	
	Acres (1,000)	Acres (1,000)	Acres (1,000)	Acres (1,000)
Bengal	...	39,303	11,152	50,455
Madras	61,462	29,586	...	91,048
Bombay	44,733	...	3,910	48,643
Sind	30,098	...	...	30,098
United Provinces	...	7,537	60,767	68,304
Bihar and Orissa	...	41,511	11,292	52,803
Punjab	...	...	56,304	56,304
Burma	110,197	...	...	110,197
Central Provinces	12,303*	...	40,447	52,750
Berar	11,375*	...	...	11,375
Assam	25,688	3,930	1,712	31,330
North-West Frontier Province	...	...	8,438	8,438
Ajmer-Merwara	...	974	797	1,771
Delhi	...	...	369	369
Coorg	1,012	...	...	1,012
Manpur	31	...	...	31
Total	296,899	122,841	195,188	614,928

It will thus be seen that about 48 per cent of the total area is held by *raiyatwari* proprietors, while 20 per cent is held by permanently settled and 32 per cent by temporarily settled *zamindari* proprietors.

The statistics for this table are collected annually in Burma, Assam, Manpur, the Punjab, Delhi, the North-West Frontier Province, and the Central Provinces and Berar, and quinquennially in Bengal, Bihar and Orissa, the United Provinces, Ajmer-Merwara, Bombay, Sind, Madras, and Coorg. According to the latest statistics available, the total revenue from land (excluding cesses) for the whole of British India amounts to ₹36 crores. This represents the actual realisable demand † on account of the year, no account being taken either of the collection of arrears for past years, or of amounts remaining uncollected at the end of the year. The marginal table shows the total land revenue assessment, the total population, and the assessment per head of population in each province. For additional details reference should be made to table No. 89 on pages 272—283.

	Total revenue from land (₹1,000)	Total population (1,000)	Revenue per head	
			R	*a.*
Bengal	2,93,56	44,588	...	11

Total	35,86,04	240,441	1	8

Table VII. Harvest prices

Table VII (inserted for the first time) shows prices of staple crops at harvest-time. It will be seen from this table that the average prices of winter

* Including Government forests.

† Sums remitted on account of unoccupied lands, short crops, etc., are wholly excluded from this total amount in the case of provinces where all remissions are granted within the year to which the return relates, but in provinces where remissions are not granted or are only partially granted within the year, no deduction is made on account of remissions.

rice, rice (unhusked), maize, sugar (raw), linseed, rape and mustard, sesamum, groundnut and tobacco were higher than those in the previous year, while those of wheat, barley, cholum or jawar, cumbu or bajra, gram, cotton (cleaned) and jute were lower.

Appendix A. Average yield of crops

The Agricultural Department in each province maintains a statement of the average yield, per acre of land of average quality, irrigated and unirrigated, of crops in each district. In order to test the accuracy of the standards of normal or average yield, and if necessary, to revise these, a system of crop-cutting experiments exists in all the provinces. Under this system plots of land of average quality are selected, and the crops grown on them are cut and weighed in the presence of responsible officers of the district staff or of the Provincial Agricultural Department. The results of the experiments are reported to the head of the Provincial Agricultural Department, who revises the standards in the light of these returns. This revision is ordinarily made once in five years, although crop-cutting experiments are usually carried out for the principal crops each year. The table in Appendix A shows the figures as last revised with reference to the crop-cutting experiments made up to 1916-17. As time goes on the figures become more accurate, and it may be noted that the general trend of the changes made is in an upward direction. For example, in Bengal the yield per acre of winter rice has been increased from 983 lbs to 1,036 lbs and that of jute from 1,271 lbs to 1,300 lbs. The yield of barley in the United Provinces has been altered from 1,100 lbs to 1,150 lbs, arhar from 750 lbs to 800 lbs, and cotton from 160 lbs to 170 lbs. In the Punjab the yield per acre of wheat has been revised from 726 lbs to 791 lbs, of sugarcane from 1,686 lbs to 1,933 lbs, and of cotton from 118 lbs to 135 lbs. That of cotton in Sind has been raised from 125 lbs to 170 lbs and sugarcane from 4,233 lbs to 8,142 lbs. In Assam the yield of autumn rice has been increased from 672 lbs to 706 lbs and of sugarcane from 1,904 lbs to 2,016 lbs. In the North-West Frontier Province wheat has risen from 633 lbs to 676 lbs and sugarcane from 2,430 lbs to 2,660 lbs. In a few instances the standards have been lowered, as in Sind the yield of rapeseed has been changed from 602 lbs to 393 lbs and in Assam the yield of winter rice, from 1,008 lbs to 952 lbs, while the yield of jawar in the North-West Frontier Province is now estimated at 399 lbs, as compared with the previous estimate 436 lbs.

Appendix B. Vernacular terms
Appendix C. Classification of crops

Appendices B and C require little or no comment. Appendix B explains the vernacular terms used in this volume, and Appendix C the classification in Table IV of the various crops cultivated in India.

Charts

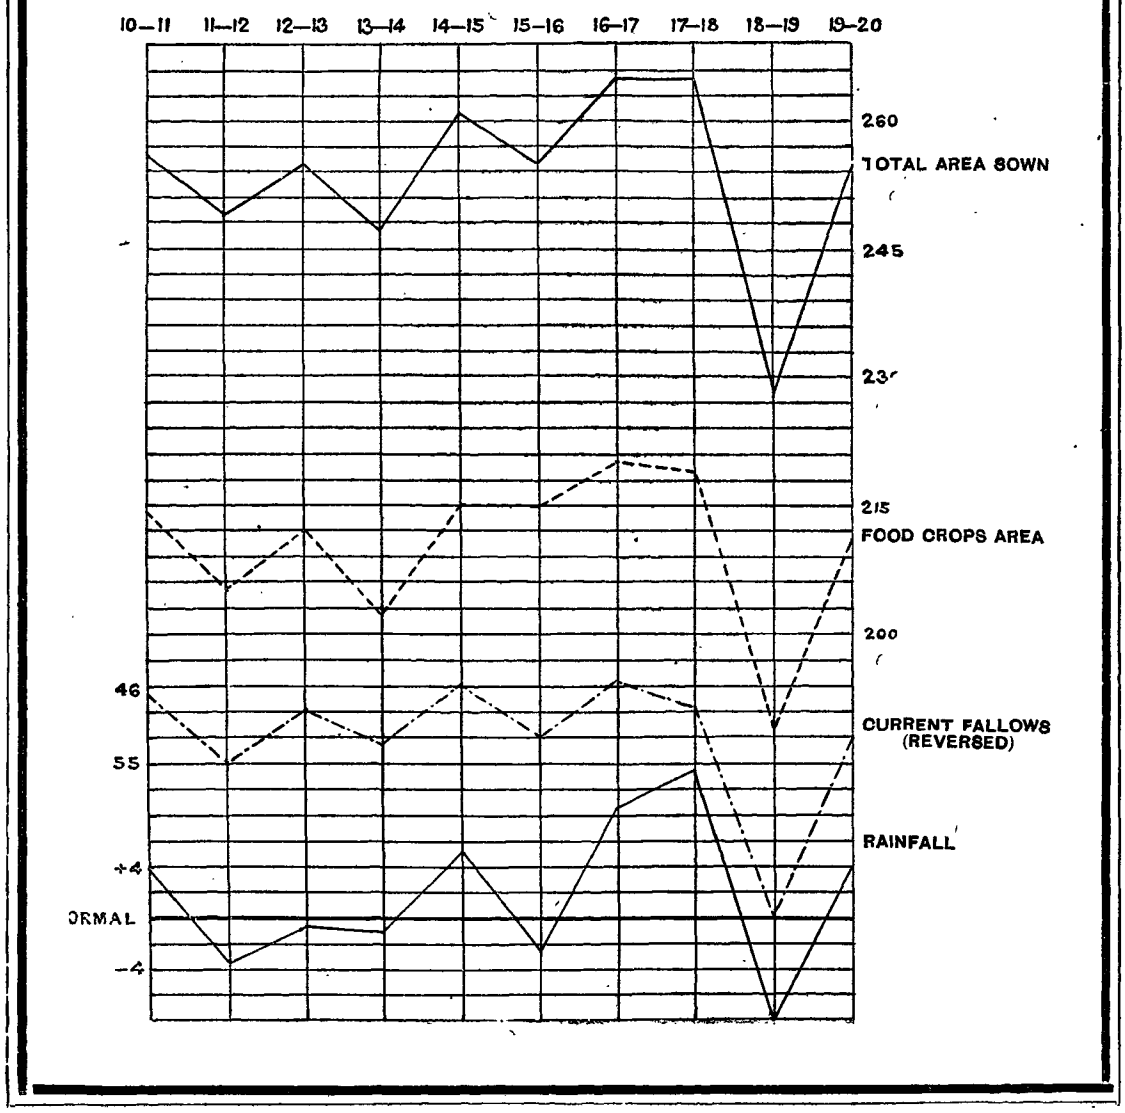
The map, charts, and diagrams appended to the volume illustrate—

(1) the departure of sown area and that of rainfall in 1919-20 from the average of the preceding ten years;
(2) variations in rainfall as compared with the normal in relation to the total area sown, food-crops area, and current fallows (reversed);
(3) rainfall in wheat-growing tracts (June to February) as compared with the total and unirrigated wheat areas;
(4) total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow, and current fallows;
(5) total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops;
(6) area under rice, wheat, millets, oilseeds, cotton, jute, and other crops;
(7) total area sown and area under different crops;
(8) total live-stock divided between bovine, ovine, and others, and
(9) shares of provinces in the total area under principal crops.

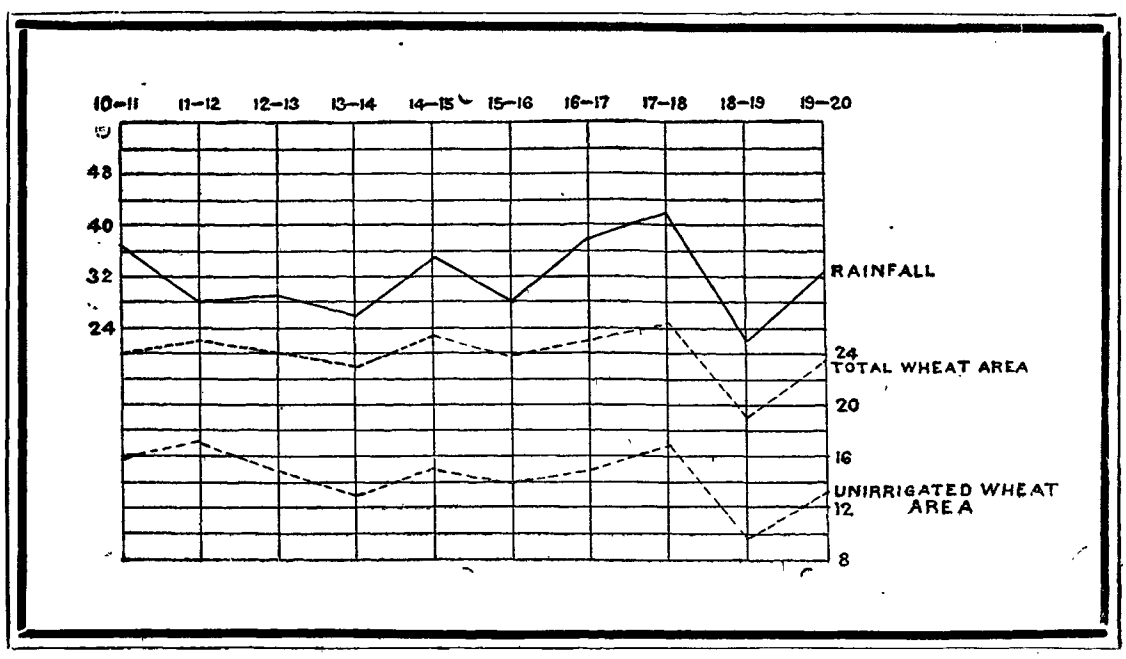
D. N. GHOSH,
Offg. Director of Statistics.

DEPARTMENT OF STATISTICS, INDIA,
Calcutta, November 23, 1921.

2. Total area sown, area under food crops, current fallows (reversed) and variations in rainfall, as compared with normal.

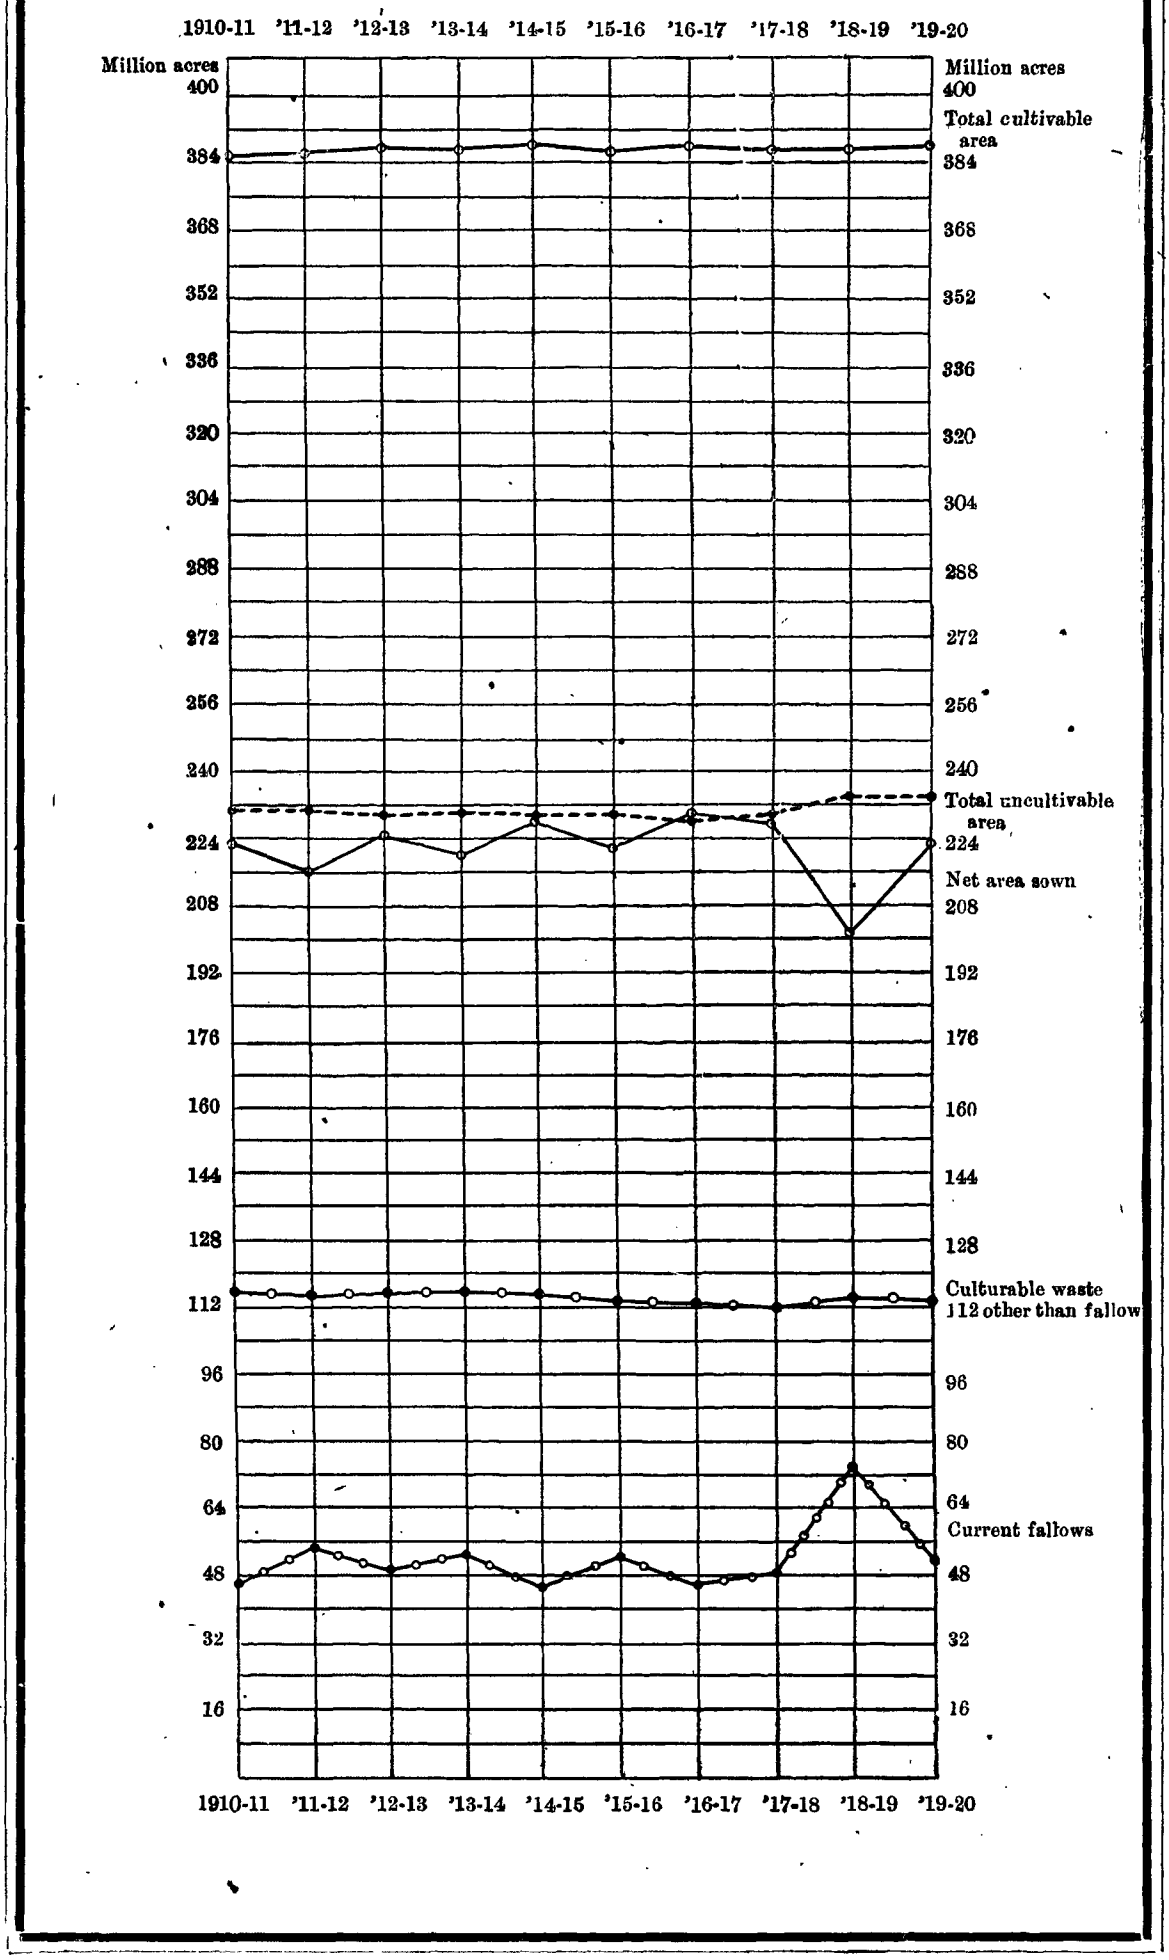


3. Total wheat area, unirrigated wheat area and rainfall in wheat-growing tracts (June to February).



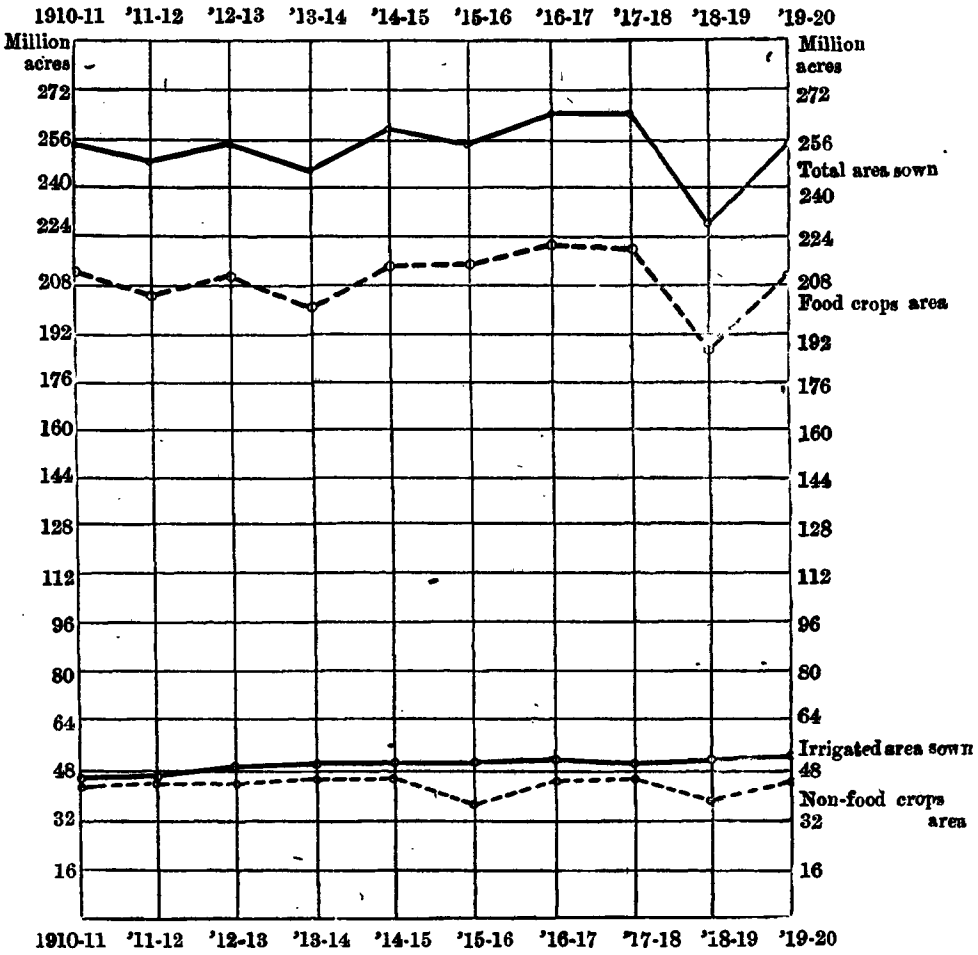
NOTE.—The scale of the curves in Chart No. 3 for "total wheat area" and "unirrigated wheat area" has, in order to effect a better comparison, been made much larger than that used for the curves showing "rainfall."

4. Total cultivable area, total uncultivable area, net area sown, culturable waste other than fallow and current fallows.

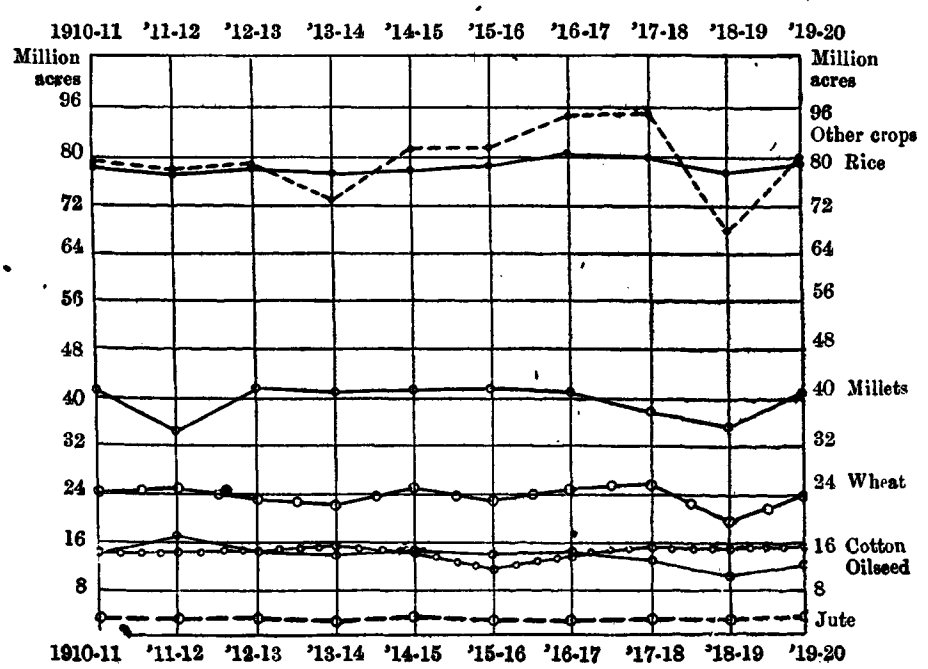


NOTE.– 1. "Total cultivable area" represents the sum of net area sown, culturable waste, and current fallows.
2. "Uncultivable area" includes the area under forest.

5. Total area sown, total area under food crops, total irrigated area sown, and total area under non-food crops.



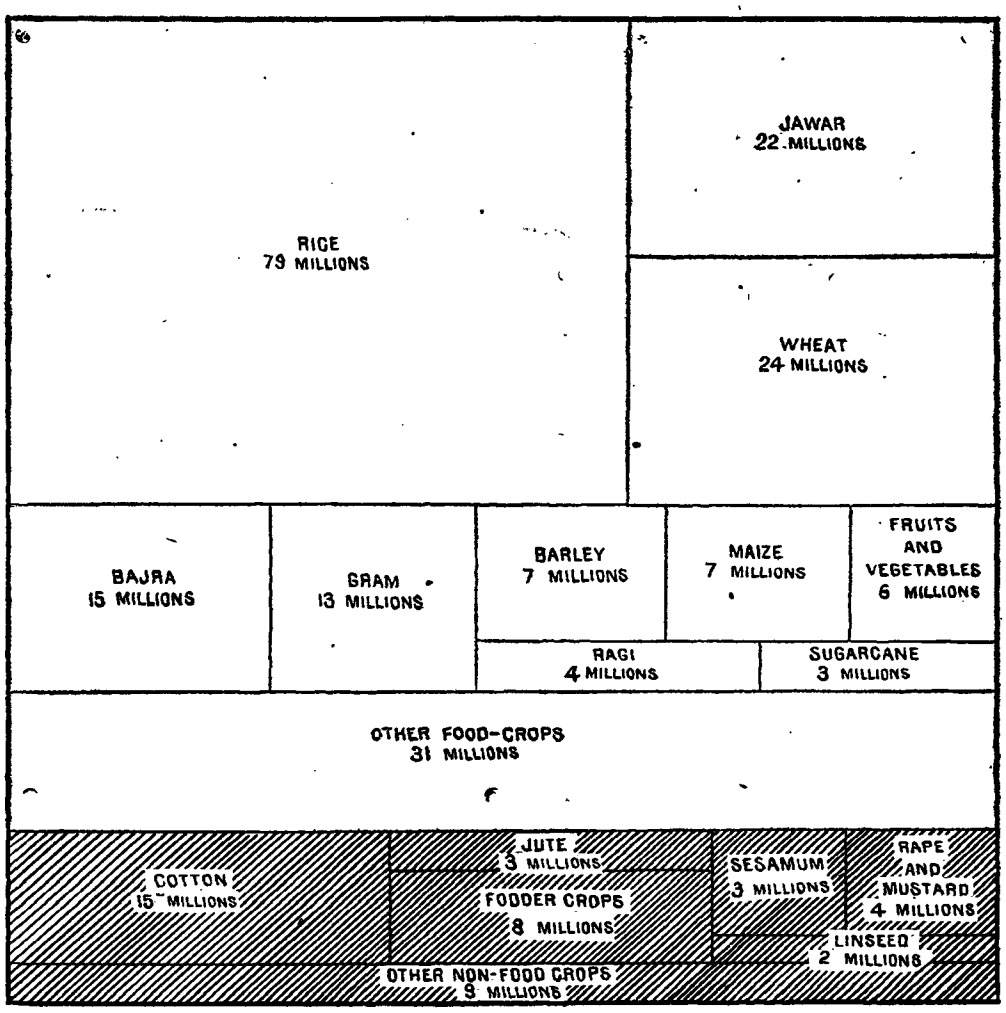
6. Area under rice, wheat, millets, oilseeds, cotton, jute, and other crops.



NOTE.—Millets represent jawar, bajra, and ragi.

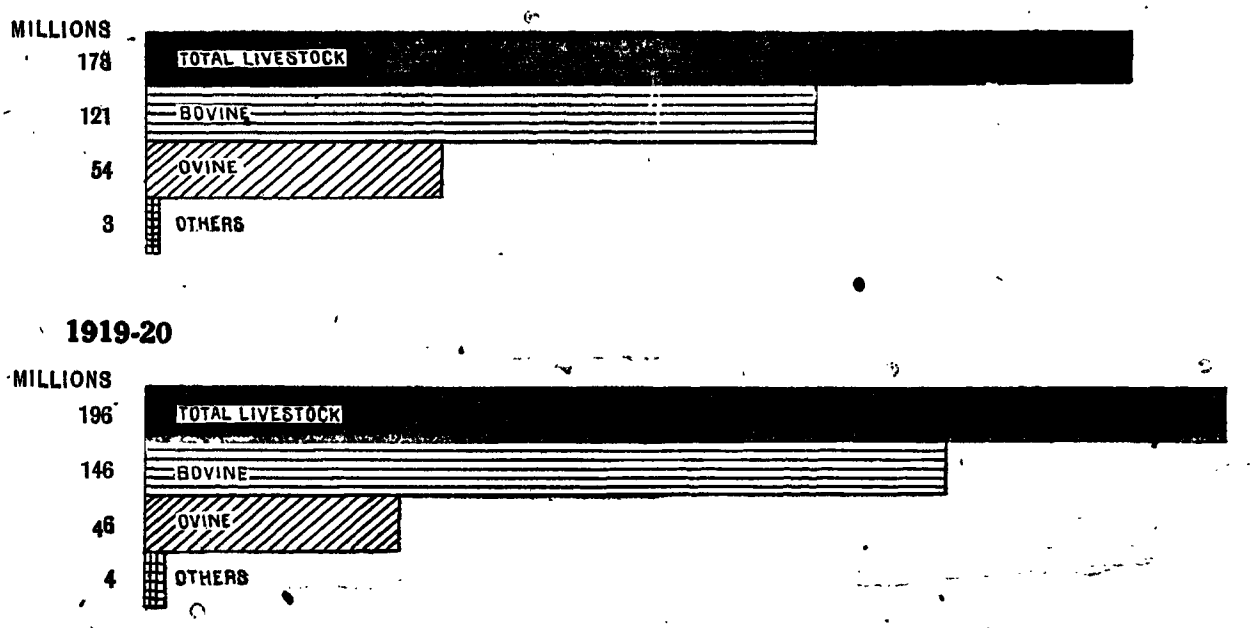
7. Total area sown in 1919-20.

Total area sown	255
Area under food crops (unshaded)	211
Area under non-food crops (shaded)	44



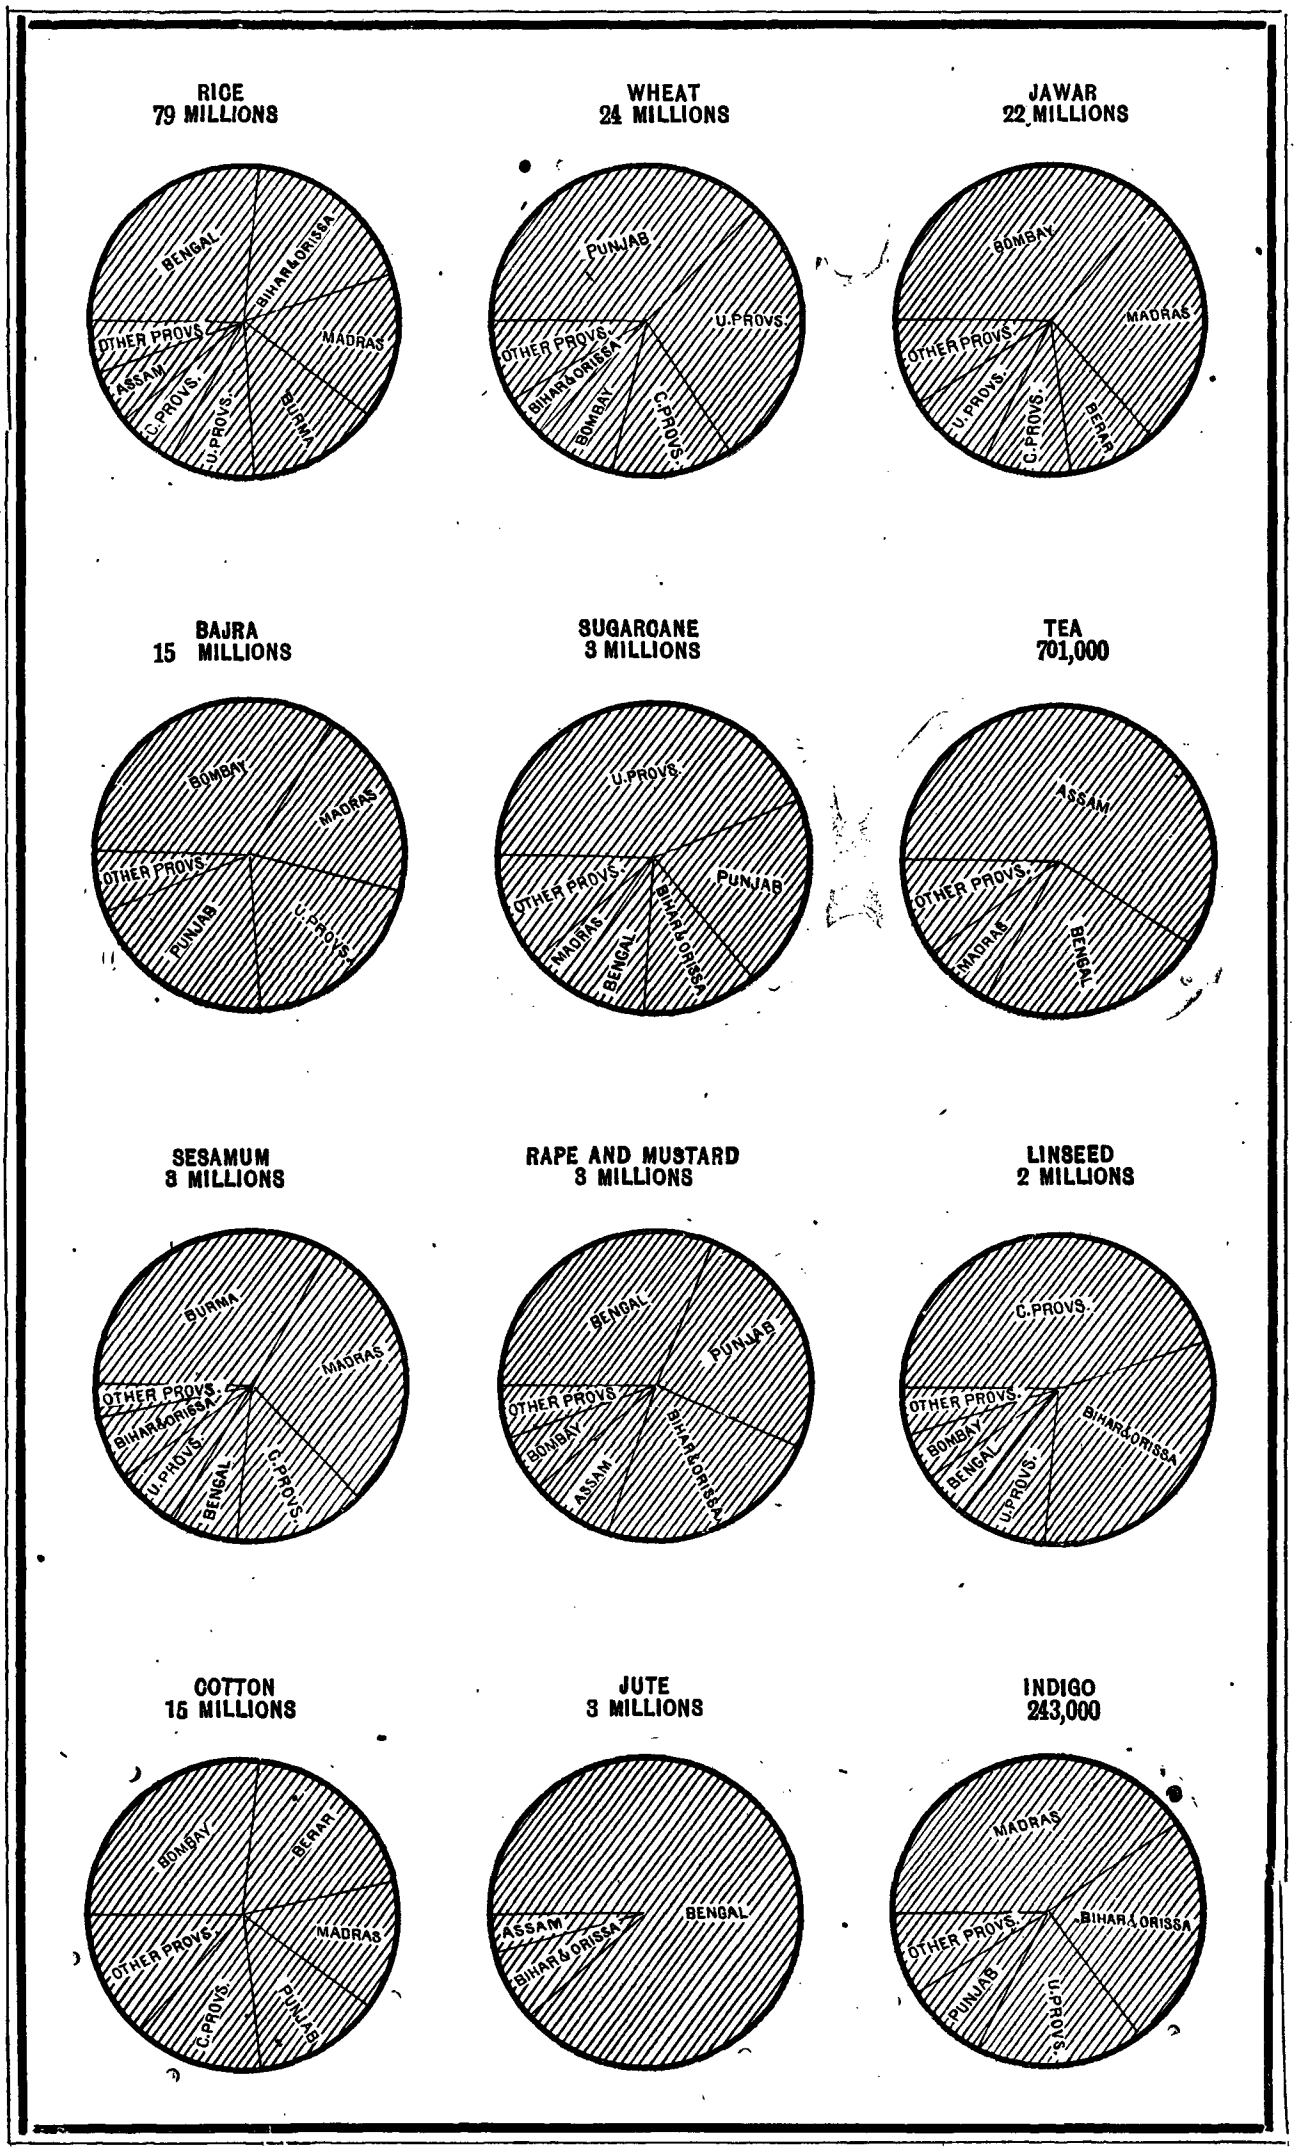
NOTE.—"Other food crops" are minor food-grains, condiments and spices, and miscellaneous food crops.
"Other non-food crops" are oilseeds other than sesamum, linseed, rape and mustard; fibres other than cotton and jute; dyes; drugs and narcotics; and miscellaneous non-food crops.

8. Total livestock, divided between bovine, ovine, and others in 1919-20, as compared with the year 1910-11.



NOTE.—"Bovine" includes bulls and bullocks, cows, buffaloes, calves, and buffalo calves.
"Ovine" includes sheep and goats.
"Others" include horses and ponies, mules, donkeys, and camels.

9. Shares of provinces in the total area (in acres) under principal crops in 1919-20.



NOTE.—In this diagram, the circles for the different crops have no relation to each other; they simply show the relative importance of each province in respect of each crop.

TABLES

Summary Tables of the Agricultural Statistics of British India

No. 1—GENERAL SUMMARY, 1900-01 TO 1919-20

Classification of area (*Thousand acres*)

* Miscellaneous revenue (*a*) Figures not available

† Includes 3,407,181 acres in the districts of Dinajpur, Rangpur, and Pabna, for which details are not available

Column 5.—Where the land revenue includes the Zamindar's share, the net demand is entered, and the table states the payments wholly realised during the year or not, is entered after excluding arrears for past years. Sums remitted on account of unoccupied lands, short provinces where remissions are not granted or are partially granted within the year, no deduction is made on account of remissions. This column revenue from canals in Sind, fluctuating collections (including nazarana), over-collections (Bombay), surplus collections, collections from Governsummary settlement cess; (5) moturpha (house tax) collections; (6) assessment of alienated lands less quit rents; (7) recoveries on account of on collections from Government estates (Bengal); and (11) miscellaneous, comprising receipts on account of Land Registration Fees, receipts (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of Revenue Courts (except in Bengal and Assam), receipts under mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway class C

Column 6.—The population is that of the last general census.

ASSESSMENT ON THE AREA AND POPULATION IN EACH PROVINCE

Total revenue from land per head of population (Columns 5 and 6)	Land revenue assessed on fully assessed area	Incidence of land revenue on fully assessed area per acre (Columns 4 and 8)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (Cols. 8 and 11)	Province, nature of tenure, and year of collection of statistics
		For total area	For cultivated area

† Includes ₹1,518,959 in Dinajpur for which details are not available

* Miscellaneous revenue (a) Figures not available

due by the Zamindars to Government, not those due by raiyats to the Zamindars. The actual realisable demand on account of the year whether crops, etc., are excluded in the case of those provinces where all remissions are granted within the year to which the return relates, but in includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are:—(1) ordinary revenue, comprising fixed collections, ment estates, kyun tax (Burma); (2) sale of Government estates; (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of survey and settlement charge (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, huccoba tax Madras Act, II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, Thathameda tax (Burma), receipts from ruby land, and rents of buildings situated on such lands

Column 8.—As in column 5, but only ordinary land revenue on fully assessed areas is entered

(*a*) Not including the territory of Alsace Lorraine.

(*b*) Excluding the Isle of Man and the Channel Islands

(*c*) Includes the territory of Bessarabia. (*d*) Exclusive of Alsace Lorraine

* Including figures for Indian States, namely, 2,651,000 acres for rice, 6,576,000 acres for wheat, 1,012,000 acres for barley, 1,132,000 acres for maize, 8,099,000 acres for cotton, and 237,000 acres for linseed. The figures for rice, barley, maize and linseed for Indian States are, however, not complete, as returns for those crops are not furnished by a number of States

Note.—The figures for foreign countries have been taken from the Bulletins of Agricultural and Commercial Statistics published by the International Institute of Agriculture Rome

(*a*) Includes Bihar and Orissa and excludes Eastern Bengal
(*b*) Increase due to the adoption of the latest census figures

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding Departments in the Southern Presidencies. The provincial areas in this column exclude Indian States in direct political relations with the Government of India, but include Feudatory or Tributary States politically controlled by Local Governments, with the exception of the Shan States in Burma and the Tribal areas in the North-West Frontier Province

Column 3.—In this column is entered the area of any Feudatory or Tributary States included in column 2

Column 4.—Prior to 1908-09 this column showed the entire area (exclusive of Indian States) for which the statistics required for Tables II, III and IV were not forthcoming in whole or in part. This area comprised chiefly estates held in permanent settlement or on privileged tenure, which were not surveyed or which possessed no agency for the annual collection of agricultural statistics. But arrangements have since been made to prepare statistics, for the whole of this area, based either on regular returns or on estimates as has been found practicable. There is therefore no longer any unreturned area to be shown in this column.

Columns 5 and 6.—Column 5 is a check on the accuracy of column 6. In the latter "village papers" mean "the papers prepared by the village accountants." The village papers do not in several provinces relate to the whole area included in column 5; for instance, the village returns sometimes do not include the forest areas. There are also tracts in many provinces for which no village papers exist and for which estimates have to be made to complete the statistics. In all such cases, column 6 must be taken to be the total area corrected by the village papers in respect of the areas for which such papers exist. The areas of provinces and districts, which are calculated from village papers, are necessarily somewhat different from those given by the Survey Department, (*a*) because, while the survey area of a district or province is calculated in block, the area by village papers represents the added total of field and village areas; and (*b*) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads, is not uniform in the two sets of returns. In provinces where no village papers exist, the figures in column 5 have been repeated in column 6. In that case they represent the area of which the details are stated in columns 2 to 6 of Table II.

Column 2 states the area as ascertained by the provincial Survey Department, supplemented, for tracts which have not come under the operations of that Department, by areas obtained with the computing scale from the Survey of India Atlas sheets of the localities concerned

Columns 5 and 6.—The statistics for the major portion of the zamindari estates and certain raiyatwari and whole inam villages are based on estimates, owing to the absence of adequate agency for the collection of statistics in these tracts. Of the total area (69,759,979 acres) entered in column 6 for 1919-20 (page 21), 66,780,690 acres are based on actual returns and 22,979,289 acres on estimates

Column 2 states the area as returned by the provincial Revenue Survey and Settlement Department, supplemented in the case of Indian States by the returns of the topographical survey

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (48,717,952 acres) entered in columns 5 and 6 for 1919-20 (page 23), 44,571,821 acres are based on actual returns and 4,146,131 acres on estimates

Column 2 states the area as returned by the provincial Revenue Survey and Settlement Department, supplemented in the case of Indian States by the returns of the topographical survey. The revenue survey being incomplete in Sind, the exact area is not known: the column states the area of surveyed tracts *plus* the estimated area of unsurveyed tracts

Columns 5 and 6.—The figures of column 5 are repeated in column 6, because the areas in village papers are derived from the revenue survey records. The figures for all unsurveyed villages are based on estimates. Of the total area (30,141,298 acres) entered in these columns for 1919-20, 30,016,390 acres are based on actual returns and 124,908 acres on estimates

The variations in the areas shown in different years under the same item in the same province or district do not necessarily represent an actual increase or decrease on the area in question. In many cases a revised classification or the correction of a faulty estimate is responsible for the change

Column 2.—"Forests" mean "any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area sown). The forest areas do not agree in most cases with those stated in the reports on the administration of the Forest Department for various reasons, the chief amongst which are these: (1) because the forest Administration Reports and the statements of agricultural statistics relate in many cases to different periods, (2) because the administration reports relate exclusively to forests worked by the Forest Department, while the tables of agricultural statistics exhibit in addition forest areas administered by district officers, and (3) because, on the other hand, certain village lands worked and returned as forests, by the Forest Department are not treated as forests in the returns of agricultural statistics and are therefore excluded from this column.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture.

Column 4 includes groves not classed in the sown area. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column

(*a*) See footnote (*a*) on page 14

See explanations given in the footnotes (page 40)

(*a*) Includes reserved and protected forests only. The management of the latter having been transferred to the revenue authorities, the figures shown in the forest administration report represent the areas of reserved forests, which slightly differ from those adopted for this table because the periods embraced are different

(*b*) Includes unculturable Government waste and unculturable *banés*

(*c*) States the estimated area of culturable Government waste

(*d*) Shows (1) the estimated area of culturable *banés*, and (2) the difference between the net area sown and the gross area of the actual holdings (exclusive of *banés*). It thus includes the unculturable lands within the actual holdings, the area of which cannot be ascertained

Column 2.—Includes the area cultivated within forests. The area cultivated with coffee, tea, and rubber within forests is however excluded from this column and is shown under column 6, since the year 1918-19.

Column 4.—Includes areas occupied by *babul* and casuarina trees when they do not form parts of forest areas. Prior to 1911-12, such areas were classed under "Miscellaneous non-food crops" in Table IV.

Column 5.—Includes all occupied waste, that is to say, waste portions of land for which revenue is paid

Column 6.—Of the total net sown area for 1919-20 (33,065,577 acres) stated in this column (page 47), 27,006,365 acres are based on actual returns, and 6,059,212 acres on estimates

NOTE.—Figures for unsurveyed villages are based on estimates.

Column 2.—Includes land administered by the Forest Department whether formally declared forest under an Act or not, a nd differs from the area stated in the forest reports, because in certain localities, where the settlement is incomplete, the original are as are still returned by the Forest Department, while revised areas are returned in this table; also because the revenue records do not always state the most recent revisions.

Column 3.—Includes all land recorded at the survey and settlement as unculturable, although at times a very small quantity of this land is cultivated.

Column 5.—The maximum period for which land thrown out of cultivation is reckoned as fallow is ten years.

Column 6.—Of the total net sown area (26,847,220 acres) entered in this column for 1919-20 (page 40), 25,569,929 acres are based on actual returns and 1,277,291 acres on estimates.

Column 2.—Includes forest areas administered by the district officers of some districts. Hence the figures do not agree with those in the forest administration report which excludes these areas. This column also includes the Siwalik Range in the Dehra-Dun district.

Column 5.—The maximum period for which land left untilled is reckoned as fallow is three years

Column 6.—Of the total net sown area (26,390,300 acres, page 53) entered in this column for 1919-20 for the province of Agra, 25,786,300 acres are based on actual returns and 604,000 acres on estimates.

Columns 2-6.—See explanations given as footnote on page 24 for Saharanpur and Muzaffarnagar

(a) Good rainfall

1919-20	47,743	150,025	407,861	76,473	1,440,558	2,122,660

Column 2.—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality.

Column 3.—This column includes 23,680 acres of river beds in Gurgaon, 15,360 acres of mountain tracts in Simla, and 3,896,960 acres of mountain tracts in Kangra. These areas are not accounted for in the village papers, and the figures are based more or less on estimates.

Column 4.—Includes large areas of Government waste not allotted for cultivation.

Column 5.—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In certain districts in the south-west of the province, however, the classification is amended annually.

See explanations given in the footnotes (page 57)

(*a*) See footnote (*d*) on page 30

(*b*) The increase in current fallows and the decrease in net area cropped are due to the insufficiency of the monsoon and autumn rainfall, and to the prevalence of influenza epidemic.

1919-20	1,825,280	2,837,148	1,982,034	12,938	86,325	6,743,725

NOTE.—For tracts outside the surveyed area the figures are based on estimates framed in the best manner possible.

Column 2.—The area entered in this column is that given in the Forest Administration Report, and includes reserved forests and fuel reserves. Estimates of the forest areas in certain hill tracts are also included. The forest areas in the South Shan States, which are included in the Forest Administration Report, are excluded from this table, no returns of agricultural statistics being prepared for those States

Column 3.—In settled tracts the unculturable area is taken from settlement registers, but in unsettled tracts it is obtained from the best source available.

Column 4.—Includes land thrown out of cultivation and abandoned. Groves, not classed in the sown area, and bamboos when not grown in forest areas, are also included in this column.

Column 5.—Includes only such land left uncultivated as is actually in the possession of cultivators. In Lower Burma (excluding the Thayetmyo district) such lands are assessed at privileged rates, but in Upper Burma and in Thayetmyo no assessment is levied on land left uncultivated.

Column 2.—Shows the areas administered by the Forest Department; but the figures differ from those in the Forest Administration report, because the actual area of the forest is not known owing to incomplete survey, also because excisions made have not yet been taken note of in the forest registers, and because in many cases raiyatwari villages settled, thekadari villages surveyed, clearance leased villages earned in proprietary rights, and villages purchased under the waste-land sale rules, have not as yet been finally disforested and struck off the forest registers. In the case of the Chanda, Drug, Raipur, and Bilaspur districts this column also includes all areas in the zamindars' estates which fall outside the surveyed villages of those estates. These areas are almost wholly under forest and include only a negligible proportion of sparse and shifting cultivation.

Column 3.—States areas covered with water, hill, or rock, and land occupied by buildings and roads.

Column 4.—States (1) the waste area within holdings (including fallows of more than three years), (2) land under tree forest which is not administered under any Act dealing with forests, (3) land under scrub jungle or grass, and (4) groves not included in holdings.

Column 5.—Land which has been fallow for not more than three years is reckoned as current fallow.

1919-20	1,904	1,276,000	2,672,926	568,900	95,550	4,625,280
Total						
1918-19	3,460,633	5,510,500	13,978,881	2,700,444	5,680,076	31,330,534
1919-20	3,518,960	5,510,500	13,762,158	2,898,300	5,640,616	31,330,534

Column 2—The figures represent reserved forests, but exclude the areas of forest villages within the reserves which are entered under the appropriate heads of this table

Columns 3 and 4—The figures for unsurveyed tracts in Cachar and for permanently settled tracts in Sylhet are based on estimates. In the Assam Valley unsurveyed waste is divided into culturable and unculturable on the assumption that their proportion in the surveyed area holds good

Column 5—Includes generally all lands which are thrown out of cultivation or not cultivated for three years, but which remain in the occupation of leaseholders. Figures for the hills districts except the plains portion of the Garo Hills and Sadiya Frontier Tract are rough estimates

Column 6—The figures are obtained from the abstract crop statement for districts which have been cadastrally surveyed. The figures for the permanently settled estates of Sylhet and Goalpara and for the hill districts and the Sadiya Frontier Tract are estimates

*The forest areas exclude the forest villages within the reserves

Table II—*continued*

No. 39—CLASSIFICATION OF THE AREA (IN ACRES) OF EACH DISTRICT IN THE NORTH-WEST FRONTIER PROVINCE

Column 2—Includes all lands specially allotted to forest growth under the control of Government or any Local Board or Municipality, and protected village waste in Hazára administered by the district officer and other waste lands in Peshawar

Column 4—Includes large areas of Government waste not allotted for cultivation

Column 5—The maximum period for which land is reckoned as fallow is two years; but, as a change in classification is not generally made until the year for quadrennial statements comes round, the old classification may be retained from one to three years longer than the prescribed period. In Dera Ismail Khan classification is amended according to area of each class of soil actually cultivated each year

Columns 8 to 19 state the gross area of irrigated crops, areas sown more than once being counted as separate areas for each crop. The excess in some cases of the total area of crops irrigated (column 19) over the total area irrigated (column 7) is thus due to the inclusion in column 19 of the area irrigated at both harvests

(a) Included in column 14 (b) Included in column 16 (c) Included in column 18

(d) Includes 26,777 acres in Purnea for which details are not available

(e) Includes 1,700 acres in Rajshahi for which details are not available

Column 4.—The term "tanks" refers to a particular kind of dammed reservoirs. These reservoirs are formed by throwing dams across the valleys of small rivulets and streams to intercept water during the rains

Column 7.—Of the total area irrigated in 1919-20 (9,711,621 acres, page 84) 7,767,838 acres are based on actual returns and 1,943,783 acres on estimates.

(a) Included in column 14.

Columns 2 to 6.—Government canals include private canals except in Dehra-Dun, Naini Tal, Budaun, and Basti for which districts separate figures for private canals have been obtained. There are very few private canals in the United Provinces.

Column 7.—Of the total area irrigated (8,186, 174 acres page 96) entered in this column for 1919-20 for the Province of Agra 8,150,274 acres are based on actual return and 35,900 acres on estimates

(a) Included in col. 14

(b) See explanation given as foot-note on page 24

Note—This table shows the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each and the areas so estimated are separately returned. The estimate is made by the village accountant or is subsequently determined on formulæ prescribed by the provincial authorities.

The variations in the areas shown in different years under the same crop in the same district do not in all cases represent an actual increase or decrease in the area under that crop. In certain cases a revised classification or the correction of a faulty estimate is responsible for the change.

Column 10 (other food-grains including pulses).—Arhar (pigeon pea), barbati, lobia or chowli (asparagus), mung (green gram), kulthi (horse gram), urad (black gram), field gram, cheick (job's tear), lentils, cheena (common millet), kangni (Italian millet), kodo or varagu, kutki (little millet), kuhudi, peas, pigeon or bottle grass, swank or shama, chickling vetch, buck wheat, wudalu or barti.

(*a*) See footnote (*a*) on page 14.

Column 28 (other dyes and tanning materials).—Arnatto, chayroot, divi-divi, henna, madder, morinda, safflower, saffron.

Column 31.—In certain cases, notably in Madras, the areas stated under "Tea" differ from those given in the special report on tea production published separately. The principal reason is that the special report is prepared from returns received from managers and owners of estates; and these returns, especially in Southern India, are in many cases inaccurate and defective. Minor discrepancies are also due to the fact that the figures in this table deal with the agricultural year; while those in the special report deal with the calendar year.

Column 35 (other drugs and narcotics).—Aloes, areca nut, sweet basil, betel-vine, country borage, bogoda brinjal or nela mulaka dhatura, purple flea-bane, isfagul, kclinji or vempali, senna, soap nut, sweet flag.

(a) Increase due to a revised classification of crops.

Fodder crops	Fruits and vegetables including root crops	Miscellaneous crops: Food	Miscellaneous crops: Non-food	Total area sown during the year	Area sown more than once	Net area sown during the year	Province

Column 37 (*fodder crops*).—Carob or locust-tree, fodder cholam, lucerne, guinea grass, oats, field vetch.

Column 38 (*fruits and vegetables including root crops*).—Agasi, wood apple, cashew nut, custard apple, rose apple, artichoke, arum, beans, beetroot, bilimbi, bimb, brinjal, cabbage, carrot, cassava, cauliflower, celery, chicory, citron, cocoanut, cress, cucumber drumsticks or horse radish, elephantfoot, fig, garmal cape gooseberry, country star gooseberry, goosefoot, gourd, gourd melon, grape, guava, gumberry, edible hibiscus, jack fruit, jujube, kanda, kankrol, kamranga, karola, kavali, kavathu, koorka, lettuce, mango, mangosteen, mankachu, marians, Indian medlar, melon, oranges, papay, parvar or patol, peach, pineapple, plantain, black plum, ho plum, pomegranate, pomelo, ponnagantikura, potato, puliyavara, sweet potato, pumpkin, radish, raspberry, rosello, sankalu, sapodilla sebestan, sorrell, water caltrop, spinach, strawberry, manila tamarind, tomato, turnip, uchhe, yams, elephant yams.

Column 39 (*miscellaneous food crops*) —Amaranths, arrowroot, kirni, mahua.

Column 40 (*miscellaneous non-food crops*).— Chrysanthemum, dani (*nipa fruticans*), dhaincha (*sesbania aculeata*), flowers, margosa or neem tree, mulberry, chaplash, thetké (grass).

(a) Variations due to a revised classification of crops.

(b) Includes 342,173 acres in Nainital and Almora for which details of crops are not available.

(c) Increase in 1915-16 is due to inclusion of area under grass and babul previously shown as "fallow" in Table II.

(d) Includes 342,192 acres in Almora and Naini Tal, for which details are not available.

(e) Includes 9441 acres in North Arcot for which details of crops are not available.

(f) Includes 342, 392 acres in Almora and Nainital for which details are not available.

Table IV—*continued*

Column 37 (fodder crops).—States the areas sown with grass and crops solely for fodder. Lands left waste for grazing and on which grass grows spontaneously are not included in this column. It shows crops that in normal times are used only as fodder.

(a) Includes 9,441 acres for which details of crops are not available

NOTE—The area sown with unimportant mixed crops, for which no separate heading is provided in the provincial crop statements is assigned to the principal crop by the village accountant. The areas of important mixed crops, namely, wheat and barley, wheat and gram, barley and gram, jawar and arhar, bajra and arhar, and cotton and arhar, for which separate headings are provided in the crop statements, are distributed in accordance with prescribed formulæ and entered under the crops of which they are compose l.

Columns 3, 4, 5, 6, 9, and 10.—The whole of the area of the land planted with food-grains wheat, barley, etc., mixed with oilseeds is shown under food-grains in this table. The area shown under food-grains which was really planted with oilseeds (as a mixed crop) is roughly estimated to have been 3,965,000 acres in the whole of the United Provinces of Agra and Oudh in 1919-20

(*a*) Increase due to favourable season

(*b*) See explanations given as footnotes on page 24 for Saharanpur and Muzaffarnagar

Columns 12, 13, and 14.—The figures shown in these columns represent areas under "pure" oilseeds, *i.e.*, oilseeds sown unmixed with any other crop. Besides these, the oilseeds are thinly sown in combination with wheat, barley, gram, and other crops. If the areas occupied by the scattered plants were added up, it is estimated very roughly that they would amount in 1919-20 (for the whole of the United Provinces of Agra and Oudh) to 560,000 acres of linseed, 975,000 acres of sesamum, and 2,430,000 acres of rapeseed

NOTE—The information is received from district officers who in their turn obtain figures from the district Land Records staffs in the case of the temporarily-settled areas and from Zamindars in the case of the permanently-settled portion of Goalpara, with the exception in the latter district of jute, the estimate for which is compiled by the village Chaukidari Panchayats. In the permanently-settled part of Sylhet the figures for jute are those submitted after actual inspection by the village Chaukidari Panchayats. The figures for tea are reported by the garden managers, while for all other crops estimates have been framed by the district officers from the actual areas in the surveyed parts, applied to the rest of the districts. The figures for the hill districts and the Sadiya Frontier Tract are rough estimates which are revised quinquennially except for cotton for the hill districts and sugarcane and rape and mustard for the Sadiya Frontier Tract for which estimates have to be made annually for the forecasts of these crops.

Note.—Live-stock in cities and cantonments are included wherever it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young are treated as "young stock"

(*a*) Figures not available
(*b*) Figures for 1910-11, which are based on estimates, include Bihar and Orissa but exclude Eastern Bengal
(*c*) Included under "young stock (calves)"
(*d*) Includes bulls, cows and young stock (calves) for the Northern Shan States
(*e*) Includes cow buffaloes and young stock (buffalo calves) for the Northern Shan States

(*a*) An annual census is taken on the 15th March in Manpur

(*b*) The figures in columns 9 to 18 exclude Bengal (see Table V, No. 74)

(*c*) Statistics based on a census taken in 1913-14. Figures for columns 8, 17 and 18 were revised in 1914-15.

(*d*) Excluding Eastern Bengal

(*e*) Included under "young stock (calves)"

(*f*) In Coorg a census is taken every five years. The last census was taken in March 1920 by the circle shanbags, and the particulars entered in a register maintained under Rule 73 of the Rules framed under the Coorg Land and Revenue Regulation, 1899. Animals in Municipal Towns are included.

Goats	Horses and Ponies			Mules	Donkeys	Camels	Ploughs	Carts	Province and year of enumeration

Note.—Figures for 1912-13 are based on a cattle census taken in 1912; the figures for most of the districts, in columns 2 to 4 have, however, subsequently been revised. The census did not take into account the animals named in columns 9 to 16 nor ploughs and carts (columns 17 and 18.). Figures for 1919-20 under all the heads are based on a cattle census taken in 1920.

(a) Included under "Young stock (calves)"

*Revised in 1918-19.

(a) Included under "Young stock (calves)"

NOTE.—The last quinquenial census was taken in October 1919, in all villages, Government Inam, and Zamindari, and stock in cities, cantonments, and that employed in Government Departments and Municipalities were included. Oxen, buffaloes, horses and ponies not old enough for work or breeding were treated as young stock.

Note.—The table is prepared quinquennially on a census in each district taken every five years. The census which was due in 1913-14 but could not be taken in that year owing to famine in some of the districts, was taken in 1914-15 in all the districts, except Almora, Garhwal, and the hill tracts of Naini Tal. In these latter districts the census was taken in 1912. The last census was taken in 1920, except in Almora, Garhwal, and the hill tracts of Naini Tal

Note.—The figures for 1913-14 shown in the table for all the districts of the Province, except Hazaribagh, Ranchi, Palamau, and Manbhum, were arrived at by a census of live-stock held in these districts towards the end of 1913. For Palamau, Hazaribagh, and Ranchi the figures are based on information collected during survey operations; while the figures for Manbhum are based on police reports. Corrections were made in the figures for Hazaribagh in 1915-16 and for Palamau in 1917-18
The figures for 1919-20 were ascertained by a census held in January 1920

Note.—Annual returns of agricultural stock are prepared by village headmen, revenue surveyors, and *taikthuqyis*, the enumeration taking place from end of February to middle of March in each year. The figures include all animals in towns and also those employed in each district by Government departments, such as transport, military, police, and by municipalities

(*a*) Estimated figures
(*b*) Includes cows
(*c*) Includes cow buffaloes and young stock (buffalo calves)
(*d*) Included under "Young stock (calves)"
(*e*) Includes cows and young stock (calves)

Note.—The figures are collected annually, between the 1st January and the 15th March, by the patwaris in each village for the areas in their respective charges. The total figure is recorded in the tahsil by the kanungo in a village register. The patwari takes into account all animals including those temporarily sent elsewhere (*e.g.*, for grazing), which belong to residents of the village and excludes animals which are temporarily in the village for grazing or other purposes, but do not belong to residents. Stock in cities, large towns, cantonments, and in forest villages are included.

Note.– A census is made annually by the village officers. All cattle belonging to one owner are entered against his name, even though the animals are temporarily absent from the village. When an owner cultivates land in more than one village, the actual number in each particular village on the night of enumeration is entered in the statement for that village. Cattle belonging to other villages, but temporarily in the village for grazing, are not entered in the statement for that village.

Note.—The varieties of tenure are included as far as possible, under one or other of the following heads, namely, (1) raiyatwari, (2) zamindari and village communities (temporarily settled), and (3) zamindari (permanently settled). Areas under forests are included under the prevailing tenure of the province. In the Central Provinces and Berar, however, areas under Government forests are shown separately.

Column 3.—Areas held revenue-free or at privileged rates are deducted, but the deduction need not be made where such areas are in any case less than an entire village and where there is any difficulty in estimating the corresponding deduction to be made in the population (*column* 11). In Madras, Bombay, and Berar all land on which a full assessment has not been leviable during the year (for instance, assessed unoccupied land) is classed for the purposes of this column as "area not fully assessed." Area should not be entered under this head merely because the assessment due from them has been suspended or remitted on account of short crops or for other special reasons.

Column 4.—This head is sub-divided into (*a*) total fully assessed area for which returns are available, and (*b*) area cultivated out of the area given in head (*a*). The latter head should be equal to the former after deducting current fallows and fully assessed waste, and should be either equal to or less than the net sown area as shown in column 6 of Table II.

(§) The land revenue assessment necessarily differs from the land revenue collections which include collections on account of former balances and exclude so much of the assessment as has not been collected during the year.

* No details

† Includes 1,360,300 acres (in Dinajpur) for which details are not available

‡ Table made quinquennial after 1911-12

¶ Increase due to inclusion of certain Zamindari villages which were formerly included under Raiyatwari

(a) Excludes Bihar and Orissa districts constituted into a separate province

(b) Includes 3,407,181 acres in Dinajpur, Rangpur, and Pabna, for which details are not available

Column 5.—Where the land revenue includes the zamindar's share, the net demand is entered, and the table states the payments due by the zamindars to Government, and not those due by raiyats to the zamindars. The actual realisable demand on account of the year is entered after excluding arrears for past years. This column includes all the heads classed as "Land Revenue" in the Civil Accounts. The heads are:—(1) ordinary revenue comprising fixed collections, revenue from canals in Sind, fluctuating collections (including nazarana), over collections (Bombay), surplus collections, collections from Government estates, kyun tax (Burma); (2) sale of Government estates; (3) sale proceeds of waste lands, and redemption of land tax; (4) redemption of summary settlement cess; (5) moturpha (house tax) collections; (6) assessment of alienated lands less quit rent; (7) recoveries on account of survey and settlement charges (Bengal); (8) rents, etc., of fisheries; (9) receipts for the improvement of Government estates; (10) 12 per cent on collections from Government estates (Bengal); and (11) miscellaneous, comprising receipts on account of land registration fees, receipts from quarries and minor mineral products in forests and lands not under the management of the Forest Department, water mills rent, hucooba tax (Sind), malikana or allowances to excluded proprietors, fines and forfeitures of revenue Courts (except in Bengal and Assam), receipts under Madras Act II of 1864, capitation tax (Burma), petroleum well revenue, jade and amber revenue, thathameda tax (Burma), receipts from ruby mines (Burma), recoveries in India of law charges in England on account of appeals from India, miscellaneous receipts, rents of railway class C land and rents of buildings situated on such lands

Column 6.—The population is that of the last general census

Entry 8.—As in entry 5, but only ordinary land revenue on fully assessed areas is entered

Entry 9.—To be entry 8, divided by entry 4 (*a*)

Entry 10.—To be entry 8, divided by entry 4 (*b*)

* No details

† Includes ₹15,19,026 for Dinajpur for which details are not available

‡ Includes ₹ 15,18,959 for Dinajpur for which details are not available

The table is prepared quinquennially, and the figures were last collected in 1917-18

Column 1.—The following classification of estates has been adopted:—

(1) *Zamindari* (*permanently settled*) including estates managed for proprietors by Government.

(2) *Zamindari* (*temporarily settled*) comprising (*a*) all temporarily settled estates, namely, those settled for periods with proprietors and estates leased to farmers for periods; and (*b*) all estates owned by Government as proprietor.

Column 4 (*b*) includes in certain cases fully assessed current fallows.

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts.

Land revenue assessed on fully assessed area [col. 4(a)].	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

The table is prepared quinquennially. The figures were last collected in 1918-19

Column 3 (a).—In the case of raiyatwari tracts this column states the area of unoccupied assessed lands, of all unassessed porambokes, or minor inam lands in Government villages held rent-free or subject to quit-rent, and of forest lands, excluding portions of the first mentioned two classes occupied under "miscellaneous;" and in the case of zamindari tracts the areas of hills, porambokes, and minor ináms are entered. The entire area of whole inám villages is deducted from this column

Column 3 (b)—Raiyatwari; includes the area of certain Agency tracts in Ganjam, Vizagapatam, and Godavari, and also the difference between the area by professional survey and the area according to village papers

Column 4 (a).—The figures for the raiyatwari tenures in this column are taken from village papers which differ in some cases from the resultant of preceding columns

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure	
		For total area	For cultivated area			Number of towns	Aggregate population

Column 4 (a).—Raiyatwari; states the total occupied area as stated in village papers

Column 4 (b).—For certain districts areas actually cultivated and for certain others estimates, or actuals supplemented by estimates, are shown in this column

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

Column 8.—Shows only the "ordinary revenue," as defined in the Civil Accounts, on area fully assessed

Column 10.—The cultivated area is, in the case of raiyatwari and zamindari lands, the net cropped area out of the area given in column 4 (a)

Column 11 states the entire population of raiyatwari and zamindari villages, respectively

Table VI—*continued.*

No. 92—INCIDENCE OF THE LAND REVENUE ASSESSMENT ON THE AREA AND POPULATION OF EACH DISTRICT IN BOMBAY IN 1915-16

District and nature of tenure		Total area (in acres) by survey, less feudatories [col. 2 of table I minus col. 3 of same table]	Deduct		Balance, that is, fully assessed area (in acres) for which figures are available		Total revenue from land (excluding cesses) of district (col. 2)	Population of district (col. 2)
			Area (in acres) not fully assessed	Area (in acres) for which the figures required for this table are not available	Total	Cultivated

This return is prepared quinquennially

Column 1.—Lands held under special tenures, such as talukdari, mehwasi, udhad-jamabandi narvadari, and bhagdari in Gujarat and khoti and izafat in the Konkan, are classed as "zamindari and village communities (temporarily settled)"

Column 3 (*a*) includes alienated area and the area held free of revenue or the revenue of which has been reduced by special agreement, and also the fully assessed unoccupied area

Column 3 (*b*) includes alienated cultivated and zamindari cultivated (estimated) land

Column 4 includes land under temporary cultivation, also pót ináms paying full assessment

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts. On the average of the last five years about 2·5 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Column 10.—The incidence is calculated from the occupied area, which, in the Presidency proper, is treated as the cultivated area for the purposes of this table, and the assessment on that area

Column 11 includes population of pôt ináms and the like scattered areas, which cannot be distinguished from the population of the fully assessed area

Column 12.—The incidence is based on the figures given in column 11 and those in column 8, *plus* the amount of full assessment on privileged lands held in fully assessed villages at less than that assessment

Table VI—*continued*

The table is prepared quinquennially, and the figures were last collected in 1916-17

Columns 3 (*a*) *and 3* (*b*) exclude small revenue-free plots, for which details are not forthcoming

Column 5—states (1) "ordinary revenue," comprising (*a*) fixed collections (including land revenue on account of resumed Gorait Jagirs), (*b*) fluctuating collection, (*c*) surplus collections, (*d*) collections from Government estates (including collections from Dudhi, Tarai, and Bhabar Estates, and receipt from Forest Estates); (2) sale of Government estates; (3) sale-proceeds of waste lands and redemption of land tax, (4) miscellaneous comprising (*a*) receipt from quarries and mineral products in forest and land not under the management of the Forest Department, (*b*) water mills rent, (*c*) malikanas or allowance to excluded proprietors, (*d*) fines and forfeitures of Revenue courts, (*e*) recoveries in India of law charges in England on account of appeals from India, (*f*) miscellaneous receipts, (i) patwari miscellaneous receipts (Revenue Record Room), (ii) mutation fees, (iii) mutation fines, (iv) sale of waste paper, (v) Partition fees, (*g*) Rents of Railway class "C" land and rents of building situated on such lands. On the average of the last five years about 1·68 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Column 6.—The total population of the province includes the population of the Benares State

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure	
		For total area	For cultivated area			Number of towns	Aggregate population

Note.—No figures have been entered in columns 8 to 12 opposite "Lucknow, permanently settled," (page 297) as no portion of the permanently settled area has been fully assessed to land revenue

Column 11 includes population of revenue-free lands when the area of such lands is less than an entire village. The inclusion does not materially affect the incidence entered in column 12

Columns 13 and 14.—The figures are taken from the Census Reports of 1911

	GRAND TOTAL	1,770,921	154,321	...	1,616,600	310,441	3,61,788	501,395

Note.—The table is prepared quinquennially, and the figures were last collected in 1915-16, but some of the figures were revised in 1918-19 and also in 1919-20. The tenure in Ajmer-Merwara is all zamindari, and includes village communities in the case of temporarily settled areas

Column 1.—The khalsa area has been classed as "Zamindari and village communities (temporarily settled)" and the jagir and istamrári areas as "Zamindari (permanently settled)"

Column 4 includes in the case of the khalsa villages the assessed cultivated area, including assessed fallows

Column 5 states ordinary and miscellaneous land revenue appearing in the Civil Accounts

† Included under Ajmer

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4 (*a*)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

The table is prepared quinquennially, and the figures were last collected in 1917

Column 1.—The following classification of estates has been adopted:—

(1) *Zamindari (permanently settled)* including estates managed for proprietors by Government;

(2) *Zamindari (temporarily settled)* comprising (*a*) all temporarily settled estates, namely, those settled for periods with proprietors, and estates leased to farmers for periods and (*b*) all estates owned by Government as proprietor

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts. On the average of the last five years about 0·16 per cent of the total revenue entered in this column was remitted on account of unoccupied lands, short crops, etc.

Land revenue assessed on fully assessed area [col. 4 (a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (columns 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure	
	For total area	For cultivated area			Number of towns	Aggregate population

Note.—For tracts outside the surveyed area the figures are mostly based on estimates framed in the best manner possible

Column 1.—No areas are classed as zamindari, as no system of communal assessment prevails

Column 3 (a) shows grants under Appendices I and II of the Rules under the Upper Burma Land and Revenue Regulation

Column 3 (b) includes non-State lands in districts where no land revenue rates are yet imposed and where the *thathameda* rates have not yet been adjusted

Column 4 (a) shows figures of State and non-State lands assessed to land revenue, including current fallows which are not assessed to land revenue. This column also includes the areas of waste land grants of which the rates have been fixed in perpetuity

Column 5 states ordinary land revenue *thathameda*, water rate, rents of fisheries, and items under "Miscellaneous Land Revenue," appearing in the Civil Accounts.

Total revenue from land per head of population (cols. 5 and 6)	Land revenue assessed on fully assessed area [col. 4(a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure

Column 1—Raiyatwari includes, besides raiyatwari tenures, all unsettled Government waste and forest lands and areas in which house-tax or poll-tax is levied; it also includes certain temporarily settled estates in Sylhet which were formerly (before 1902-03) included under Zamindari (temporarily settled). *Zamindari (temporarily settled)* includes, besides temporarily settled Zamindari estates, fee-simple grants, wholly or partially revenue free tenures, and grants under progressive assessment

Column 5 includes all the items falling under the head "Land Revenue" in the Civil Accounts

Land revenue assessed on fully assessed area [col. 4(a)]	Incidence per acre of land revenue (col. 8) on fully assessed area (col. 4)		Population of fully assessed area	Land revenue assessment per head of population of fully assessed area (cols. 8 and 11)	Towns of over 10,000 inhabitants		District and nature of tenure	
	For total area	For cultivated area			Number of towns	Aggregate population

APPENDICES

APPENDIX A

THE AVERAGE YIELD PER ACRE OF PRINCIPAL CROPS IN INDIA

A provisional return of the yield of principal crops cultivated in India was first compiled in 1892, from various statistical publications available at the time, such as agricultural and settlement reports, crop forecasts, gazetteers, replies to the enquiries of the Famine Commission, etc. To provide for the periodical revision of the estimates a system of experimental crop cuttings was prescribed by the Government of India, the results of which are reported by Local Governments and Administrations at the close of each quinquennium. The returns for the quinquennium ended 31st March 1917 have been received and scrutinised. These outturns per acre are of extreme importance since these will generally be used during the present quinquennium (*i.e.*, until 31st March 1922) in estimating the production of crops, for which forecasts are prepared.

2. The estimates are prepared in the following way. The estimate given is the average outturn on average soil in a year of average character, as deduced from the information obtained from experiments made during the period under review. When, therefore, this average is multiplied by the average area sown, it is believed to give as near an approximation as possible to the outturn of the crop in an *average* year. The Department of Agriculture or Land Records of each province has at its disposal provisional standard estimates of the average yield of land of average quality (usually under the two major heads of irrigated and unirrigated land) for the several crops in each district. The object of the experiments or investigations annually made is to test the accuracy of these estimates, and to enable the head of the Department in each province to revise his provincial estimates when necessary. Should it happen that the period has been one of unfavourable conditions or of exceptionally favourable conditions, which have affected the experiments reported, this would not necessarily involve the reduction or increase of the standard estimates for the district or for the province, unless there were other reasons for believing that, as estimates of average yield in an average year, they had been pitched too high or too low.

3. In 1913, on an examination of the returns of the quinquennium ending 1911-12, it was recognised that the results of experiments as conducted by the district revenue staff were generally unreliable. A change was accordingly made in the system. In 1915 the Government of India, in order to improve the returns, issued instructions to employ, as far as possible, the expert officers of the provincial Agricultural Department, for carrying out experiments on a well-ordered plan in each agricultural tract, and for the investigation of average crop outturns in the various provinces. It appears from the provincial reports that during the quinquennium under review experiments were regularly conducted by officers of the Agricultural Department in Madras, Bombay, and the United Provinces. In Bihar and Orissa crop tests by officers of the Agricultural Department were carried out on a small scale (as an experimental measure only) in a few districts. In Bengal the work was transferred from the district staff to the Agricultural Department, but owing to a reduction in the staff of the Department in consequence of financial stringency, the old system had to be reverted to. In the Punjab officers of the Agricultural Department were consulted in revising the standards, and it is stated that an improved system of conducting experiments has come into force from 1917. In Burma also new rules have been issued entrusting supervision of the experiments very largely to the Agricultural Department with effect from 1917-18. In Assam experiments were conducted according to revised rules framed in 1912 and slightly modified in 1915. In Mysore a system of checking the estimates by the results of experiments conducted by the Agricultural Department is, it is understood, to be introduced during the next quinquennium. No change in the system appears to have been made or contemplated in the remaining provinces.

4. It will thus be seen that in the majority of provinces, the orders of 1915 could not be fully carried out in the quinquennium under review. As a result of the experiments that were made, whether under the old or the new system, considerable changes have been made in the averages previously adopted, except in Bombay, Bihar and Orissa, and the Central Provinces and Berar. The changes

are generally in an upward direction. In Bengal the yield of winter rice has been raised from 983 to 1,036 lbs, and that of jute from 1,271 to 1,300 lbs. Barley in the United Provinces has been raised from 1,100 to 1,150 lbs, arhar from 750 to 800 lbs, and cotton from 160 to 170 lbs. In the Punjab wheat has been raised from 726 to 791 lbs, sugarcane from 1,686 to 1,933 lbs, and cotton from 118 to 135 lbs. Cotton in Sind has been raised from 125 to 170 lbs, and sugarcane from 4,233 to 8,142 lbs. In Assam the yield of autumn rice has been raised from 672 to 706 lbs, and that of sugarcane from 1,904 to 2,016 lbs. In the North-West Frontier Province wheat has been raised from 633 to 676 lbs, and sugarcane from 2,430 to 2,660 lbs. In a few instances the standards have been decreased. In Sind the yield of rapeseed has been put at 393 lbs ; in Assam the yield of winter rice at 952 lbs, while the yield of jawar in the North-West Frontier Province is now estimated at 399 lbs.

5. The importance of accurate standards of average outturn cannot be exaggerated, since, as already noted, under the present system the estimates of yield in crop reports are based on these standards, and a small error of even one lb per acre may make a difference of thousands of tons in the estimated yield of a province. It has also to be remembered that the result of a single experiment, if not conducted with proper care, may vitiate the average for the district as well as for the province, since the district figure is calculated by averaging the outturns obtained from all the selected experiments in the district, and the provincial average is estimated by multiplying each district outturn by the area under the crop in each district and dividing the sum of the total outturns thus arrived at by the total area under the crop in the province. It is, therefore, extremely necessary that the instructions issued by the Government of India in 1915, referred to above, should be carried out to the fullest extent, as early as possible, where this has not already been done.

6. The statement below compares the average outturns of the major crops in the different provinces. The relative importance of each province in respect of each crop has also been shown by percentages representing the proportion of the total area under each crop in British India cultivated in each province. Tea has been included in this statement, although this crop is not dealt with in the quinquennial returns, the average outturns having been calculated from the special returns of tea production for the five years ending 1916.

(a) Irrigated. (b) Unirrigated.

The outturns of maize in Assam, of sugarcane in Sind, and of cotton in Ajmer-Merwara appear to be too high, as compared with other provinces, although the areas cultivated are insignificant. On the other hand, the outturns of linseed in the Central Provinces and of sesamum in the Central Provinces and Burma appear to be too low in spite of extensive areas being cultivated with the crops in these provinces.

7. In the following paragraphs the leading features of the provincial reports are summarised :—

Bengal.—In 1915 the work of conducting crop cutting experiments in Bengal was partially transferred from the district offices to the Agricultural Department, but owing, as already noted, to a reduction made in the staff of demonstrators attached to the Agricultural Department in consequence of financial stringency, the old system had to be reverted to. This transfer and retransfer of the work from the district staff to the Agricultural Department and back led to some confusion and resulted in fewer experiments being made in some districts than would otherwise have been undertaken. Nevertheless the total number of experiments made during the quinquennium under review with staple crops (rice, wheat, gram, linseed, rape and mustard, sesamum, sugarcane, and jute) was a record of 3,671, as against 2,814 in the previous quinquennium ; and these experiments afforded sufficient data for a general revision of the standards previously adopted for the province. The average yield has been raised in the case of rice, sugarcane, and jute ; while it has been reduced in the case of wheat, gram, rape and mustard, and also linseed. The important changes are the increase in the yield of winter rice from 983 to 1,036 lbs, of autumn rice from 807 to 871 lbs, and of jute from 1,271 lbs, to 1,300 lbs, and the reduction of the yield of wheat from 861 to 698 lbs. The returns do not distinguish between irrigated and unirrigated crops, the irrigated area being relatively very small in the province. A few experiments were also made with certain less important crops such as barley, maize, peas, *khesary*, *mung*, sunn hemp, and tobacco; but the data obtained were not sufficient to warrant the deduction of average yields per acre for the whole province.

Madras.—During the quinquennium under review experiments in Madras were conducted by the Agricultural Department, and it is stated that they may be taken as being on the whole more accurate than those conducted in former years by the officers of the Revenue Department. On the other hand, these are much fewer in number and in many cases are too few to admit of the results being accepted as a representative figure for any tract. It is further stated that the figures reported in the previous quinquennial returns, which were solely based on crop cutting experiments, have never been adopted in Madras for the purpose of calculating outturns in crop forecasts, season and crop reports, etc. For this purpose there exists a separate set of standards, which have been fixed and modified from time to time by the Board of Revenue, in consultation with the Director of Agriculture, on a consideration of the tabulated results of crop cutting experiments, the results obtained on Government farms, and, in the case of cotton, of the figures of total crop exported from certain areas. These standard figures have been reported (rightly) in the present return. The Director of Agriculture, however, remarks that these figures are in need of revision in many cases and that he has now under consideration this important question. For the above reason, no useful comparison can be made between the present and the previous figures, especially as a distinction was made between irrigated and unirrigated crops in the previous figures, whereas the present figures are averages for irrigated and unirrigated crops taken together, except in the case of sugarcane which is always an irrigated crop.

Bombay.—In Bombay the estimates of 1897 were prepared with great care, and the results of the experiments made in the two quinquennial ending 1901-02 and 1906-07 were not considered sufficiently reliable to justify any revision. In the quinquennium ending 1911-12, the system of crop cutting experiments conducted by the district staff was abolished, and a system of more scientifically conducted experiments on Government farms by officers of the Agricultural Department was substituted; but the results obtained on Government farms were too meagre to justify any revision of the provincial averages, although a few changes were made with great caution in the district figures. In the quinquennium under review a few changes have been made in the district figures, as a result of the experience gained by the Agricultural Department ; and it is believed that the changes are in the right direction, although the matter is largely one of guess work. The only change made in the provincial averages is a very slight increase in the yield of cotton, namely, from 100 to 102 lbs, all other figures remaining unchanged. It is stated

that endeavours will be made during the next quinquennium to test other figures upon which it has not yet been possible to offer any definite opinion.

Sind.—The figures reported from Sind in the previous quinquennia were not the average outturns worked out from the yield of crops raised on different classes of lands and under various modes of irrigation, but were mostly the actual results of individual experiments (or mean figures where more experiments than one were made) by the settlement or divisional officers. The present return has also been prepared from similar data, but a distinction has been made between irrigated and unirrigated crops. The Commissioner remarks that in order to work out correct averages, a large number of experiments would be necessary for each crop under different modes of irrigation, and the aggregate cultivation under each mode of irrigation on different classes of lands would also have to be taken into account; but as these statistics are not yet available on a sufficiently large scale, there is no alternative but to accept the figures now communicated by the collectors. As compared with the previous figures the present estimates show an increase in the case of wheat, barley, gram, sugarcane, and cotton, and a decrease in the case of jawar, bajra, sesamum, and rapeseed. The most important changes are the increase in the average yield of barley from 1,076 to 1,279 lbs, that of gram from 476 to 604 lbs, of sugarcane from 4,233 to 8,142 lbs, and of cotton from 125 to 170 lbs; and the decrease in the yield of jawar from 1,396 to 866 lbs, of bajra from 971 to 624 lbs, and that of rapeseed from 602 to 393 lbs. The Commissioner states that it is not possible to explain these wide variations except that the increase in the case of sugarcane and cotton can be ascribed to a more regular supply of water following the many improvements in the canals. The figure for sugarcane (8,142 lbs) seems, however, to be extremely high. It is further stated that instructions have been issued to district officers to collect in future the data of outturn of normal (12-anna) crops raised on different classes of irrigation and to work out on a uniform system the average for the district by taking into account the area under each mode of irrigation.

United Provinces.—In the quinquennium under review experiments in the United Provinces were made regularly by officers of the Agricultural Department and some by settlement officers, in addition to those conducted by district officers. The results of these experiments have not necessitated a change in the previous standards except for barley; jawar, arhar, and cotton. The yield of barley has been raised from 1,100 to 1,150 lbs, that of arhar from 750 to 800 lbs, and that of cotton from 160 to 170 lbs. The yield of jawar, on the other hand, has been reduced from 650 to 600 lbs.

Bihar and Orissa.—In accordance with the Government of India Circular of 1915, referred to above, the execution of crop tests by officers of the Agricultural Department of Bihar and Orissa was started in that year as an experimental measure, and experiments were carried out on a small scale in seven districts as supplementary to those conducted by district officers. The crop tests conducted by the Departmental officers are stated to have shown better results than those conducted by district officers; but the information obtained by the small staff of the Department is not yet of sufficient volume to serve as an effective check on the figures returned by district officers. The experiments conducted by district officers, on the other hand, were, as usual, unreliable owing mainly to carelessness in the selection of typical plots, and the results of these experiments do not, therefore, justify any modification of the provisional standards previously adopted for the province on the basis of the estimates of 1892. In the consolidated tables for British India these unrevised standards have therefore been retained in the statement of provincial averages (Table No. 1), but in the detailed statement of district figures, the average outturns based upon the experiments conducted during the quinquennium under review have been shown for each district, irrigated and unirrigated crops being classified separately. The provincial Director remarks that the district officers' figures should be supplemented by the results of a larger number of experiments made by the trained staff of the Agricultural Department under the new system, before the present provincial standards can be safely revised.

Punjab.—The revision of 1912 in the Punjab was made on the basis of the overcautious estimates of settlement officers, and it was remarked

that the yields then fixed were in consequence too low. The results of the experiments made in the quinquennium under review have confirmed that opinion, and in the present revision these yields, as also the cautious estimates of settlement officers, have been regarded as minima. In consultation with district and settlement officers and the Principal of the Agricultural College, Lyallpur, and other officers of the Department of Agriculture, increases have been made where the results of crop experiments indicate that enhancement is required, provided that the number of experiments has been sufficient. The system of conducting crop experiments has been revised and greatly improved, but unfortunately the new system came into force only with the spring harvest of 1917, at least so far as experiments conducted by district officers were concerned. The present revision shows that a general increase in the provincial averages has taken place. The notable increases are in the yield of rice from 688 to 782 lbs, of wheat from 726 to 791 lbs, of barley from 716 to 809 lbs, of maize from 908 to 1,040 lbs, of sugarcane from 1,686 to 1,933 lbs, and of cotton from 118 to 135 lbs. The Punjab Government remarks "that the present normal yields, though possibly slightly on the low side, are fairly reasonable, and that though it is no doubt difficult to determine how far the results of particular crops in particular harvests vary from the normal, the estimates at least for the main crops are steadily becoming accurate."

Burma.—In the quinquennium under review crop cuttings in Burma were as usual carried out for the most part under the supervision of subdivisional and township officers, with occasional assistance from the Superintendent of Land Records and the subordinate Land Records staff. On a consideration of the results of these experiments and of those made in the previous quinquennia, no change has been made in the previous provincial estimate for rice in Lower Burma; but in the case of Upper Burma the estimates for all the crops now reported exhibit considerable variations. The Director of Agriculture remarks that whatever be the value of the Lower Burma figures, in Upper Burma the number of experiments remains too small to justify confidence in the estimates. In order to show the main products only, the following deductions have, as usual, been made from the gross outturn of the crops, namely, for rice and jawar 33 per cent, and for cotton 70 per cent. The Local Government issued orders in 1916, in accordance with which new rules have been prescribed changing the whole system with effect from 1917-18, and entrusting supervision of the experiments very largely to the Agricultural Department. The results of the new system will be reported in the next return. It may be noted that the average outturns hitherto ascertained by the Director of Agriculture on the basis of crop cutting experiments have never been utilized for the purposes of estimating yields in crop forecasts, season and crop reports, etc, for which there exists a distinct set of normal outturns framed and revised from time to time by the Commissioner of Settlements and Land Records, Burma, mainly on the basis of settlement records. These normal outturns, which are published in the provincial Season and Crop Report, have been shown in the appended Table (No. 8) of district averages underneath the figures of crop cutting experiments reported by the Director of Agriculture, and have also been taken into account in calculating the averages for British India in Table No. 1. It is very desirable that one set of standard outturns should be framed, and revised or verified from time to time, on a consideration of data available from all sources and in consultation with the expert officers of the provincial Agricultural Department.

Central Provinces and Berar.—In the revision of 1912 experiments in the Central Provinces and Berar were selected with great care and due attention was paid to seasonal peculiarities and to classes of soil. In the quinquennium under review, as a result of a large number of experiments made with the rice crop in the Nagpur division slight changes have been made in the figures for that crop for the districts of that division. It has not, however, been considered necessary or advisable to make any change in the provincial averages for any crop.

Assam.—In consequence of the reformation of the province of Assam revised rules for the conduct of crop cuttings were framed in 1912, which were slightly modified in 1915. In accordance with the revised rules experiments were

conducted on all the crops of the province, for which forecasts are made, and also on certain other crops, such as *matikalai* (*phaseolus radiatus*), maize, and potato. The number of experiments made was much larger than in the preceding quinquennium, and their results are stated to have been on the whole satisfactory. The only district in which no experiments were made is the Naga Hills where the staff is stated to be inadequate for the purpose. As a result of the experiments made, the averages have been revised in most cases, the most important changes being the reduction of the yield of winter rice from 1,008 to 952 lbs, and the increase in the yield of autumn rice from 672 to 706 lbs, and that of sugarcane from 1,904 to 2,016 lbs. In the case of cotton a deduction varying between 40 and 50 per cent has been made in order to obtain the yield of lint.

North-West Frontier Province.—In the quinquennium under review experiments in the North-West Frontier Province were made by the district staff (Sub-divisional Officers, Tahsildars, and Naib-Tahsildars) in the two selected districts of Peshawar and Dera Ismail Khan. The results obtained from these experiments have been carefully scrutinized by the Revenue Commissioner, and, in cases where the figures were excessive, especially in Dera Ismail Khan, they have been modified after comparison with the settlement results when the experiments were conducted and worked out under the Settlement Officer's own supervision. For the other districts the averages previously adopted on the basis of experiments framed by Settlement Officers have been repeated. The provincial averages have been raised for all the crops except rice, jawar, and maize. The important changes are the increase in the yield of wheat from 633 to 676 lbs, of barley from 876 to 907 lbs, and of sugarcane from 2,430 to 2,660 lbs, and the reduction of jawar from 436 to 399 lbs.

Ajmer-Merwara.—The figures reported by Ajmer-Merwara are based mainly on the results obtained in 1916-17. The yield of jawar, maize, and cotton has been raised, and that of barley lowered; the most important changes being the increase in the yield of jawar from 137 to 322 lbs, and that of cotton from 170 to 291 lbs. The reported yield of unginned cotton has been reduced by two-thirds to obtain the yield of cleaned cotton (lint), but the figure still appears to be high. It is remarked by the Commissioner that the results of crop experiments, as they are at present conducted in Ajmer-Merwara, are of little, if any, value as a basis for estimating the average yield of any crop on average soil in a year of average character.

Delhi.—The return received from Delhi relates to the new province as constituted in 1912. The reported figures do not call for any special remark.

Coorg.—The only experiments made in Coorg have, as usual, been on rice. The average yield has been slightly lowered from 1,483 to 1,425 lbs, which is still very high in comparison with the reported yield of other provinces. The comparatively high yield of rice in Coorg was ascribed, in the previous return, partly to special attention being paid to rice cultivation since the decline of the coffee industry, and partly to the rice lands of Coorg being watered by hill streams which contain much manurial matter. The slight decrease in the present return is stated to be probably due to the selection of the crop and not to a decline in the productive capacity of the soil or bad years.

Mysore.—As a result of the experiments made in the Mysore State during the quinquennium under review, the averages for all the crops, except sugarcane, have been raised, the most important increases being in the outturns of rice (from 841 to 1,185 lbs), ragi (from 581 to 728 lbs), and cotton (from 79 to 122 lbs). The yield of sugarcane has been reduced from 3,138 to 2,559 lbs. The present figures are based only on experiments conducted by the Revenue Department. It is stated that arrangements have been made for checking the figures by the results of experiments conducted by the Agricultural Department, and the Darbar hope in future to be able to furnish more accurate statistics.

APPENDIX A—*continued*

NOTE.—(1) Average yield of both irrigated and unirrigated land is ascertained by multiplying the yield of irrigated land by the irrigated area cropped, and the yield of unirrigated land multiplied by the unirrigated area cropped, and dividing the sum of these products by the total area cropped.

(2) The superseded figures of the previous quinquennia have been inserted merely to show the trend of the revision made in each period

* The estimates for Bihar and Orissa are the standards adopted provisionally by the Agricultural Department of the province, which are partly based on the information collected in 1892. The results of the experiments for the period ending 1916-17, as recorded in table No. 6, are not considered sufficiently reliable to justify a revision of the provincial estimates.

† The averages for Burma for 1916-17 are based on the normal outturns per acre given in the Season and Crop Report of Burma for 1916-17

APPENDIX B

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA

Agasi, agati, or avati (*Sesbania grandiflora*)—A vegetable crop.

Ajmud (*Carum Roxburghianum*)—A kind of spice.

Ajwan (*Carum copticum*)—A kind of spice, "Bishop's weed."

Akurkura or jevandi (*Chrysanthemum coronarium*)—A non-food crop.

Amada or mamidi allam (*Curcuma amada*)—A condiment.

Ampazham (*spondius magnifera*)—The hog plum.

Arhar (*Cajanus indicus*)—The pigeon pea.

Arunelli (*Phyllanthus distichus*)—Country star gooseberry.

Bajra (*Pennisetum typhoideum*)—The spiked millet.

Bané (Coorg)—Forest land granted for the service of the holding of rice-fields to which it is allotted, to be held free of revenue for grazing, leaf manure, firewood, and for timber required for the farm.

Barbati (*Vigna catjang*)—Asparagus, a food grain.

Barti (*see* Wudalu).

Bel (*Ægle Marmelos*)—A fruit.

Bhagdari (*see Narvadari*).

Bilimbi (*Averrhoa Bilimbi*)—A fruit.

Bimb (*Cephalandra indica*)—A fruit.

Chaplash (*Artocarpus Chaplasha*)—A tree grown mainly for timber.

Chayroot (*Oldenlandia umbellata*)—A dye.

Cheena (*Panicum miliaceum*)—The common millet.

Cheik (*Coix lachryma-jobi*)—A food grain, "Job's Tear."

Chikkudukayalu (*Dolichos lablab*)—The Indian or popat bean.

Cholam (*see* jawar).

Cholanathu (*Andropogon sorghum*)—Fodder jawar.

Chowli (*see* Barbati).

Cumbu (*see* Bajra).

Dani (*Nipa fruticans*)—A soboliferous palm, the leaves of which are used for thatching purposes, also for matting.

Dhaincha (*Sesbania aculeata*)—A plant cultivated mainly for green manure.

Dhatura (*Datura alba*)—A drug.

Dividivi (*Cæsalpinia coriara*)—A tanning material.

Gajar—Carrot.

Garmal (*Coleus barbatus*)—A fruit.

Gondli (*see* Kutki).

Gorait (United Provinces)—Village watchman.

Henna (*Lawsonia alba*)—A dye.

Inám (Madras)—Alienated villages or lands granted rent-free. *Whole inám* villages are *entire* villages held on such tenure; *minor ináms* are portions of villages, generally a number of fields, held on *inám* tenure.

——(*Coorg*)—A grant of land by Government as a reward for services rendered or for religious or charitable purposes.

Isfagul (*Plantago ovata*)—A drug.

Istamrári (Punjab, Ajmer-Merwara)—A tenure which, though the revenue is assigned is charged with a permanently fixed quit-rent.

Izáfat (Bombay)—A form of service tenure.

Izára (Berar)—Land leased under the waste-land rules on stipulated terms.

Jagír (Berar)—Alienated villages or lands granted as rewards for service either rent-free or on payment of a quit-rent; such lands are hereditary.

——(Ajmer-Merwara)—Land granted revenue-free on condition of military service or as a charitable endowment.

——(Bombay)—Estates held hereditarily or for one or more generations on political considerations, no condition of service being attached to them.

——(Coorg)—Lands granted rent-free (1) to individuals on account of services rendered to the State by themselves or their ancestors, and (2) to some religious institutions.

Jambo or naval—Black plum.

Jamma (Coorg)—A tenure under which lands are held on half the ordinary assessment on condition that the holders should perform certain services to Government if required, such as escorting Government treasure and rendering assistance to revenue officers on tour. These lands are inalienable without special sanction.

APPENDIX B—*continued*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*continued*

Jawar (*Sorghum vulgare*)—The great millet.

Jenugulu—Asparagus.

Jinjili (*Sesamum indicum*)—An oilseed.

Jira—Caraway.

Jodi (Madras)—Portion of the assessment reserved or left unalienated when lands were originally granted on favourable assessment. It is distinguished from quit-rent, which represents an additional charge (generally a certain proportion—one-eighth, one-fourth, one-half, or five-eighths—of the full assessment, *minus* the *jodi*) imposed when the tenures were enfranchised or converted into free-holds.

Kalpayaru—Kidney bean.

Kangni (*Panicum Italicum*)—Italian millet.

Kamranga (*Averrhoa Carambola*)—A fruit.

Kanda (*Dracontium*)—A vegetable crop.

Kankrol (*Momordica cochinchinensis*)—A vegetable crop.

Karola (*Momordica Charantia*)—A vegetable crop.

Karuvapilai (*Murraya Koenigii*)—A condiment.

Kavali (*Sterculia urens*)—The Indian katura, a fruit.

Kavathu (*Dioscorea alata*)—A tuber used as a food stuff.

Khálsa (Bombay)—Government occupancy or raiyatwari tenure.

——(Central Provinces)—Areas settled on malguzari or thekadari tenure, in contradistinction to zamindari.

——(Berar, Ajmer-Merwara)—Land paying full revenue to Govèrnment.

Khatedar (Berar)—A registered occupant whose name is entered by authority in the Government records as holding unalienated land.

Khiraj (Assam)—Land assessed to full revenue.

Khoti (Bombay)—A form of tenure, found chiefly in the Konkan, the holder of which is, in return for certain semi-proprietary rights, held responsible for payment of assessment on the area held.

Kirni (*Mimusops hexandra*)—A large tree cultivated chiefly in north-western India. It produces an olive-shaped yellow berry which is eaten chiefly during times of scarcity, and in the hot weather.

Kodo or *Kutki* (*Paspalum Scrobiculatum*)—A kind of millet.

Korai—The Indian matting sedge.

Kolinji (*Tephrosia purpurea*)—A drug.

Koorka (*Strobilanthes*)—A vegetable crop.

Kuhudi (*Panicum trypheron*)—A food grain.

Kulthi (*Dolichos biflorus*)—Horse gram.

Kutki (*see* Kodo).

Kwin (Burma)—An area averaging about one square mile selected as a survey unit on account of some natural features or administrative boundaries.

Lakhiraj (Assam)—Revenue-free land.

Lobia (*see* Barbati).

Madder (*Rubia tinctorum* and *R. cordifolia*)—A dye.

Mahalkari (Bombay)—A revenue and police officer in charge of a sub-division of a taluk.

Makhan sim—The sword bean.

Malguzari (Central Provinces)—A form of tenure, the holder of which is responsible for the payment of the revenue assessed on a village.

Mamlatdar (Bombay)—The chief revenue and police officer (native) in charge of a taluk.

Mankachu (*Alocasia indica*)—A root crop.

Marua (*Elusine coracana*)—A kind of millet.

Marukkolundu (*Artemisia vulgaris*)—The Indian worm wood.

Mehwasi (Bombay)—A proprietary tenure assessable to revenue at a lump sum.

Muafi (Manpur)—Any kind of land held revenue-free either for a fixed period or in perpetuity, but the term does not ordinarily apply to jagirs.

Mung (*Phaseolus Mungo*)—Green gram.

APPENDIX B—*continued*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*continued*

Munsarim (Berar).—A head native revenue officer.

Narvadari, Bhagdari (Bombay).—Forms of proprietary tenure involving joint responsibility for the assessment: the revenue in the former case being fixed in the lump and in the latter distributed by rates over fields.

Neem or Margosa (*Melia azadirachta*).—A non-food crop.

Neerali (*Gynocordia odorata*).—An oilseed.

Nela mulaka (*Solanum xanthocarpum*).—The bogoda brinjal, a drug.

Nisfkhiraj (Assam).—Land liable to pay half the revenue which is ordinarily payable for the term of settlement.

Odamula (*Ochalandra Rheedii*).—A reed.

Ol or zaminkand.—The elephant foot, a root crop.

Palampat (Berar).—Land held on payment of a quit-rent, but not necessarily hereditary.

Panchayat (Bengal).—A committee of five respectable persons nominated or appointed by local officers of Government in a village or group of villages for the settlement of petty disputes among the people and for dealing with other small local matters, such as caste, occupation, sanitation, etc.

Papay (*Carica papaya*).—A fruit.

Parpattigar (Coorg).—A revenue officer in charge of a sub-division of a taluk.

Parvar (*see* Patol).

Patel (Coorg).—Village headman appointed by Government.

Patol (*Trichosanthes dioica*).—A vegetable crop.

Peshkash (Madras).—The fixed land revenue payable to Government on all permanently-settled estates.

Pimakottai or pouta.—The mast wood.

Ponnagantikura (*Alternanthera sessilis*).—A vegetable crop.

Poramboke (Madras).—Lands reserved for public or village communal purposes.

Pót ináms (Bombay).—Lands sub-alienated in alienated villages.

Pót kharáb (Berar).—The unculturable area included in a survey number.

Puliyavara (*Oxalis corniculata*).—A vegetable crop.

Ragi (*see* Marua).

Randhuni (*see* Ajmud).

Rayatwari.—State lands leased to cultivators for a fixed term. A form of tenure in which the settlement of revenue is made by Government with each individual occupant or cultivator of the land for a given term, without the intervention of a third party.

Sabai grass (*Ischœmum Augustifolium*).—A fibre plant.

Sank-alu (*Pachyrhizus angulatus*).—A root crop.

Sapodilla (*Achras Sapota*).—A fruit.

Sebestan (*Cordia Myxa*).—A fruit.

Shanbóg (Coorg).—A village accountant appointed by Government.

Shrotriem (Madras).—Village held on grant (originally to Brahmins), wholly or partially revenue-free.

Siris tree or vagai (*Albizzia Lebbek*).—A non-food crop.

Sorrell (*Rumex vesicarius*).—A vegetable crop.

Sother.—Radish.

Swank (*Panicum frumentaceum*).—A food grain.

Talukdari (Bombay).—A form of proprietary right in force in the northern districts of Bombay.

Tejpat (*Cinnamonum Tamala* and *C. obtusifolium*).—A spice.

Thathameda (Upper Burma).—Household tax.

Thattan payara (*see* Barbati).

Thekadar (Central Provinces).—A farmer, a leaseholder, a middleman; one who receives the rents from the cultivators and pays a stipulated sum to the proprietor.

Thetke grass (*Imperata arundinacea*).—A small perennial grass used chiefly for thatching purposes.

Thugyi (Burma).—A village headman.

APPENDIX B—*concluded*

VERNACULAR TERMS USED IN VOLUME I OF AGRICULTURAL STATISTICS OF INDIA—*concluded*

Til (*Sesamum indicum*).—An oilseed.

Uchhe (*Momordica muricata*).—A vegetable crop.

Udai (*Acacia eburnea*).—A thorny tree used as fuel or for fencing purposes.

Udhad-jamabandi (Bombay).—A proprietary tenure subject to fixed assessment.

Umbli (Coorg).—Lands granted on reduced rates to individuals on account of services rendered to the State by themselves or their ancestors.

Unda (*Pongamia glabra*).—An oil seed.

Urad (*Phaseolus radiatus*).—Black gram.

Wudalu or barti (*Panicum flavidum*).—A food grain.

Zamindar.—The holder of an estate on a fixed assessment under a deed of permanent ownership granted by Government.

———— (Central Provinces).—A chief of minor importance who, while usually holding a large and compact estate on privileged tenure, has been restricted to the rank of an ordinary subject.

Zamindari.—An estate held on a fixed assessment under a deed of permanent ownership granted by Government.

————(United Provinces).—An undivided estate held in joint tenure.

English or Vernacular	Botanical	
Jujube	Zizyphus Jujuba	38. Fruits and Vegetables including root crops.
Jute	Corchorus sp.	22. Jute.
Kachu or Kachalu (*see* Arum)	.....	.....
Kakri (*see* Melon)	.....	.....
Kalpayaru (*see* Beans, Kidney)	.....	.....
Kamranga	Averrhoa Carambola	38. Fruits and Vegetables including root crops.
Kanda	Dracontium	38. „ „
Kangni (*see* Millet)	.....	.....
Kankrol	Momordica cochinchinensis	38. Fruits and Vegetables including root crops.
Kaon (*see* Millet)	.....	.....
Kapok	Eriodendron anfractuosum	23. Fibres—others.
Karola	Momordica Charantia	38. Fruits and Vegetables including root crops.
Karuvapilai	Murraya Koenigii	18. Condiments and spices.
Kavali or Indian Katura	Sterculia urens	38. Fruits and Vegetables including root crops.
Kavathu, pannikkavathu, pallakavathu, kolkavathu	Dioscorea alata	38. „ „ „
Kharbuja (*see* Melon)	.....	.....
Khesari (*see* Vetch)	.....	.....
Khurfa (*see* Purslane)	.....	.....
Kidney bean (*see* Bean)	.....	.....
Kirni	Mimusops hexandra	39. Miscellaneous food crops.
Kodo (*see* Millet)	.....	.....
Korai (*see* Matting sedge, Indian)	.....	.....
Kokam (*see* Mangosteen)	.....	.....
Kolinji or vempali	Tephrosia purpurea	35. Drugs and Narcotics—others.
Koorka	Strobilanthes	38. Fruits and Vegetables including root crops.
Kuhudi	Panicum trypheron	10. Other food grains, etc.
Kulthi (*see* Gram)	.....	.....
Kutki (*see* Millet)	.....	.....
Lemon (*see* Citron)	.....	.....
Lentils	Lens esculenta or Ervam lens	10. Other food grains, etc.
Lettuce	Lactuca Scariola	38. Fruits and Vegetables including root crops.
Lime (*see* Citron)	.....	.....
Linseed	Linum usitatissimum	12. Linseed.
Lobia (*see* Barbati)	.....	.....
Locust tree (*see* Carob)	.....	.....
Lucerne	Medicago sativa	37. Fodder crops.
Madder	Rubia tinctorum and R. cordifolia.	28. Dyes and Tanning Materials—others.
Mahua	Bassia latifolia and B. longifolia.	39. Miscellaneous food crops.
Maize	Zea Mays	8. Maize.
Makhan Sim (*see* Beans, Sword)	.....	.....
Mango	Mangifera indica	38. Fruits and Vegetables including root crops.
Mangosteen or Kokam	Garcinia indica	38. „ „ „
Mankachu	Alocasia indica	38. „ „ „
Margosa or Neem tree	Melia azadirachta	40. Miscellaneous non-food crops.
Marians	Bouea burmanica	38. Fruits and Vegetables including root crops.
Marjoram	Origanum vulgare	18. Condiments and spices.
Marua (*see* Millet)	.....	.....
Marukkolundu or Indian wormwood	Artemisia vulgaris	40. Miscellaneous non-food crops.

APPENDIX C—*continued*

ALPHABETICAL LIST OF CROPS—*contd.*

Name of Crop		Heads of classification in Table IV
English or Vernacular	Botanical	
Mast wood	Calophyllum inophyllum	16. Oilseeds—others.
Mati kalai (*see* Black gram)	.....	.....
Matting sedge, Indian or Korai	Cyperus corymbosus, C. tegetum.	23. Fibres—others.
Medlar, Indian	Vangueria edulis	38. Fruits and Vegetables including root crops.
Melon, Kharbuja	Cucumis Melo	38. „ „ „
„ Kakri	Cucumis Melo var. momordica	38. „ „ „
„ Musk	Cucurbita moschata	38. „ „ „
„ Water	Citrullus vulgaris	38. „ „ „
„ White Gourd (*see* Gourd)	.....	.....
Metha (Fenugreek)	Trigonella fœnum-græcum	18. Condiments and spices.
Millet, Common or Cheena	Panicum miliaceum	10. Other food grains, etc.
„ Great or jawar or cholum	Sorghum vulgare	5. Cholum or Jawar.
„ Italian, Kangni, or Kaon	Panicum Italicum or Setaria italica	10. Other food grains, etc.
„ Kodo or Varagu	Paspalum scrobiculatum	10. „ „
„ Little, Kutki, or Gondli	Panicum miliare	10. „ „
„ Marua or Ragi	Elusine Coracana	7. Ragi or marua.
„ Spiked, Bajra or Cumbu	Pennisetum typhoideum	6. Cumbu or Bajra.
Mint or Pudina	Mentha arvensis	18. Condiments and spices.
Morinda or Al	Morinda tinctoria	28. Dyes and Tanning Materials—others.
Moth (*see* Bean)	.....	.....
Mulberry	Morus indica	40. Miscellaneous non-food crops.
Mung (*see* Gram)	.....	.....
Mustard	Brassica sp.	14. Rape and Mustard.
Naval (*see* Plum, black)	.....	.....
Neem tree (*see* Margosa)	.....	.....
Neerali	Gynocordia odorata	16. Oilseeds—others.
Niger Seed or Sorguja	Guizotia abyssinica	16. Oilseeds—others.
Nutmeg	Myristica fragrans	18. Condiments and spices.
Oats	Avena sativa	37. Fodder crops.
Odamula (reeds)	Ochalandra Rheedii	40. Miscellaneous non-food crops.
Ól (*see* Elephant foot)	.....	.....
Onion	Allium Cepa	18. Condiments and spices.
Opium	Papaver somniferum	29. Opium.
Orache, garden (*see* spinach)	.....	.....
Oranges	Citrus Aurantium	38. Fruits and Vegetables including root crops.
Palm, Date	Phœnix sylvestris	20. Sugar—others.
„ Palmyra	Borassus flabellifer	20. „ „
Papay	Carica papaya	38. Fruits and Vegetables including root crops.
Parvar or Patol	Trichosanthes dioica	38. „ „ „
Peach	Prunus persica	38. „ „ „
Peas	Pisum sativum or Pisum arvense.	10. Other food grains, etc.
Peanut (*see* Groundnut)	.....	.....
Pepper	Piper or Capsicum	18. Condiments and spices.
„ Black	Piper nigrum	18. „ „ „
„ Long	Piper longum	18. „ „ „
Pigeon or bottle grass	Setaria glauca	10. Other food grains, etc.
Pigeon pea (*see* Arhar)	.....	.....
Pimakottai, Pouna (*see* Mastwood)	.....	.....
Pine apple	Ananas sativa	38. Fruits and Vegetables including root crops.
Plantain	Musa sapientum	38. „ „ „
Plum, black, Jambo tree or Naval	Eugenia Jambolana	38. „ „ „
„ Hog, or Ampazham	Spondias mangifera	38. „ „ „
Poi (*see* Spinach)	.....	.....

APPENDIX C—*continued*

Name of Crop		Heads of classification in Table IV
English or Vernacular	Botanical	
Pomegranate	Punica granatum	38. Fruits and Vegetables including root crops.
Pomelo	Citrus decumana	38. „ „ „
Ponnagantikura	Alternanthera sessilis	38. „ „ „
Potato	Solanum tuberosum	38. „ „ „
„ Sweet	Ipomœa Batatas, Batatas edulis.	38. „ „ „
Pudina (*see* Mint)	.....	.....
Puliyavara	Oxalis corniculata	38. Fruits and Vegetables including root crops.
Pumpkin	Cucurbita pepo	38. „ „ „
Pumpkin Melon (*see* Gourd, red)	.....	.....
Radish or Sother	Raphanus sativus	38. Fruits and Vegetables including root crops.
Ragi (*see* Millet)	.....	.....
Randhuni (*see* Ajmud)	.....	.....
Rapeseed	Brassica sp.	14. Rape and Mustard.
Raspberry	Rubus lasiocarpus	38. Fruits and Vegetables including root crops.
Rhea	Bœhmeria nivea	23. Fibres—others.
Rice	Oryza sativa	2. Rice.
Rose apple (*see* Apple)	.....	.....
Roselle	Hibiscus subdariffa	38. Fruits and Vegetables including root crops.
Rubber (India)	Hevea brasiliensis, manihot Glaziovii.	40. Miscellaneous non-food crops.
Sabai grass	Ischœmum augustifolium	23. Fibres—others.
Safflower	Carthamus tinctorius	28. Dyes and Tanning Materials—others.
Saffron	Crocus sativus	28. „ „
Sage	Salvia officinalis	18. Condiments and spices.
Sam tree or Chaplash	Artocarpus Chaplasha	40. Miscellaneous non-food crops.
Sank-alu	Pachyrhizus angulatus	38. Fruits and Vegetables including root crops.
Sapodilla	Achras Sapota	38. „ „ „
Sawan (*see* Swank)	.....	.....
Sebestan	Cordia myxa	38. Fruits and Vegetables including root crops.
Senna	Cassia angustifolia and C. ovata.	35. Drugs and Narcotics—others.
Sesamum, til or jinjili	Sesamum indicum	13. Sesamum.
Shahjira (*see* Caraway, black)	.....	.....
Shama (*see* Swank)	.....	.....
Singhara or water caltrop	Trapa bispiñosa	38. Fruits and Vegetables including root crops.
Siris tree or vagai	Albizzia Lebbek	40. Miscellaneous non-food crops.
Sisal hemp (*see* Hemp)	.....	.....
Soapnut or Kumkudu-Kaya	Sapindus trifoliatus	35. Drugs and Narcotics—others.
Sorguja (*see* Niger seed)	.....	.....
Sorrell	Rumex vesicarius	38. Fruits and Vegetables including root crops.
Sowa (*see* Dill)	.....	.....
Sother (*see* Radish)	.....	.....
Soy bean (*see* Bean)	.....	.....
Spelt wheat (*see* Wheat)	.....	.....
Spinach	Spinacea oleracea	38. Fruits and Vegetables including root crops.
„ Indian or poi	Basella alba	38. „ „ „
„ Mountain, or Garden Orache	Atriplex hortensis	38. „ „ „
Strawberry	Fragaria vesca	38. „ „ „
Sugarcane	Saccharum officinarum	19. Sugarcane.

APPENDIX C—*concluded.*

ALPHABETICAL LIST OF CROPS—*concld.*

Name of Crop		Heads of classification in Table IV
English or Vernacular	Botanical	
Sunflower	Helianthus Annuus	16. Oilseeds—others.
Swallow-wort	Calotropis sp.	23. Fibres—others.
Swank, Sawan, or Shama	Panicum frumentaceum	10. Other food grains, etc.
Sweet flag	Acorus Calamus	35. Drugs and Narcotics—others.
Sweet potato (*see* Potato)	.....	.....
Tamarind	Tamarindus indica	18. Condiments and spices.
„ Manila	Pithecolobium dulce	38. Fruits and Vegetables including root crops.
Taramira	Eruca sativa	14. Rape and Mustard.
Tea	Camellia Thea	31. Tea.
Tejpat	Cinnamonum Tamala and C. obtusifolium.	18. Condiments and spices.
Tepari (*see* Gooseberry)	.....	.....
Thattan-payara (*see* Barbati)	.....	.....
Thetkè (grass)	Imperata arundinacea	40. Miscellaneous non-food crops.
Til (*see* Sesamum)	.....	.....
Tobacco	Nicotiana Tabacum and N. Rustica.	32. Tobacco.
Tomato	Lycopersicum esculentum	38. Fruits and Vegetables including root crops.
Tori, Toria	Brassica Napus	14. Rape and Mustard.
Turmeric	Curcuma longa	18. Condiments and spices.
Turnip	Brassica Rapa	38. Fruits and Vegetables including root crops.
Uchhe	Momordica muricata	38. „ „ „
Udai	Acacia eburnea	40. Miscellaneons non-food crops.
Unda	Pongamia glabra	16. Oilseeds—others.
Urad (*see* Gram)	.....	.....
Varagu (*see* Millet)	.....	.....
Vagai (*see* Siris tree)	.....	.....
Vempali (*see* Kolinji)	.....	.....
Vetch, Field or gawar	Cyamopsis psoralioides	37. Fodder crops.
„ Chickling or khesari	Lathyrus sativus	10. Other food grains, etc.
Water caltrop (*see* Singhara)	.....	.....
„ melon (*see* Melon)	.....	.....
Wheat	Triticum sativum	3. Wheat.
„ Buck	Fagopyrum esculentum	10. Other food grains, etc.
„ Spelt	Triticum sativum var Spelta.	3. Wheat.
Wood apple (*see* Apple)	.....	.....
Wudalu or barti	Panicum flavidum	10. Other food grains, etc.
Yams	Dioscorea sp.	38. Fruits and Vegetables including root crops.
Zaminkand (*see* Elephant foot)	.....	.....

Agricultural Statistics of India

1919-20

VOLUME II—INDIAN STATES

Introductory Note

This volume deals with statistics for Indian States as far as reported. As in the previous issues, summary tables have been inserted to show the total figures relating to area, the classification of area, and the area under crops for each State or group of States, and the totals for all the reporting States. The total number of cattle as far as reported in each of the years 1906-07 to 1919-20 has also been included in the general summary table (No. 1). These statistics are defective for comparative purposes, as additions have been made in the number of reporting States from time to time. The States of Hyderabad, Benares, Bhavnagar, Dharampur, and Bagli have for the first time furnished figures for 1919-20. Explanatory notes have been inserted at the foot of the tables. In the present issue the former Table II (classification of area) has been split up into two separate tables, *viz.*, Table II—Classification of Area, and Table III—Area under Irrigation; while Table VI—Transfers of Property in land—has been abolished. Details for ten years have been added in each table for groups of States. Two charts and an index for easy reference have been added to the volume. General

It should be noted that, for the reasons explained below, the agricultural statistics of Indian States are incomplete and are of far less accuracy than those of British Provinces published in Volume I. The question of the improvement of the statistics of Indian States has been taken up by the Government of India, and it is expected that more complete and accurate statistics for them will be available in the near future. As these States comprise one-third of the total area of India, the importance of their statistics in the all-India returns can scarcely be over-estimated.

The total area of Indian States is approximately 496,000,000 acres (775,000 square miles), with a population of 70 millions according to the census of 1921. These are divided for the purposes of agricultural statistics into two main classes, namely, (1) States within the jurisdiction of Local Governments and Administrations, and (2) States having direct political relations with the Government of India.

(*1*) *States within the jurisdiction of Local Governments and Administrations.*—The total area of these States is 181,064,000 acres, with a population of about 30 millions. They are divided into the following main groups:—

	Area Thousand acres	Population Thousands
Bombay and Sind States	40,878	7,412
Madras States	6,803	5,460
Punjab States	24,511	4,415
Bihar and Orissa States	18,335	3,965
Central Provinces States	19,960	2,068
North-West Frontier Province States (including Tribal areas)	16,380	2,585
Burma States (including Shan States)	38,402	1,524
United Provinces States	4,348	1,135
Bengal States	3,477	896
Assam States	7,970	384
Total	181,064	29,844

The total area of all these States (with the exception of the greater part of the South Shan States and Karenne in Burma and the Tribal areas in the

North-West Frontier Province) is included in the areas of the respective British Provinces stated in column 2 of table I of Volume I (British India), but is shown separately in column 3 of that table in order to arrive at the net area of British territory (in column 5) dealt with in that volume. Of these States, agricultural statistics are at present available only for the following thirty-six States in the Madras and the Bombay Presidencies, the Punjab, and the United Provinces, and are dealt with in this volume :—

	Area Thousand acres	Population Thousands
Madras States—		
Travancore	4,880	4,006
Cochin	897	979
Pudukkottai	754	427
Banganapalle	163	37
Sandur	101	12
Bombay States (*a*)—		
Jath	571	70
Phaltan	254	56
Aundh	321	69
Sachin	28	19
Bhavnagar	1,808	426
Dharampur	450	115
Punjab States—		
Patiala	3,795	1,500
Jind	853	308
Nabha	620	263
Bahawalpur	12,700	781
Sirmur (Nahan)	632	140
Kalsia	123	57
Pataudi	34	18
Loharu	143	21
Dujana	57	26
Kapurthala	416	284
Malerkotla	107	80
Faridkot	412	151
Simla Hill States (comprising Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, Madhan, and Koti)	3,231	405
United Provinces State—		
Benares	574	363
Total	33,924	10,613

(2) *States having direct political relations with the Government of India.*— These are divided into the following main groups :—

	Area Thousand acres	Population Thousands
Hyderabad	51,256	12,454
Mysore	18,865	5,977
Baroda	5,236	2,122
Kashmir	54,036	3,322
Rajputana States	82,552	9,857
Central India States	49,515	6,005
Baluchistan (Native)	51,462	379
Sikkim	1,804	82
Total	314,726	40,198

No agricultural statistics are at present available for Baluchistan (Native), and Sikkim. Of the remainder, returns are received from the following twenty-two States :—

	Area Thousand acres	Population Thousands
Hyderabad	51,256	12,454
Mysore	18,865	5,977
Baroda	5,236	2,122
Kashmir	54,036	3,322

(*a*) Figure of population for the Bhavnagar State relates to the Census of 1921; for the other States it relates to Census of 1911.

	Area Thousand acres	Population Thousands
Rajputana States—		
Jaipur	9,971	2,329
Bikaner	14,922	661
Marwar	22,410	1,842
Tonk	1,634	288
Alwar	2,037	709
Kishangarh	549	78
Bharatpur	1,263	496
Jhalawar	527	96
Kotah	3,638	650
Bundi	1,421	187
Central India States—		
Gwalior	16,511	3,176
Indore	6,080	1,148
Bhopal	4,657	691
Rajgarh	613	115
Narsingarh	469	101
Barwani	754	120
Nagod	321	68
Bagli	87	17 (*a*)
Total	217,257	36,627

The total area of all the fifty-eight reporting States * named above amounts to 251,181,000 acres, with a population of about 47 millions. These States, therefore, represent 51 per cent of the total area, and 67 per cent of the total population, of all the Indian States.

The earliest years from which the statements of agricultural statistics have been received from these fifty-eight reporting States are noted below :—

Mysore	1886-87
Jaipur	1892-93
Gwalior	1896-97
Bikaner, Marwar, Tonk	1898-99
Alwar, Bharatpur, Kishangarh, Jhalawar, Kotah	1900-01
Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, Bahawalpur	1907-08
Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, Simla Hill States (12 in number)	1908-09
Kashmir	1910-11
Baroda, Bundi, Phaltan, Aundh, Sachin, Jath	1918-19
Hyderabad, Benares, Bhavnagar, Dharampur, Bagli	1919-20

The returns for the different States relate to the years ending on the dates stated below, so far as information is now available :—

Bikaner, Sandur, Banganapalle	year ended 31st March
Jath, Phaltan	,, 6th June
Mysore, Baroda, Pudukkottai, Cochin, Travancore, Gwalior, Indore, Narsingarh, Nagod, Bikaner, Kishangarh, Bharatpur, Kotah, Bagli, Patiala, Aundh, Dharampur, Benares	,, 30th June
Bundi	,, 14th July
Sachin	,, 31st July
Jaipur	,, 31st August
Marwar, Jhalawar, Bhopal, Barwani	,, 30th September
Hyderabad	,, 5th October
Tonk, Rajgarh, Alwar	,, 31st October

From the total area of all the fifty-eight reporting States (251,181,000 acres), deduction must be made of 121,249,000 acres for which statistics are

Table I, Total area

(*a*) Relates to Census of 1911.

* Statistics of live stock (Table V) are furnished by a few other States which do not furnish statistics for the other tables. On the other hand, some of these fifty-eight reporting States do not furnish figures for live stock (Table V), nor for land revenue (Table VI)

not available. These comprise chiefly unsurveyed areas and lands held on jagir, muafi, and other privileged tenures. The net area actually covered by these statistics is, therefore, only 129,932,000 acres by professional survey,* or 128,923,000 acres according to village papers.*

Table II, Classification of area

This area is classified, for the purposes of agricultural statistics, as shown in the margin. About 16,151,000 acres, or 12·4 per cent of the total, are occupied by forests; and the area not available for cultivation, that is, land absolutely barren, or unculturable, or covered by buildings, water, and roads, or otherwise appropriated to uses other than agriculture, amounts to 22,462,000 acres or 17·4 per cent. The balance, 90,756,000 acres or 70·2 per cent, represents the area available for cultivation. Of this, 16,867,000 acres, or 13 per cent of the total area, represent culturable waste, *i.e.*, land available for cultivation but not taken up, and 14,133,000 acres, or 11·1 per cent, were kept fallow in the year under report. The net area actually sown in the year was thus 59,756,000 acres (46·1 per cent of the total area). This net area sown, however, excludes areas sown more than once in the year. If areas sown more than once (as noted below) are taken as separate area for each crop, the gross area sown in the year of report amounts to 64,223,000 acres.

	Thousand acres	Per cent
Forests	16,151	12·4
Not available for cultivation	22,462	17·4
Culturable waste other than fallow	16,867	13·0
Current fallows	14,133	11·1
Net area sown	59,756	46·1
Total	129,369	100

Table III, Area under irrigation

The total area irrigated in the reporting States during 1919-20 was 8,309,000 acres, as against 6,200,000 acres in the preceding year. Of this, 2,358,000 acres were irrigated from Government canals, 797,000 acres from private canals, 1,467,000 acres from tanks, 1,927,000 acres from wells, and the remaining 1,760,000 acres from other sources of irrigation. These figures, however, do not take into account areas sown more than once during the year with the help of irrigation, but indicate the extent of land actually irrigated. If areas sown more than once are counted as separate area for each crop, the gross area of irrigated crops amounts to 10,186,000 acres. Of this area, 9,131,000 acres were under food crops.

Table IV, Area under crops

The gross area cultivated with crops in the reporting States was, as stated above, 64 million acres in 1919-20. The different classes of crops and the area occupied by each, so far as details are available, are stated in the margin. Of the total area sown, food crops occupied about 94,658,000 acres or 78·3 per cent and non-food crops about 13,770,000 acres or 21·7 per cent. Of the food-crops, food grains (cereals and pulses) occupied as much as 47,253,000 acres, or 74·5 per cent of the total area sown, and other food crops (condiments and spices, sugar, fruits and vegetables, and miscellaneous food crops together) covered some 2,405,000 acres, or only 3·8 per cent of the total. Of the non-food crops, oilseeds occupied 3,814,000 acres or 6 per cent of the total area sown, fibres such as cotton, hemp, etc., 6,204,000 acres or 9·8 per cent, and fodder crops 1,890,000 acres or 3 per cent. The other non-food crops, namely, dyes and tanning materials, drugs and narcotics (tobacco, tea, coffee, opium, etc.), and miscellaneous non-food crops together, covered some 1,862,000 acres or 2·9 per cent of the total. Statistics for the premier State of Hyderabad have been received for the first time and are included in the present issue. No comparison has therefore been made with previous year's figures, as the inclusion of Hyderabad has nearly doubled the figures.

	Thousand acres	Per cent of total
Food-grains	47,253	74·5
Condiments and spices	252	·4
Sugar	195	·3
Fruits and vegetables	596	·9
Miscellaneous food-crops	1,362	2·2
Total food crops	49,658	78·3
Oilseeds	3,814	6·0
Fibres	6,204	9·8
Dyes and tanning materials	278	·4
Drugs and narcotics	402	·6
Fodder crops	1,890	3·0
Miscellaneous non-food crops	1,182	1·9
Total non-food crops.	13,770	21·7

* For explanation of the terms "professional survey" and "village papers," see footnotes to Table I (page 6) of this Volume and the Note prefixed to Volume I

† See footnote (*c*) on page 23 of the Tables

The total extent of land on which more than one crop was raised during the year was 4,467,000 acres.

Table V is prepared by forty-five States, namely, Hyderabad Mysore, Baroda, Pudukkottai, Banganapalle, Sandur, Cochin, Gwalior, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Nagod, Bagli, Bikaner, Marwar, Jaipur, Kishangarh, Alwar, Bharatpur, Jhalawar, Tonk, Kotah, Bundi, Jath, Phaltan, Aundh, Sachin, Bhavnagar, Dharampur, Benares, Jhabua, Jobat, Sailana, Ali-Rajpur, Piploda, Dewas (junior) Maihar, Chhatarpur, Dhar, Rutlam, Panna, Travancore, and Karpurthala. According to the latest statistics, the total number of live-stock of the bovine class (bulls, bullocks, cows, buffaloes, and young stock, *i.e.*, calves and buffalo calves) is 31,384,000, that of the ovine class (sheep and goats) 19,384,000, and that of horses and ponies, mules, donkeys, and camels 921,000. The numbers of ploughs and carts are 3,987,000 and 1,201,000, respectively. Table V, Live-stock

Table VI (Land Revenue) is prepared by twenty-seven States, namely, Hyderabad, Mysore, Pudukkottai, Banganapalle, Sandur, Cochin, Gwalior, Indore, Bhopal, Rajgarh, Narsingarh, Barwani, Nagod, Bikaner, Marwar, Jaipur, Alwar, Bharatpur, Jhalawar, Tonk, Kotah, Bundi, Jath, Phaltan, Aundh, Sachin, and Benares. Table VI, Land Revenue

The Appendix explains the vernacular terms used in this volume, and the charts illustrate (1) the classification of the total area showing the proportion of cultivated and uncultivated lands, and (2) the total area sown in 1919-20 with shares of food and non-food crops.

D. N. GHOSH,

Offg. Director of Statistics.

DEPARTMENT OF STATISTICS,
Calcutta, February 21, 1922.

TABLES

Note.—The entries in this table regarding the classification of area and areas under food and non-food crops comprise figures for Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1906-07; to which were added those for Indore, Rajgarh, Narsingarh, Nagod, Patiala, Jind, Nabha, and Bahawalpur from 1907-08; for Pudukkottai, Banganapalle, Sandur, Cochin, Travancore, Bhopal, Barwani, Sirmur, Kalsia, Pataudi, Loharu, Dujana, Kapurthala, Malerkotla, Faridkot, and the Simla Hill States from 1908-09; for Kashmir from 1910-11, for Baroda, Phaltan, Aundh, Sachin, Jath, and Bundi from 1918-19; and for Hyderabad, Bagli, Benares, Bhavnagar and Dharampur from 1919-20

*The entries regarding cattle comprise Mysore, Jaipur, Gwalior, Bikaner, Marwar, Tonk, Alwar, Kishangarh, Bharatpur, Jhalawar, and Kotah from 1906-07; to which were added those for Indore, Rajgarh, and Narsingarh from 1907-08; for Bhopal, Barwani, and Nagod from 1908-09; for Banganapalle and Cochin from 1910-11; for Pudukkottai from 1916-17; for Sandur, Baroda, Aundh, Phaltan, Sachin, Jath, and Bundi from 1918-19; and for Hyderabad, Bagli, Benares, Bhavnagar, Dharampur, Jhabua, Jobat, Sailana, Ali-Rajpur, Piploda, Dewas (Junior), Maihar, Chhatarpur, Dhar, Rutlam, Panna, Travancore, and Kapurthala from 1919-20. Detailed figures for the States for nine years are given in Table V (pages 138-171)

(*a*) Excluding areas for which no returns are available

(*b*) Condiments and spices, fruits and vegetables, and miscellaneous food crops

(*c*) Cinchona, Indian hemp, other dyes and tanning materials, other drugs and narcotics, and miscellaneous non-food crops

(*d*) The total of food crops and non-food crops shown here does not agree with the total sown area shown in Summary Table No. 4 for the reasons stated in the footnotes to that table (page 5)

(*e*) Included under "Young stock (calves)"

Column 2.—The professional survey is that carried out by the Survey of India in Northern India, and by the corresponding departments in Southern India. In States where there has been no professional survey, the figures are based on the best available information.

Column 3.—In this column is deducted the entire area for which the statistics required for Tables II and IV are not forthcoming in whole or in part. This area comprises chiefly estates held on privileged tenures, which have not yet been surveyed and which possess at present no agency for the annual collection of agricultural statistics. As surveys extend and the organisation of village statistical establishments develops, the area in this column is reduced, and that entered in the next columns (4 and 5) and dealt with in Tables II and IV is correspondingly increased.

Columns 4 and 5.— Column 4 is a check on the accuracy of column 5. In the latter, "village papers" mean "the papers prepared by the village accountants." In States where no village papers exist, or where the source of information is the same for both the survey and the village papers, the figures in column 4 are necessarily repeated in column 5. The area in village papers may differ somewhat from that given by the Survey Department, (*a*) because, while the survey area is calculated in block, the area by village papers represents the added total of field and village areas, and (*b*) because the system followed as regards the inclusion or exclusion of areas covered by water, buildings, roads, and railroads is not always uniform in the two sets of returns.

(*a*) See footnote (*b*) on page 13

(*b*) Previous year's figure repeated [*vide* footnote (*a*) on page 16]

(*c*) *Column 3* states the area of unsurveyed forests.

See explanations given in the footnotes (page 6)

(*a*) *Column 2* excludes forest areas, the area of forest villages managed by the Forest Department, and about 6,980 acres of 6 unsettled jagir villages.

(*b*) See footnote (*a*) on page 15.

(*c*) *Column 3* states the areas of jagir and other alienated lands.

See explanations given in the footnotes (page 6)

(*a*) *Column 2.*—As there has been no revenue survey so far, this column states the area of the State according to the best available information. *Column 3* states the areas of jagir and muafi villages, the boundaries of which have been demarcated, but for which the statistics required for other tables are not available. *Columns 4 and 5.*—In the absence of any revenue survey data, the figures in column 5 are repeated in column 4

(*b*) *Column 3* states the area held by jagirdars and udakdars, as well as the muafi plots in khalsa villages for which on separate record is maintained.

(*a*) Statistics are furnished by twelve States of this group, namely, Bashahr, Jubbal, Theog, Kumbarsain, Khaneti, Bilaspur, Baghal, Ghund, Mehlog, Baghat, Madhan, and Koti, the last but one from 1911-12 and the last one from 1918-19. These represent about 86 per cent of the aggregate area of all the States comprised in the group. The returns, however, relate only to the settled portions of the reporting States, except Bilaspur, Baghal, and Mehlog, for which complete returns have been received. *Column 2* states the area of the settled portions of the States named above, except Bilaspur, Baghal, and Mehlog, for which the whole area is included.

(*a*) *Column 2* states the area of the State as ascertained by revenue survey. *Column 3* exhibits the area of jodi, kayam gutta, and sarvamanayam villages, and jagirs for which the statistics required for the other tables are not available at present.
Column 5.—The figures in column 4 are repeated.
(*b*) *Column 2* states the whole area of the State according to the Census of 1911. *Column 3* states the areas of Bhadarwa and Punch, certain unsettled areas and frontier tracts which are not directly looked after by the Revenue Department of the State, and also certain other areas for which returns are not available. *Columns 4 and 5* entirely exclude the area of Bhadarwa (*Jagir*) and Punch and Frontier *Ilaqas*.
(*c*) Details not available.
(*d*) Excludes 105,070 acres for which details of districts are not available.

(*a*) *Column 3* states the estimated areas of jagir, muafi, ubari, tanka, istamrar and such other villages as are still unsurveyed.

(*b*) *Column 2* states the whole area of the State, excluding the areas covered by the Indore Residency, the Mhow Cantonment, and the Hirapur Thakurate. *Column 3* states the areas of jagir, istamrar, and forest villages, and also of some of the outbandi villages.

(*c*) *Column 3* states the areas of jagir and such other villages as are still unsurveyed; it also includes the areas which formerly were parts of jagir villages, but which, after the completion of the settlement operations, either lapsed to or were resumed by the State.

(*d*) *Column 3* states the areas of jagir and such other villages as are still unsurveyed. It also includes the area of those khalsa villages which have not yet been regularly assessed; these are chiefly the latest acquisition to khalsa under the law of escheat.

Columns 4 and 5.—The area by village papers does not differ from the area by survey, for, although differences occur under the different classes of soil, the total area of each village is the same in both cases.

Column 2.—The definition of the term "forests" is as follows:—"Any land classed or administered as forest under any legal enactment dealing with forests." Any cultivated areas existing within such forests may be excluded and entered in column 6 (net area sown), an explanation being given in a note.

Column 3 includes all land absolutely barren, and also all land covered by buildings, water, roads, or otherwise appropriated to uses other than agriculture

Column 4 includes groves not classed in the area sown. Areas under bamboos and thatching grass, when not forming parts of forest areas, are included in this column.

(*a*) The statistics collected in 1908-09 have been repeated up to 1912-13, as fresh information could not be collected owing to pressure of work connected with the revenue settlement of the State.

(*b*) *Column 2* states the area of reserved forests within surveyed villages

(*c*) Includes 8,215 acres in coffee estates

(*d*) See footnote (*c*) on page 23.

Table II—*continued*

See explanations given in the footnotes (page 16)

(*a*) ***Column 2*** states the areas of forests left unassessed. Forests in this State not having been demarcated, figures in columns **3** and **4** also include same forest areas. ***Column 4*** states areas of land left uncultivated for over three years of *bir* (grass lands) and of pasture lands. ***Column 5***.—The maximum period for which land thrown out of cultivation is reckoned as fallow is three years.

Column 2 states the areas of state and district forests and of plantations.

Column 3 includes not only lands absolutely unfit for cultivation, but also lands reserved for pasture, and plantations intended for public use and therefore left unassessed. A large portion of the pasture lands is fit for cultivation, and is given out for cultivation from time to time under special orders, such lands when given out for cultivation being transferred from column 3 to 5 or 6 as the case may be.

Column 4 states unoccupied assessed waste.

Column 5.—There is no system of fallows, that is, lands are not systematically left uncultivated for the purpose of giving them rest. Individuals occupy large areas and pay full assessment thereon, leaving portions uncultivated, generally for the use of their cattle. For purposes of account the difference between the areas of the lands occupied by individuals and of those actually cultivated by them is taken as fallow. The lands occupied and assessed are sometimes unfit for cultivation, having been taken up on full assessment merely for use as pasture, but the exact area of all such lands cannot be ascertained, although it cannot be large.

Columns 2 to 7.—State the area actually irrigated during the year, areas sown more than once being counted once only.

(a) Included in column 14

(b) The statistics collected in 1908-09 have been repeated up to 1912-13, as fresh information could not be collected owing to pressure of work connected with the Revenue Settlement of the State.

Columns 8 to 19 state the gross area of irrigated crops, areas sown more than once being counted as separate areas for each crop. This accounts for the excess in some cases of the total area of crops irrigated (column 19) over the total area irrigated (column 7)

(*a*) Included in column 16

(*b*) Incomplete

(*c*) Includes 120,384 acres for which details are not available

Table III—*continued*

Note—In this table are entered the areas actually sown, whether the crop comes to maturity or not, except in cases when fields, owing to the failure of the first sowings, have been devoted to other crops: in such cases the area first sown is omitted. In cases where two or more crops are grown together, an estimate is made of the area covered by each, and the areas so estimated are separately returned. The estimate is made by the village accountant, or is subsequently determined on formulæ prescribed by higher authorities

(*a*) See footnote (*b*) on page 87

(*b*) Includes millets, maize, and gram.

See explanations given in the footnote (page 72.)

(*a*) In Travancore, no accounts are kept regarding the area under each crop, and the figures shown in this table, up to 1917-18 are based on very rough estimates. An improved system has been introduced by the Darbar according to which accurate figures are available in some cases from 1918-19.

Oilseeds						Condiments and spices	Sugar		Fibres				State
Linseed	Sesamum (Til or jinjili)	Rape and mustard	Ground-nut	Others	Total		Sugar-cane	Others	Cotton	Sann	Others	Total

Note.—Animals in towns, cities, and cantonments are included where it is possible to secure their enumeration. Oxen and buffaloes not old enough for work or to produce young ones are classed as "young stock."

(a) Included under "Young Stock (calves)"

(b) Excludes figures for the Civil and Military Station Bangalore, where census operations have not yet been completed

(c) Not separately returned

(d) Included under "Sheep"

(a) Included under "Young stock (calves)"

NOTE.—Until 1898-99 statistics were collected every year by the *shaubog* and *pa'el* of each village by enquiry or inspection. Since that year a census has been taken every five years as nearly as possible simultaneously throughout the State. The last census was taken in January 1921. Live-stock in municipalities are included

*No information

Entry 2 (a)—Areas held revenue-free or at privileged rates should be deducted, but the deduction need not be made where such areas are in any case less than an entire village, and where there is any difficulty in estimating the corresponding deduction to be made in the population (head 10). Areas should not be entered in this column merely because the assessment due from them has been suspended or remitted on account of short crops, or for other special reasons

Entry 3.—This column should be sub-divided into (*a*) total fully assessed area for which returns are available, and (*b*) area cultivated out of the area given in head (*a*). The latter head should be equal to the former after deducting current fallows and fully assessed waste

† See explanation given in the footnote (page 174)

See explanations given in the footnotes (page 172)

* These are *khalsa* or state lands only. The whole area of the State according to the census of 1911 is stated in Table I—No. 5

** *Alwar.*—The classes of tenure are zamindari and village communities, the former comprising *zamindari-bil-ijmal* and the latter *pattidari* and *bhaiyachara*. *Item 1* states the area by village papers (column 5 of Table I). *Item 2 (a)* shows areas covered with forests (column 2 of Table II)which are wholly revenue-free.

† *Jhalawar.*—The whole area stated in this table is classed as "Khatedari" and "Watendari" equivalent to "raiyatwari" and "zamindari" respectively. Item 1 excludes entire villages held by jagirdars and udakdars.

* No information

Entry 4.—Where land revenue includes the zamindar's share, the net demand should be entered, and the table should state the payments due by the zamindars to Government, not those by the raiyats to the zamindars. The actual realisable demand on account of the year should be entered, after excluding arrears for past years. This column should include all the heads classed as "Land Revenue" in the Civil Accounts.

Entry 5.—The population in entry 5 is that of the last general census.

** *Entry 7*—As in entry 4, but only ordinary land revenue on fully assessed areas is to be entered.

†*Narsingarh.*—*Item 1* states the net area by revenue survey as shown in column 4 of Table I. *Item 2* (*a*) includes forest areas (column 2 of Table II) and uncultivable (column 3 of Table II) and culturable land not possessed by any cultivator. *Item 2* (*b*) states the area of minor muafis. *Item 3* (*b*) includes fallow lands left uncultivated for three years or less as full cultivation rate is assessed on them.

* No information

Column 2 states the net area by survey (column 4 of Table I)
Column 4 (*a*) includes area not fully assessed which cannot be separated from area fully assessed.
Column 5 states "Land Revenue" as defined in the Civil Accounts, and includes cesses which cannot be separated from the land revenue.
Column 8 states only ordinary land revenue with cesses.
Columns 9 and 10.—The figures in these columns represent the incidence of land revenue on areas both fully and partially assessed
Column 11 includes population of area not fully assessed which cannot be separated from that of fully assessed area

Column 4 (b) states not only the area actually under crops, but also fallow lands as revenue rates are assessed on the total cultivated area, including fallows. Hence the area stated in this column exceeds the total area in Table IV

Columns 5 and 6 relate only to khalsa area, as statistics for these columns are not available for the whole area of the State

Column 6 includes population of the muafi and jagir villages excluded from column 2

APPENDIX.

Vernacular terms used in the Explanatory Notes.

Bhaiyachara (Alwar).—Villages held by a number of families, by possession without reference to shares.
Bir (Narsingarh).—Grass lands.
Bunds (Alwar).—Embankments.
Chauth (Bharatpur).—Land paying one-fourth of the rental.
Ilaka (*Ilaqa*).—An estate or dependency, a property.
Inám (Mysore).—Wholly or partially revenue-free tenure ; *minor ináms* are plots of inám lands situated in a village, whether Government or inám.
Istamrár (Gwalior, Indore, Bharatpur).—A tenure which, though the revenue is assigned, is charged with a permanently fixed quit-rent.
——— (Alwar).—A tenure which, though favourably assessed, is charged with a permanently fixed quit-rent.
——— (Bharatpur).—Land paying a reduced permanently fixed *jama* (assessment).
Jagir (Mysore, Gwalior, Kishangarh, Kotah, Narsingarh).—Land granted revenue-free on condition of military service or as a charitable endowment.
——— (Indore, Barwani).—Land granted revenue-free on condition of military service or as a charitable endowment or in recognition of good services rendered to the State.
———(Bikaner).—Land granted revenue-free on condition of military service or as a charitable endowment.
——— (Alwar).—Assignment of land revenue, with or without condition of military service and payment of commutation dues, granted in recognition of meritorious services to relations of the ruling chief or other high officials of the State.
——— (Kishangarh).—Land granted revenue-free on condition of military service either actually rendered or fulfilled by a rateable money contribution.
Jagirdar (Jhalawar).—Holder of jagir land.
Jodi (Mysore).—A whole inám village paying quit-rent to Government.
Kayamgutta (Mysore).—A whole village granted by the State on fixed money-rent.
Khalsa (Gwalior, Jaipur, Bikaner, Marwar, Bharatpur).—Land paying full revenue to the State.
Khatedari (Jhalawar).—Same as *raiyatwari.*
Muafi (Gwalior, Alwar, Kotah, Bharatpur, Kishangarh).—Land granted free of revenue.
Out-bandi (Indore).—Assessment of revenue calculated at a fixed rate per plough.
Patel (Mysore).—Village headman appointed by Government.
Pattidari (Alwar).—Villages held by a number of families, by shares, ancestral or customary.
Patwari (Narsingarh).—Village revenue officer or accountant.
Raiyatwari (Bharatpur).—State area leased to cultivators for a fixed term.
Rundhs (Bharatpur).—State grass preserves.
Sarvamanayam (Mysore).—An inám village, wholly revenue-free.
Shanbóg (Mysore).—A village accountant appointed by Government.
Tanka (Gwalior).—Estate held by certain families who were in power when the country was annexed and who were left in possession of their estates on payment of a fixed annual tribute, or *tanka,* bearing but a small proportion to the annual assets.
Ubari (Gwalior).—Land held at an abatement of the full land revenue.
Udakdar (Jhalawar).—Holder of a Ubári estate.
Watendari (Jhalawar).—Same as *Zamindari.*
Zamindari (Bharatpur).—Estate on a fixed assessment under a deed of permanent ownership granted by the State.
Zamindari-bil-ijmal (Alwar).—Villages held jointly by a body of owners.
